No certification was received from Smith Barney. Limited audit procedures were performed on the investment assets and participant accounts for the period from January 1, 2009 to February 3, 2009; however, the procedures were insufficient to provide reasonable assurance in order for us to express an opinion.

Because of the significance of the information in the Plan's 2009 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as of or for the year ended December 31, 2009. Their contributions are participant-directed into various investment options offered by ING Institutional Plan Services LLC ("ING"). Voluntary non-deductible contributions are not permitted. Additionally, the Plan accepts rollover contributions from other qualified plans.

A profit sharing contribution is discretionary, determined by the Company each year. Participants must be employed at the end of the year and completed one year of service (12 consecutive months with 1,000 or more hours of service). The contribution is allocated per participant's compensation as a ratio of total eligible compensation.

The Company may decide to forego the profit sharing contribution calculation and select a Safe Harbor Non-Elective Contribution whereby a uniform percentage of participant's eligible compensation is contributed to the Plan. For 2009, the Company elected the Safe Harbor Non-Elective Contribution and the uniform percentage contribution equaled 3%.

The maximum annual addition that may be contributed or allocated to a participant's account could not exceed $49,000 during 2009.

1- **DESCRIPTION OF PLAN** (continued)

Participant Accounts

A separate account is maintained for each participant. Company contributions and employee contributions (through payroll withholding) are credited to the participant's separate account. All accounts are maintained in the name of the trustee for each participant's benefit. Each participant directs their own investments and is allocated the related investment activity results.

Vesting

Participants are 100% vested in their employee contributions and employer safe harbor non-elective contributions. For employer profit sharing contributions, participants vest 20% for each year in the plan after the first year. Upon retirement, death or disability, account balances become 100% vested. Any remaining non-vested balances are forfeited. Forfeitures may be applied to reduce employer contributions or reallocated as additional employer contributions.

Payment of Benefits

On termination of service, retirement, death or disability of a participant, the participant will receive the payment of all benefits in the form of a lump sum distribution, if total benefits are less than $5,000. For distributions in excess of $5,000, the participant is entitled, with the consent of the administrator, to elect an optional form of distribution of monthly, quarterly, semi-annual or annual cash installments over a period not more than their assumed life expectancy. Payment of benefits is made no later than administratively practical following the close of the Plan year in which the event causing the distribution occurs, unless the participant elects to the contrary.

Participant Loans

Participants may request that the Plan make a loan to them out of the funds of their account. The maximum amount of loans outstanding may not exceed the lesser of 50% of the amount in the participant's account or $50,000. Loan terms range from one to five years (up to 30 years for the purchase of a primary residence). The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Interest rates range from 6% to 7%. Principal and interest are paid ratably through payroll deductions.

2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through October 4, 2010, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements are prepared under the accrual method of accounting.

Valuation of Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Cost

The Company usually pays the administrative costs associated with the Plan.

4- FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	December 31,	
	2009	2008
Investments as determined by quoted market price (Level 1):		
Mutual funds (pooled separate accounts)	**$ 1,653,640**	$ -
Common collective trusts (pooled separate accounts)	**58,899**	-
U.S. government securities	-	314,596
Corporate bonds and debentures:		
Common	-	286,728
Corporate stocks:		
Common	-	1,055,467
Total investments (Level 1)	**$ 1,712,539**	$ 1,656,791
Investments as determined by unobservable inputs (Level 3):		
Participant loans	**$ 10,362**	$ 13,842
Total investments (Level 3)	**$ 10,362**	$ 13,842

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consists of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

4- FAIR VALUE MEASUREMENTS (continued)

Level 1 Fair Value Measurements

The fair value of mutual funds and common collective trusts (pooled separate accounts), U.S. government securities, common bonds and debentures, and common stocks are based on quoted market prices of the shares held by the Plan at year end.

Level 3 Fair Value Measurements

Participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance.

5- PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6- TAX STATUS

The trust established under the Plan to hold the Plan's net assets is qualified pursuant to Section 501(c)(9) of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan sponsor has obtained a favorable tax determination letter from the Internal Revenue Service and the sponsor believes that the Plan, as amended, continues to qualify and to operate as designed.

7- RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
