Independent Auditor's Report

To the Administrative Committee and Participants of the
Barker Management, Inc. 401(k) Plan:

I was engaged to audit the financial statements and schedule of Barker Management, Inc. 401(k) Plan (the "Plan") as of December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's Administrative Committee.

As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Administrative Committee instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the custodian of the Plan in 2009 and 2008, except for comparing such information with the related information included in the financial statements and schedule. I have been informed by the Administrative Committee that the custodian holds the Plan's investment assets and executes investment transactions. The Administrative Committee has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008 that the information provided to the Administrative Committee by the custodian is complete and accurate.

Because of the significance of the information that I did not audit, I am unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodian, have been audited by me in accordance with generally accepted auditing standards and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Plan Description

General

Barker Management, Inc. (the "Company"), established and adopted the Barker Management, Inc. 401(k) Plan (the "Plan") effective February 1, 2002. The Plan is a defined contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following brief description of the Plan is provided for general information purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Contributions

Participants who are employees of the Company for three months may elect to have the Company contribute on their behalf to the Plan a portion of their compensation for the Plan year. Such salary reduction contributions ("elective deferrals") on a pre-tax basis shall not exceed each participant's annual compensation, as defined, to a maximum of $16,500 in 2009 and $15,500 in 2008. Additionally, participants may elect to transfer funds into the Plan from other qualified retirement plans.

The Company also makes contributions to the Plan. Company matching contributions are allocated to participants based on their elective deferrals. The Company's matching contribution consists of an amount equal to 50% of each participant's elective deferrals up to 6% of the participant's eligible compensation. During 2009, the Company made matching contributions in the amount of $79,999. The Company may also make contributions at the discretion of the Company's board of directors. Such contributions are not limited to the Company's profits. No discretionary contributions were made to the Plan in 2009.

Participant Accounts

Each participant's account is credited with their contributions (elective and matching) and for investment earnings. Each participant's account is charged with the amounts they withdraw from the Plan and for their share of investment expenses and losses. Accounts are credited and charged daily for transactions and participants receive reports on their accounts every quarter. Participants may elect to invest their account

balances among sixteen investment options offered by Principal Life Insurance Company ("PLIC") and designated by the Company. A description of several of these options follows:

Guaranteed Interest Account - Primary investment objective is to earn interest. PLIC guarantees a rate of interest for a specified period of time. PLIC's guarantee is supported by its general account which invests mostly in private placement bonds, commercial mortgages and residential mortgages (Guaranteed Interest Account);

Money Market Account - Primary investment objective is to earn interest. This account invests in money market instruments (Pooled Separate Account);

Bond and Mortgage Account - Primary investment objective is to earn interest through investment in intermediate-term fixed-income loans (Pooled Separate Account);

Mid-Cap Value Account - Primary investment objective is to obtain log-term capital appreciation. This account invests primarily in the equity securities of United States companies that are considered undervalued and which have a capitalization that falls within the S&P Mid-Cap 400 Index range (Pooled Separate Account):

U.S. Property Account - Primary investment objectives are current income and long-term appreciation. This account invests primarily in developed, rent producing real estate, including warehouses, office buildings and retail properties (Pooled Separate Account);

Small-Cap Stock Index Account - Primary investment objective is growth though long-term appreciation. This account invests primarily in the common stocks of companies that are included in the S&P 600 Small Cap Index (Pooled Separate Account);

International Small Company Account - Primary investment objective is to provide long-term capital appreciation through investments in equity securities of smaller companies located outside the United States (Pooled Separate Account).

Large Cap Stock Index Account - Primary objective is to produce long-term capital appreciation through investing in the common stocks of large companies comprising the S&P 500 Index (Pooled Separate Account);

Vesting and Forfeiture

Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Participants become vested in Company matching contributions, including earnings thereon, based on years of service to the Company. Commencing at the end of the second year of completed service, participants vest at the rate of 20% for each completed year of service to the Company. After completing six years of service, a participant is 100% vested in Company matching contributions and earnings thereon.

In the event a participant withdraws from the Plan before fully vesting, the unvested portion of Company matching contributions, including earnings thereon, is forfeited. Forfeitures are allocated to eligible participants based upon their compensation relative to the total compensation of all eligible participants for a specified period. Commencing in 2007, forfeitures may reduce the amount of future Company matching contributions or may be used to pay for administrative expenses of the Plan, at the discretion of the Company's board of directors. There were forfeitures amounting to $582 in 2009. During 2009, the Company used forfeitures amounting to $762 to reduce matching contributions.

Administrative Expenses

Expenses related to the administration and record keeping of the Plan are generally paid for from Plan assets. The Company is not obligated to pay any of the Plan's expenses. However, the Company, at its discretion, may decide to pay certain of the Plan expenses in the future.

Termination of the Plan

The Company has the right under the Plan to suspend or discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, all participants will become 100% vested in their accounts.

2) Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in net assets for each year presented.

Valuation of Investments

The Plan records its investments in accordance with Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("SFAS 157") (see note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Federal Income Taxes

The Plan's trustees believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe the Plan was qualified and the related trust was tax-exempt as of December 31, 2009 and 2008 under Sections 401(a) and 401(k) of the Code and is exempt from taxation under provisions of Section 501(a). Accordingly, no provision is made for Federal income tax in the financial statements.

Cash Equivalents

The Plan considers short-term highly liquid investments to be cash equivalents. The Plan held no cash equivalents at December 31, 2009 and 2008.

Payment of Benefits

Benefits are recorded when paid for financial statement purposes.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially

affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

(3) Administration of the Plan

The trustees of the Plan are Byron Barker, Peter Barker and Ann Barker, officers of the Company. Administration and record keeping and investment management services were provided in 2009 and 2008 by The Principal Financial Group under an agreement with the Plan.

(4) Investments

The Plan's investments are participant directed and have been certified by the Plan's trustee. Investments held at December 31, 2009 and 2008 are summarized as follows:

	2009	2008
Pooled separate accounts:		
Principal Money Market Fund	$199,711	159,981
Principal Bond and Mortgage Fund	193,625	149,707
Principal U.S. Property Fund	82,113	95,334
Principal Large Cap Stock Index Fund	90,847	61,461
Aggregate of mutual fund investments less than five percent of the Plan's net assets	286,704	214,200
	853,000	680,683
Guaranteed interest accounts	547,742	496,200
Participant loans	123,937	71,642
Total investments	$1,524,679	1,248,525

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Pooled separate accounts	$88,408
Guaranteed interest accounts	(4,450)
	$83,958

(5) Fair Value Measurements

SFAS 157 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under SFAS 157 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts: Valued based on the closing prices of the underlying securities held by each account at year end.

Guaranteed interest account: Valued based on the contract value minus early withdrawal charges, as contractually defined.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore,

although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$853,000	-	-	$853,000
Guaranteed interest accounts	-	-	547,742	547,742
Participant loans	-	-	123,937	123,937
Total assets at fair value	$853,000	-	671,679	$1,524,679

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$680,683	-	-	$680,683
Guaranteed interest accounts	-	-	496,200	496,200
Participant loans	-	-	71,642	71,642
Total assets at fair value	$680,683	-	567,842	$1,248,525

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Participant loans	Guaranteed investment accounts
Balance, beginning of year	$71,642	496,200
Unrealized gains relating to instruments still held at the reporting date	-	(4,450)
Purchases, sales, issuances and settlements (net)	52,295	55,992
Balance, end of year	$123,937	547,742

(6) Participant Loans

A participant employed by the Company may borrow from the Plan the lesser of $50,000 or 50% of the value of their vested account balance. The minimum loan amount is $1,000. Loans are repaid in installments not to exceed 60 months (120 months for principal residence loans) and bear interest at fixed interest rates set by the trustees.

During 2009, loans in the total principal amount of $90,939 were made to participants. Participant loans bear interest ranging from 5.25% to 10.25%. Interest charged on outstanding loans amounted to $5,709 in 2009.

As of December 31, 2009 and 2008, the principal balance outstanding on participant loans was $123,937 and $71,642, respectively.

(7) Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through August 28, 2010, the date the financial statements were available to be issued.
