General

The Plan is a defined contribution plan covering substantially all employees of Atlantis Marine World, LLC, Treasure Cove Resort Marina, Inc., and HP East End Riverhead, LLC (collectively, the "Company") who have completed one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Investment Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

On August 1, 2016, SiteOne Landscape Supply, LLC acquired Bissett Equipment Corporation ("BEC"). In connection with the acquisition, BEC took action to terminate its participation in the Bissett Nursery Corporation 401(k) Plan effective as of July 30, 2016. The assets and liabilities of the Bissett Nursery Corporation 401(k) Plan which were attributable to current and former BEC employees have been transferred directly to a new plan established by BEC. On August 1, 2016, SiteOne Landscape Supply, LLC acquired substantially all the assets of Bissett Nursery Corporation ("BNC"). In connection with the acquisition, most employees have terminated employment with BNC and commenced employment with SiteOne Landscape Supply, LLC. This resulted in a turnover ratio of more than 20%, as defined in Revenue Ruling 2007-43, and therefore, a partial termination of the Plan was deemed to have occurred in 2017. This did not impact Plan operations as BNC and BEC participants are 100% vested in the Plan.

On October 1, 2016, the Plan was formally amended to remove BNC as a participating employer in the Plan. Atlantis Marine World, LLC was named as the primary participating employer and the Plan name was formally changed from Bissett Nursery Corporation 401(k) Plan to the Atlantis Marine World 401(k) Plan.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at four percent of eligible compensation and their contributions invested in a designated target date fund until changed by the participant.

Note 1 - Description of Plan (continued)

Contributions (continued)

The Company will make a matching contribution equal to 50% of the participant's elective deferrals up to the percentage or dollar amount of 6% of a participant's compensation. Company matching contributions are invested in a portfolio of investments as directed by the participants. During the year ended May 31, 2017, the Company made matching contributions of $70,650 to the Plan. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's accounts and bear interest at prime (4.0% and 3.5% at May 31, 2017 and 2016, respectively), plus 1.00%. Principal and interest is paid ratably through payroll deductions. A loan that is considered in default is reported as a deemed distribution which is a taxable event to the participant.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a certain period, as defined in the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At May 31, 2017 and 2016, forfeited nonvested accounts totaled $2,411 and $746, respectively. These accounts will be used to reduce future Company matching contributions. In 2017, employer contributions were reduced by $746 from forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of May 31, 2017 and 2016.

Excess Contributions Payable

Excess contributions payable represent amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service and has been recorded as a liability with a corresponding reduction to contributions. The Plan did not distribute the 2017 excess contributions to the applicable participants prior to August 15, 2017 (see Note 8).

Note 2 - Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

Plan management has evaluated subsequent events through the date of the report, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

ATLANTIS MARINE WORLD 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 3 - Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 31, 2017 and 2016:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund collective investment trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that are valued at the NAV of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of May 31st:

	Assets at Fair Value as of May 31, 2017	
	Level 1	Total
Mutual funds	$ 4,055,646	$ 4,055,646
Total assets in the fair value hierarchy	$ 4,055,646	4,055,646
Investments measured at net asset value per unit		520,131
Total assets at fair value		$ 4,575,777

	Assets at Fair Value as of May 31, 2016	
	Level 1	Total
Mutual funds	$ 6,288,464	$ 6,288,464
Total assets in the fair value hierarchy	$ 6,288,464	6,288,464
Investments measured at net asset value per unit		1,083,678
Total assets at fair value		$ 7,372,142

There were no Level 2 or Level 3 assets held by the Plan at May 31, 2017 and 2016.

Investment Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize the Plan's investment measured at fair value using the net asset value per share practical expedient as of May 31, 2017 and 2016, respectively. There are no participant redemption restrictions for this investment; the redemption notice period is applicable only to the Plan:

May 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Collective Investment Trust	$ 520,131	N/A	Daily	12 months

May 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Collective Investment Trust	$ 520,131	N/A	Daily	12 months

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note 5 - Tax Status

The Plan is structured and follows a volume submitter profit sharing plan, pre-approved by the Internal Revenue Service ("IRS"). The IRS issued an opinion letter dated March 31, 2014, that the volume submitter profit sharing plan is acceptable in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the applicable taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Certification

Certain information related to investments held at May 31, 2017 and 2016 and net appreciation in fair value of investments, interest and dividends for the year ended May 31, 2017, disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Matrix Trust Company (formerly MG Trust Company, LLC), the Custodian of the Plan.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Investment Concentrations

At May 31, 2017, two of the investments held by the Plan, individually amounted to approximately 10% or more of net assets available for benefits and approximately $1,368,000 or 30% in the aggregate. At, May 31, 2016, two of the investments held by the Plan, individually amounted to approximately 10% or more of net assets available for benefits and approximately $2,746,000 or 37% in the aggregate.

Note 8 - Excess Contributions Payable

Current year excess contributions payable represent corrective distributions that have not been made to an active participant to return the excess deferral contribution as required to satisfy the relevant nondiscrimination provisions of the Plan. The Company and the third-party administrator have made provisions under IRS Rev. Proc. 2008-50 Section 8 to disburse the corrective distributions and to satisfy the relevant nondiscrimination provisions of the Plan. This amount is included in the Plan's statements of net assets available for benefits as excess contributions payable of $5,883 at May 31, 2017.
