HALO BRANDED SOLUTIONS, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the HALO Branded Solutions, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was established for all employees of HALO Branded Solutions, Inc. ("the Company"), other than collectively bargained employees, independent contractors, and nonresident aliens, who have completed three months of service and attained the age of twenty-one. Participants may enter the Plan on the following January 1, April 1, July 1, or October 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). For the purpose of this Plan, a trust known as the HALO Branded Solutions, Inc. 401(k) Savings Plan has been created to receive all contributions and to pay all benefits under the Plan.

Bank of Oklahoma N.A. has been appointed trustee of the Plan. The Company has selected a committee, comprised of employees of the Company, to serve as administrator of the Plan. Among the duties of the administrator are the maintenance of participant records, the determination of the right of any person to a benefit, and others.

Contributions

Participants' Contributions

The Plan permits voluntary contributions by participants up to the maximum amount as defined by certain Internal Revenue Code ("IRC") limitations. Participants' elective contributions withheld from their compensation will be paid bi-weekly to the Plan trustee. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers fifteen registered investment companies and one common collective trust fund as investment options for participants.

Matching Contributions

The Company makes a matching contribution equal to a discretionary percentage of the participant's contributions. For the 2009 Plan year, no discretionary matching contributions were made by the Company. For the 2008 Plan year, the Company contributed an amount equal to 50 percent of the participant's contributions, not to exceed $500. Matching contributions are invested in the same options as participant contributions, at the participant's discretion.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

Discretionary Contributions

The Company may also, at its sole discretion, fund the Plan with a discretionary profit sharing contribution. Participants who have completed one year of service, as defined by the Plan, and are employed on the last day of the Plan year on or after his or her early retirement date, normal retirement date, death or disability are eligible to share in this contribution. The discretionary profit sharing contribution is allocated based on the proportion that each participant's compensation received for such Plan year bears to the total of all such participant's compensation received for such Plan year. No discretionary contributions were made to the Plan during 2009 or 2008. Discretionary contributions are invested in the same options as participant contributions at the participant's discretion.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution, the employer's profit sharing contribution allocation and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations of earnings and Plan expenses are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions and employer matching contributions. Participants' interests in their share of the Company discretionary profit sharing contributions vest in accordance with the following schedule based on years of service (a 12 consecutive month period of at least 1,000 hours of service):

Years of Service	Vesting Percentage
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 years or more	100%

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting (Continued)

If an active participant dies prior to attaining his normal retirement age, his vesting percentage shall be 100 percent. Full vesting also occurs upon attainment of age 65 or termination of employment due to disability.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $3,284 and $3,264, respectively. These accounts can be used at the discretion of the Plan administrator to reduce employer matching contributions or administrative expenses. Administrative expenses and employer matching contributions were reduced by $-0- from forfeited nonvested accounts for each of the Plan years ended December 31, 2009 and 2008.

Payment of Benefits

Benefits are payable to the participant upon:

a) his death or his retirement from the service of Employer on or after his normal retirement date (age 65), early retirement date (55 and 5 years of service), or on account of disability; or
b) his resignation or dismissal from the service of Employer prior to his normal retirement date.

If the benefits are payable in the event of (a) above, the amount of the benefits would be equal to the then balance in the participant's accounts. However, if (b) is applicable, the benefits payable would be the total of the participant's own contributions, the company matching, and discretionary contributions, up to the amount of his vested interest in the discretionary contributions. If the vested benefits are less than $5,000, the balance will be distributed as either a cash distribution to the participant or transferred to an eligible retirement plan, at the direction of the participant. If the participant does not elect a method of payment and the vested balance is greater than $1,000, it will automatically be rolled over into an individual retirement account (IRA) in the participant's name. Balances of $1,000 or less will be distributed in cash to the participant. If the balance is more than $5,000, an election to receive the benefit must be made. Benefits may be paid in either a lump-sum payment or substantially equal installments over a period of time not exceeding the participant's life expectancy or the joint life expectancy of the participant and the beneficiary.

Each participant or former participant may, in writing, designate a beneficiary or beneficiaries to whom distributions of his interest in the Plan shall be made in the event of his death.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits (Continued)

In-service withdrawals are available to participants, but funds may only be withdrawn from rollover account balances. The Plan allows participants who have reached age 59½ to withdraw all or part of their vested balance. Hardship withdrawals are also allowed.

Loans to Participants

A participant may borrow the lesser of $50,000 reduced by the excess (if any) of the highest outstanding balance of loans from the Plan to the participant during the one year period ending on the day before the date on which such loan was made, or 50 percent of his or her vested account balance. The loans are secured by the balance in the participant's account. Loans are repayable through payroll deductions over periods ranging up to 60 months. The interest rate is determined by the Plan administrator based on prevailing market conditions and is fixed over the life of the note. At December 31, 2009, interest rates on participant loans ranged from 4.25 to 9.25 percent.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Interest is recorded as earned. Dividend income is accrued on the ex-dividend date. Purchase and sales of securities are recorded on a trade-date basis.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate. Bank of Oklahoma N.A. certified the value of participant investments and net appreciation for the years ended December 31, 2009 and 2008.

a) Value of total participants' directed investments and cash as shown in the accompanying statements of net assets available for benefits of $10,854,427 as of December 31, 2009 and $7,701,819 as of December 31, 2008.

b) Net investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of $2,076,775 and $(2,976,947) for the years ended December 31, 2009 and 2008, respectively.

The fair value of individual investments that represent 5 percent or more of the Plan's net assets as of December 31 are as follows:

	2009	2008
American Europacific Growth Fund	$ 675,536	$ 464,087

* Not applicable, as investment was not held at this time or did not represent 5 percent or more of the Plan's net assets.

NOTE 3 - INVESTMENTS (CONTINUED)

Investment income (loss) is comprised of the following for the year ended December 31:

	2009	2008
Net (depreciation) appreciation in fair value of investments	$ 1,929,520	$(3,096,574)
Interest and dividends	147,255	119,627
	$ 2,076,775	$(2,976,947)

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 - FAIR VALUE MEASUREMENTS

In determining fair value, the Plan uses various valuation approaches within the required fair value measurement framework. Fair value measurements are determined based upon the assumptions that market participants would use in pricing an asset or liability.

The Plan uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Common/collective trust: Valued at unit value, which represents the fair value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

Assets at Fair Value as of December 31, 2009

All the investments of the Plan were held by Bank of Oklahoma N.A. (Trustee). Fees paid by the Plan for administrative expenses to the Trustee amounted to $21,685 for the year ended December 31, 2009.

NOTE 6 - PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all of that employer's participants will become 100 percent vested in their accounts and will be entitled to a distribution equal to their account balance.

NOTE 7 - TAX STATUS

The Company adopted an amended and restated Prototype Non-Standardized Plan effective October 1, 2005 that received a favorable letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with all applicable requirements of the Internal Revenue Code since the last determination letter.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - SUBSEQUENT EVENTS

Management evaluated subsequent events through June 22, 2010, the date the financial statements were available to be issued.
