ABELSON-TAYLOR, INC.
PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

1. Description of plan:

The following description of the Abelson-Taylor, Inc. ("Company") Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions:

General:

The Plan is a defined contribution plan covering all employees of the Company. Employees are eligible to make 401(k) contributions from the date of hire. For all other purposes of the Plan, full-time, seasonal and part-time employees must have attained age twenty-one and completed one year of eligibility service to participate. It is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans or after-tax contributions. Participants who have reached age 50 during the plan year may make supplemental before-tax contributions known as catch-up contributions. The Company may make matching and profit sharing contributions at the option of the Company's board of directors. All contributions are subject to certain limitations.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Net assets available for plan benefits include amounts relating to separated participants.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

(Continued)

1. Description of plan (continued):

Participant Loans:

Participants may borrow from their fund accounts up to a maximum of one-half their vested balance or $50,000, whichever is less, reduced by the highest outstanding loan balance during the year before the loan was made. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with the prime rate at the loan origination dates. At December 31, 2009 and 2008, loans receivable, included with investments on the Statement of Net Assets Available for Benefits, totaled $449,886 and $296,926, respectively.

Investment options:

Upon enrollment in the Plan, a participant may direct contributions in 1% increments in any of twenty-five investment options available through the trust. At December 31, 2009 these options consist of:

Mutual funds:

- American Funds Growth Fund of America R3 Fund
- Heartland Value Plus Fund
- Jennison Dryden Small Company A Fund
- JP Morgan SmallCap Equity A Fund
- Munder MidCap Core Growth A Fund

1. Description of plan (continued):

- Thornburg International Value R3 Fund
- Vanguard Capital Opportunity Fund
- Vanguard Primecap Fund

Common collective trust:

- ABN AMRO Income Plus "D" Fund

Participants may change their investment options daily.

Payment of benefits:

On termination of service due to death, disability or retirement on or after age 65, a participant may elect to receive either a lump sum amount equal to the value of the participant's account, or an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or annuity.

Forfeited accounts:

At December 31, 2009, forfeited nonvested accounts totaled $16,207. These accounts will be allocated to participants eligible to share in the allocations in proportion to each participant's compensation for the year. At December 31, 2008, forfeited nonvested accounts totaled $22,660.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(Continued)

2. Summary of significant accounting policies (continued):

Payment of benefits:

Benefits are recorded when paid.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds through registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value.

For the Plan's investment in the ABN Amro Income Plus Fund contract value is the relevant measurement for this fund. As required, the investment in this fund is included in the statement of net assets available for benefits at fair value as reported in the fund's audited financial statements at December 31, 2009 and 2008. The adjustment from fair value to contract value is based upon contract value as reported to the Plan by the fund. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Subsequent events:

The Plan has evaluated subsequent events through July 29, 2010, the date the financial statements were available for issuance.

3. Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

Financial Accounting Standards Board (FASB) authoritative guidance provides the framework for measuring fair value by providing a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

3. Fair value measurements (continued):

In 2009, FASB issued a staff position that was later codified into the FASB Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, which expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

		Fair Value Measurement Using:		
December 31, 2009	Fair Value	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

3. Fair value measurements (continued):

December 31, 2008	Fair Value	Fair Value Measurement Using: Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 14,427,205	$ 14,427,205	$ -	$ -
Common collective trusts	6,147,740	-	6,147,740	-
Participant loans	296,926	-	-	296,926
Total	$ 20,871,871	$ 14,427,205	$ 6,147,740	$ 296,926

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of the S&P 500 Index Fund, a common collective trust, is based upon the value of the underlying investments which consist of a single mutual fund valued at its quoted net asset value. This trust was terminated in 2009. The fair value of the ABN Amro Income Plus D Fund, a common collective trust (CCT) which invests primarily in guaranteed investment contracts, is estimated based upon the net asset value of the CCT which is not publicly quoted. Classification in the fair value hierarchy is based upon the observability of the investments held in the CCT. Accordingly, the Plan has classified the CCT based on the lowest level input that is significant to net asset value.

Level 3 Fair Value Measurements

The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

(Continued)

3. Fair value measurements (continued):

Fair Value Measurements Using Significant Unobservable Inputs (Level 3):

Purchases, sales, issuances and settlements (net)	152,960	16,554
Ending balance	$ 449,886	$ 296,926

The following information included in the accompanying financial statements and the information included in the supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the trustee.

	2009	2008
Investments	$ 30,519,728	$ 21,256,610

Investment income for the year ended December 31, 2009 was $5,496,380.

6. Related party transactions:

Certain Plan investments in common/collective trusts are managed by Principal Trust Company the current trustee and, therefore, these transactions qualify as party-in-interest.

Certain Plan investments in mutual funds are managed by Principal Global Investors, which comes under the same Principal Financial Group umbrella as Principal Trust Company, the current trustee; therefore, these transactions qualify as party-in-interest.

Fees paid by the Plan for administrative expenses amounted to $33,522 for the year ended December 31, 2009. The Company paid all remaining Plan expenses during the year ended December 31, 2009.

7. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Tax status:

Effective July 1, 2007 the Plan sponsor adopted a prototype plan sponsored by the Principal Financial Group. The Internal Revenue Service has determined and informed the prototype plan sponsor by a letter dated September 16, 2003, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

9. Risks and uncertainties:

The Plan invests in certain investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

10. Reconciliation of financial statements to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 32,675,763	$ 23,179.816
Adjustment from contract value to fair value for fully benefit responsive investment contract	(106,185)	(384,739)
Net assets available for benefits per the Form 5500	$ 32,569,578	$ 22,795,077

11. Reclassifications:

Certain 2008 amounts have been reclassified to conform with 2009 classifications. These reclassifications had no effect on increase in net assets available for benefits..

12. Subsequent events:

The Plan was restated effective January 1, 2010. In connection with the restatement the Principal Financial Group Prototype For Savings Plan Basic Plan 02 was adopted.

The Plan was amended effective May1, 2010. The amendment includes a provision for Roth 401(k) deferrals.
