INDEPENDENT AUDITORS' REPORT

TO THE PLAN ADMINISTRATOR
THE MEIER SAVINGS AND INVESTMENT PLAN

We were engaged to audit the financial statements of The Meier Savings and Investment Plan as of December 31, 2009 and 2008, and for the years then ended, and the supplementary schedule as of December 31, 2009 as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's administrator.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Minnesota Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplementary schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As discussed in Note 1 to the accompanying financial statements, a formal resolution was executed by the Board of Directors of Meier Holding, LLC to terminate the plan as of August 31, 2007. In accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting for periods subsequent to August 31, 2007 from the ongoing plan basis to a liquidation basis.

THE MEIER SAVINGS AND INVESTMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of The Meier Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan sponsored by Meier Holding, LLC (the Company), covering all employees of the Company and adopting affiliates who have completed thirty days of service and have attained age twenty and one-half. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

By action of its Board of Directors, the Company terminated the Plan on August 31, 2007 and filed an application with the Internal Revenue Service (IRS) for approval of the termination. Approval from the IRS was granted in August 2008 and all Plan assets will be distributed to the participants. Participants will have a choice of options regarding these distributions and may elect to receive an annuity, lump-sum payment, IRA rollover or direct transfer into another plan.

Contributions

Prior to September 1, 2007, participants were able to elect to have 2% to 100% of their compensation contributed to the Plan by the Company as a payroll reduction contribution, up to the maximum dollar amount allowed by law. Participants were able to make rollover contributions to the Plan from other qualified defined benefit or defined contribution plans. The Company could make matching and discretionary profit sharing contributions to the Plan. Prior to September 1, 2007, the Company matched 50% of participant contributions, up to 6% of compensation.

Participant Accounts

Prior to September 1, 2007, each participant's account was credited with his or her payroll reduction contributions, Company matching contributions, an allocation of the discretionary profit sharing contributions and investment earnings, and charged with an allocation of administrative expenses. Allocations were based on participant account balances, or participant compensation, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Prior to September 1, 2007, upon enrollment in the Plan, participants were able to direct contributions to their accounts into various investment options offered by the Plan.

1. DESCRIPTION OF PLAN (continued)

Forfeitures

At December 31, 2009 and 2008, there were no forfeited nonvested accounts. During 2008, administrative expenses were reduced by $300 from forfeited non-vested accounts and the remaining balance of forfeited non-vested accounts totaling $4,027 were allocated to remaining participants based upon their account balance. The forfeitures mentioned above originated prior to the Plan termination decision.

Vesting

As of August 31, 2007, all participants were fully vested in their accounts as a result of the Plan termination.

Payment of Benefits

Prior to September 1, 2007, upon termination of service due to death, disability, retirement, or separation of service, a participant could have elected to receive a distribution of his or her vested account balance in the form of a lump-sum payment or installments. Participants were also permitted to receive a distribution from their account prior to termination of employment if they experienced financial hardship. As of September 1, 2007, all participants are entitled to receive full distributions from their accounts in the form of a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the liquidation basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan has an investment in an insurance company general account with Minnesota Life Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals. The Statements of Net Assets in Liquidation Available for Benefits should present the fair value of the insurance company general account as well as the adjustment from fair value to contract value; however, for the Plan, contract value approximates fair value. The Statements of Changes in Net Assets in Liquidation Available for Benefits are prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Administrative Expenses

Certain administrative expenses of the Plan are paid directly by the Plan. The remaining administrative expenses are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, which approximates liquidation value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains (losses) on the investments purchased and sold, as well as held, during the year.

3. INVESTMENTS

The following table presents the fair value of investments at December 31, 2009 and 2008. The investments and investment activity have been certified as complete and accurate by Minnesota Life Insurance Company, the custodian of the Plan, and have not been audited by the independent auditors. Individual investments that represent 5% or more of the Plan's net assets are separately identified.

3. INVESTMENTS (continued)

	2009	2008
Pooled separate accounts:		
Minnesota Life Large Growth Equity III Fund	$ 75,464	$ 76,310
Minnesota Life LifeStrategy II Fund	46,025	162,047
Minnesota Life Long-Term Investment Grade Bond IA Fund	131,677	135,023
Minnesota Life Managed IIIA Fund	91,052	100,481
Minnesota Life Mid-Cap Growth Equity III Fund	87,864	67,219
Minnesota Life Money Market Fund	45,843	282,230
Minnesota Life Small/Mid Equity Index IA Fund	42,870	13,618
Other pooled separate accounts	208,870	241,352
	729,665	1,078,280
Insurance company general account – unallocated contracts*	28,674	46,541
Total investments	$ 758,339	$ 1,124,821

*This amount represents contract value for this investment, which approximates fair value.

During 2009 and 2008, the Plan's investments (including gains and losses on investments, bought, sold, as well as held during the year) appreciated (depreciated) in value by $172,697 and ($1,211,073), respectively.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability and that are derived principally from, or are corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- Pooled separate accounts - Valued at the net asset value (NAV) of shares held by the Plan at year end.

- Insurance company general account - Valued at contract value, which is based on the deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 729,665	$ -	$ 729,665
Insurance company general account*	-	28,674	-	28,674
Total assets at fair value	$ -	$ 758,339	$ -	$ 758,339

* This amount represents contract value for this investment, which approximates fair value.

4. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 1,078,280	$ -	$ 1,078,280
Insurance company general account*	-	46,541	-	46,541
Total assets at fair value	$ -	$ 1,124,821	$ -	$ 1,124,821

* This amount represents contract value for this investment, which approximates fair value.

5. INSURANCE COMPANY GENERAL ACCOUNT - UNALLOCATED CONTRACTS

During 2009 and 2008, the Plan participated in a benefit-responsive insurance company general account through Minnesota Life Insurance Company. As described in Note 2, because the investment in the portfolio is benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment in the portfolio. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting rate is the discount rate that equates the estimated future market value with a portfolio's current contract value. Crediting rates are reset quarterly, but may not be less than 0%.

Average yields:	2009	2008
Based on actual earnings	4.35 %	3.85 %
Based on interest rate credited to participants	4.12 %	3.65 %

There are no events that would limit the ability of the Plan to transact at contract value with the issuer.

6. TAX STATUS

On October 22, 2003, the IRS stated that the prototype plan adopted by the Plan qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan was amended since receiving the determination letter. However, the Plan administrator believes that the Plan was designed and being operated in compliance with the applicable requirements of the IRC.

As discussed in Note 1, in August 2008 the Plan received approval from the IRS regarding the Plan's termination.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and an insurance company general account managed by Minnesota Life Insurance Company. Minnesota Life Insurance Company is the custodian as defined by the Plan document and, therefore, these transactions are considered party-in-interest transactions.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets in Liquidation Available for Benefits.

9. PROHIBITED TRANSACTIONS

During 2008, the Company was chosen by the Department of Labor (DOL) for a compliance examination. As part of its examination, the DOL determined that the Company failed to remit employee contributions and loan repayments to the Plan during 2007 at the earliest possible date on which such contributions could reasonably be segregated from the Company's general assets. This failure to remit contributions is considered a prohibited transaction according to the provisions of ERISA and the IRC. To rectify the identified violation, the Company contributed $621 to the Plan or directly to former participants on June 15, 2009. This contribution was based on a lost opportunity cost calculation provided by the DOL.

10. SUBSEQUENT EVENTS

The Company evaluated subsequent events through June 21, 2010, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
