Under the terms of the Plan, a participant may borrow up to 50% of his or her account balance (minimum of $1,000, not to exceed $50,000). The maximum repayment duration of general purpose loans is five years. Loans that are for the purchase of a primary residence may be repaid over a period of up to 15 years. The fixed interest rate charged on the outstanding loan balance of general purpose loans is the greater of the prime rate of interest or the five-year certificate of deposit interest rate plus two percent, as charged by Marshall & Ilsley Trust Company, the Trustee of the Plan. For loans that extend beyond five years, the fixed interest rate is Marshall & Ilsley Trust Company's fifteen-year mortgage rate. Interest and principal repayments are automatically deducted from the participant's biweekly payroll. Loan information is as follows:

December 31,	**2009**	2008
Number of outstanding loans	**100**	86
Outstanding loan balances	**$1,094,335**	$962,248
Range of interest rates	**3.64 - 9.25%**	4.08 - 9.25%
Range of maturities	**1 - 14 years**	1-14 years

Administrative Costs

All administrative costs incurred for services provided to the Plan by outside vendors are paid by the Plan and borne by Plan participants. These administrative expenses are presented as deductions in the statement of changes in net assets available for Plan benefits. They include audit fees, investment advisory fees and recordkeeping fees. Fees associated with the required annual audit of the Plan by the Plan's independent accounting firm are negotiated annually. Investment advisory fees are calculated monthly based upon a fee scale, relative to total Plan assets, which ranges from .02% to .15% of the market value of Plan assets. Recordkeeping services are calculated monthly at .18% of the market Plan assets. WJE also incurs other Plan administrative costs associated with services provided by its employees to the Plan which are borne by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Mutual Funds

The fair value of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value as of December 31, 2009 and 2008.

Collective Trust Fund

The collective trust fund represents investments formed from the pooling of investments by institutional investors. Units held in the collective trust fund, including stable value funds, are valued at the unit value as reported by the investment managers as of December 31, 2009 and 2008 (Note 4).

Cash and Short-Term Investments

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest.

Participant Loans

Participant loans are stated at their outstanding balances, which approximates fair value.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

Benefit Payments

Benefit payments are recorded when paid.

Accounting Standards Codification

Effective with the financial statements for the year ending December 31, 2009, the Plan adopted Financial Accounting Standards Board Accounting Standards Codification ("ASC" or "the Codification") 105-10, *"Generally Accepted Accounting Principles,"* which becomes the single official source of authoritative, nongovernmental United States generally accepted accounting principles. The adoption of ASC 105-10 changed all references to authoritative accounting literature referenced in the Plan's notes to the financial statements.

3. Investments

The market values of investment funds that represent 5% or more of net assets available for Plan benefits are as follows:

December 31,	2009	2008
EuroPacific Growth Fund Shares Beneficial Interest	**$12,682,337**	$8,580,351
M&I Stable Principal Fund	**7,961,728**	7,620,803
American Growth Fund of America	**7,912,784**	5,180,675
American Beacon Large Cap Value Fund	**7,340,944**	5,187,762
Vanguard Institutional Index Fund	**7,267,748**	4,998,644
Vanguard Total Bond Market Index	**6,211,681**	5,004,604
Westcore Small Cap Value Fund	**5,651,095**	4,467,708
Vanguard Small Cap Growth Fund	**4,625,500**	2,699,582

4. Investment Contract

The Plan invests in a fully benefit-responsive investment contract through contributions to the M&I Stable Principal Fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As described in ASC 962-325-35-5, *"Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans,"* investment contracts held by a defined-contribution plan are required to be reported at fair value. The fair value of such investment

contracts are determined using the market price of the underlying securities and the value of the investment contract. Interest rates are adjusted to market either monthly or quarterly. Accordingly, contract value, which represents contributions made under the contract plus interest at the contract rate less withdrawals and administrative expenses, approximates fair value. The contracts are fully benefit-responsive.

5. Plan Termination

Although WJE expects to continue the Plan indefinitely and management has not indicated any intention to do so, it has retained the right to amend or terminate the Plan at anytime subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event the Plan is terminated, the interest of any participant will not be diminished or adversely affected.

6. Related-Party Transactions

Certain Plan investments are administered by affiliates of the Marshall & Ilsley Trust Company. The Marshall & Ilsley Trust Company is also the trustee of the Plan and, therefore, these transactions are party-in-interest transactions.

7. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee, Marshall & Ilsley Trust Company.

	2009	2008
Cash	$ 50	$ 78,713
Investments	71,313,768	51,546,079
Total investment gain	14,179,001	N/A

8. Tax Status

The Plan is a standardized prototype plan that had received an IRS determination letter dated October 9, 2002 confirming its qualification under the applicable section of the Internal Revenue Code. Subsequent to year-end, the Plan received a new IRS determination letter dated May 4, 2010 confirming its qualification under the applicable section of the Internal Revenue Code. The Plan administrator believes that the Plan is currently designed and being administered in accordance with applicable rules and regulations and the trust, forming a part of the Plan, is exempt from federal income taxes under Section 501 of the Code.

9. Fair Value Measurements

As of January 1, 2008, the Plan adopted ASC 820, *"Fair Value Measurements and Disclosures."* ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques

used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurements) and the lowest priority to unobservable inputs (Level 3 Measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The following tables set forth, by level within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2009. As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Total Plan investment assets at fair value are classified by level as follows as of December 31, 2009 and 2008:

	Investment Assets at Fair Value As of December 31, 2009
