Independent Auditors' Report

To the Plan Administrator
Ocelot Engineering, Inc.
Profit Sharing & 401(k) Plan
San Bernardino, California

We were engaged to audit the accompanying statements of net assets available for benefits of the Ocelot Engineering, Inc. Profit Sharing & 401(k) Plan as of December 31, 2009 and 2008, the related statements of changes in net assets available for benefits for the years then ended, and the supplemental Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plans' investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PROFIT SHARING & 401(K) PLAN

Notes to Financial Statements

1. Description of the Plan

The following description of the Ocelot Engineering, Inc. Profit Sharing & 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan providing benefits to all full-time employees of Ocelot Engineering, Inc., DBA Chaparral Motorsports (Employer) who have completed 90 days of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions

Under the provisions of the Plan, each active participant may enter into a written Salary Deferral Agreement with the Employer as defined in the Plan, for the contribution period, up to the maximum allowable amount as described yearly by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers an insurance investment contract and twenty pooled separate accounts. From January 1 through August 16, 2009, Employer shall make a non-elective safe harbor contribution for each participant equal to a 100 percent match up to 3 percent of his or her total compensation for the plan year plus a 50 percent match from 3 percent up to 5 percent of compensation. Effective August 16, 2009, the Plan was amended, eliminating the non-elective safe harbor contributions. The Employer may also make a discretionary profit-sharing contribution in that amount, if any, which it in its sole discretion determines to be a proper contribution. Total contributions are subject to certain limitations.

Participant Accounts

An account is maintained for each participant. Each participant's account is credited with the participant's voluntary contribution, Employer's non-elective contribution (through August 16, 2009), participant's Plan earnings and losses, and an allocation of Employer's discretionary profit-sharing contribution, and charged with an allocation of administrative expenses. Allocation of Employer's non-elective contribution is based on participants' eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 100 percent immediately vested in the employer's non-elective safe harbor matching contributions. Participants are vested in the Employer's discretionary contributions over a period of six years at a rate of 20 percent per year, beginning after the second year of service. Participants become fully vested in the employer's discretionary contributions in the event of total or permanent disability while employed with the employer or upon death of the participant.

Notes to Financial Statements

1. Description of the Plan

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time, as described in the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Upon termination, forfeitures of the nonvested portion of the Employer's contributions are used first to pay plan expenses, then to reduce future Employer contributions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Participant loans are valued at amortized cost which represents fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. Investments

The following presents investments that represent five percent or more of the Plan's net assets:

Principal PTR Large-Cap Growth II SEP ACCT 35,244.7518 shares		$236,696

3. Investments (continued)

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $724,210.

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1:
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2:
Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3:
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Investments (continued)

The following table sets forth by level, within the fair hierarchy, the plan's assets at fair value as of December 31,

Total	$490,398	$(10,661)	$7,062	$9,773	$496,572	$(10,204)

4. Investment Contract with Insurance Company

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company, except for comparing such information certified by the asset custodian to information included in the Plan's financial statements and supplemental schedules.

The Plan invests in an unallocated insurance contract (guaranteed interest account) and pooled separate accounts. The contract with the insurance company is a guaranteed deposit account, and the interest rate is guaranteed until its maturity date. The pooled separate accounts invest primarily in stocks and bonds which are reported at fair market value based on quoted market prices and do not have guaranteed rates of return.

The investments are participant directed investments that are certified as complete and accurate by Principal Life Insurance Company as of December 31, 2009 in the amount of $4,642,278. Refer to the Supplementary Schedule for details of these investments.

5. Plan Termination

Although it has not expressed any intent to do so, Employer has the rights under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

6. Related-Party Transactions

The Plan has not considered Employer contributions to the Plan or benefits accrued or paid by the Plan for participants as party-in-interest transactions.

Certain Plan investments are shares of Principal Life Insurance Company managed by Principal Financial Group. Principal Financial Group is the trustee as defined by the Plan and, therefore, these transactions with an affiliate qualify as party-in-interest transactions. Fees paid to Principal Financial Group by the Plan amounted to $8,075, and $2,243 for the years ended December 31, 2009 and 2008, respectively.

The Plan's administrative fees, other than contract administrator fee and commissions, are paid by Employer. In addition, Employer provides certain services, such as accounting, to the Plan without compensation.

7. Tax Status

The Plan obtained its latest determination letter dated April 21, 2003 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended and restated since receiving the determination letter. However, the Plan administrator and the Plan's trustee believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

8. Risks and Uncertainties

The Plan invests in various investment funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

9. Subsequent Events

The Plan has evaluated subsequent events occurring between January 1, 2010 and May 18, 2010, the date of issue of these financial statements.
