We were engaged to audit the accompanying statements of net assets available for benefits of Finkelstein and Affiliated Entities 401(k) Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Principal Trust Company (Principal), the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee, as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description:

The following description of Finkelstein and Affiliated Entities 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan covering all employees of Finkelstein and Partners ("the Company") who are age twenty-one or older. Eligibility is not dependent on a service requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 20% of pretax annual compensation, as defined in the Plan agreement. The Plan allows for discretionary matching contributions by the Company, with the amount to be matched determined by the Company's Board of Directors each Plan year. For the years ended December 31, 2009 and 2008, the Company matched 10% of the employees' deferral. Contributions are subject to certain limitations.

Effective January 1, 2008, the Plan was amended to provide automatic enrollment in, and deferral of 2% of compensation to, the Plan. Participants may elect to change the type or percentage of the deferral at any time.

Participant Accounts

Participant accounts are credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings/(losses). Allocations are based on each participant's earnings or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's accounts.

Participant Loans

Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their account balance. Loan terms range from one to five years, with the exception of loans for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime plus one percent per annum. Principal and interest are paid ratably through payroll deductions.

Vesting

Participants are immediately vested in their salary reduction contributions and all earnings thereon.

The Plan's vesting terms for employer contributions are as follows for all employees based on their hire dates:

Years of Vesting Service	Hired Prior to April 1, 2008	Hired On or After April 1, 2008
Less than 3	100%	0%
3 or more	100%	100%

Distributions

Upon retirement, a participant receives a lump-sum amount equal to the value of his or her account. A participant may also withdraw his account balance upon termination. However, any non-vested portion of the account balance is forfeited.

(Note 1 is continued on page 5.)

Forfeitures

Forfeitures in the amount of $1,324 and $13,681 were used to reduce Company matching contributions during 2009 and 2008, respectively. Forfeiture balances as of December 31, 2009 and 2008 amounted to $20 and $1,338, respectively.

Administration

The Plan is administered by the Company. Principal, the trustee of the Plan, is also the record keeper and agent of the Plan.

Note 2. Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Accounting principles generally accepted in the United States of America ("GAAP") requires investment contracts held by a defined-contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by GAAP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as any adjustment necessary to adjust the fully benefit-responsive investment contracts from fair value to contract value. As of December 31, 2009 and 2008, there were no adjustments deemed necessary. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid. Corrective distributions payable generally represent the distribution of certain assets to employees in order for the Plan to comply with ERISA nondiscrimination rules.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Company.

Reclassification of Amounts

Certain amounts for the year ended December 31, 2008 have been reclassified to conform with the presentation of amounts for the year ended December 31, 2009. There is no effect on the 2008 results from operations.

Note 3. Information Certified by Principal Trust Company:

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Trust Company ("Principal"), except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedules.

The following table presents the fair value of the investments in the Plan certified by Principal. Single investments representing 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are separately identified.

	2009	2008
Principal Fixed Income Option	$ **1,627,533**	$ 1,592,382
PIMCO Total Return C Fund	**726,212**	572,823
Principal Lifetime 2020 R4 Fund	**1,434,239**	700,195
Principal Lifetime 2030 R4 Fund	**1,295,144**	986,177
Principal Lifetime 2040 R4 Fund	**1,011,535**	790,969
Principal Large Cap Growth R4 Fund	**1,025,545**	924,492
Principal Disciplined Large Cap Blend R4 Fund	-	476,445
Other Investments	**5,041,277**	3,353,650
	$ 12,161,485	$ 9,397,133

Principal also certified to the completeness and accuracy of $1,703,293 and ($4,337,978) of net appreciation/(depreciation) in fair value of investments and $245,892 and $206,198 of interest and dividends related to the aforementioned investments for the years ended December 31, 2009 and 2008, respectively.

Note 4. Fair Value Measurements:

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(Note 4 is continued on page 7.)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant Loans: Valued at amortized cost, which approximates fair value.

Guaranteed Investment Contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Note 7).

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of the future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	December 31, 2009			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds	$ 10,263,707	$ -	$ -	$ 10,263,707
Investment Contract	-	-	1,627,533	1,627,533
Participant Loans	-	-	270,245	270,245
Total Assets at Fair Value	$ 10,263,707	$ -	$ 1,897,778	$ 12,161,485

	December 31, 2008			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 7,566,840	$ -	$ -	$ 7,566,840
Investment Contract	-	-	1,592,382	1,592,382
Participant Loans	-	-	237,911	237,911
Total Assets at Fair Value	$ 7,566,840	$ -	$ 1,830,293	$ 9,397,133

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2009 and 2008:

	Investment Contract	**Participant Loans**
Balance - 1/1/08	$ 714,719	$ 263,632
Net gains/(losses)	17	-
Investment income	38,824	18,149
Net transfers in	742,186	-
Purchases, sales, issuances and settlements (net)	96,636	(43,870)
Balance - 12/31/08	$ 1,592,382	$ 237,911
Net gains/(losses)	(5)	-
Investment income	62,468	15,246
Net transfers out	(206,810)	-
Purchases, sales, issuances and settlements (net)	179,498	17,088
Balance - 12/31/09	$ 1,627,533	$ 270,245

Note 5. Corrective Distribution Payable:

As of December 31, 2009, a liability of $65,249 was recorded for the amount refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service. Refunds were not required for the plan year ended December 31, 2008.

Note 6. Related Party Transactions:

Certain Plan investments are shares of mutual funds managed by Principal. Principal is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services amounted to $12,479 and $3,581 for the years ended December 31, 2009 and 2008, respectively.

Note 7. Investment Contract:

The Plan has a fully benefit-responsive group annuity contract with Principal. Principal maintains the contributions in a general account backed stable value contract. The contract guarantees principal and provides a stated rate of return backed by Principal.

As described in Note 2, because the investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the backed stable value contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The methodology for calculating the interest crediting rate is based on a formula agreed upon with the issuer, but may not be less than 3.43% and 3.33% for the years ended December 31, 2009 and 2008, respectively. The crediting rate is currently reset on a semiannual basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Certain events and circumstances allow the issuer to terminate the fully benefit-responsive investment contracts with the Plan and settle at an amount different from contract value. Such events include the following: (1) if the Plan Sponsor wishes to terminate the Plan's interest, the amount paid out will be the value of the Plan's interest or (2) termination will occur on the date when both no current deposit arrangements have been made between participant and issuer and there are no Guaranteed Interest Funds with a value greater than zero.

The investment contract is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a stable value fund. As a result, the average yield earned by the plan is the yield earned (i.e. interest credited) on the group annuity contract.

Average Yields	**2009**	2008
Based on actual earnings	**3.43%**	3.33%
Based on interest rate credited to participants	**3.43%**	3.33%

Note 8. Tax Status:

The Internal Revenue Service has determined and informed the Company, by a letter dated May 6, 1992, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan performs annual tests to ensure that it is being operated in accordance with the applicable requirements of the Internal Revenue Code. Management has not identified any potential compliance issues. Accordingly, no adjustments for tax uncertainties have been recorded

Note 9. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will be 100% vested in their account balances.

Note 10. Risks and Uncertainties:

The Plan utilizes various investment instruments which are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements. The Plan's investments are not insured or protected by the Plan's trustee. Accordingly, the Plan is subject to the normal investment risks associated with money market funds, mutual funds, stocks, bonds and other similar types of investments.

Note 11. Subsequent Events:

The date to which events occurring after December 31, 2009, the date of the most recent balance sheet, have been evaluated for possible adjustment to the financial statements or disclosure is April 21, 2010, which is the date on which the financial statements were available to be issued.

Note 12. Reconciliation to the Form 5500:

The following is a reconciliation of net assets available for Plan benefits per the financial statements to the Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	**$ 12,144,019**	$ 9,437,306
