401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 and DECEMBER 31, 2008

NOTE 1 – Description Of Plan

The following description of the A. J. Kirkwood & Associates, Inc. (Employer) 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan was adopted on January 24, 1997 with an effective date of January 1, 1997, as a defined contribution plan covering all full-time employees of the Employer who have completed one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). Effective as of August 1, 2003, the Plan was amended to include receipt of Employer provided contributions for prevailing wage employees. Employees eligible to share in the employer provided benefits (based on prevailing wage rates) are eligible to participate on the beginning date of employment with the Employer. Prevailing wage employees are any employee whose service is subject to coverage under the Davis-Bacon Act, Service Contract Act, and any other federal or state law mandating the payment of compensation pursuant to certain minimum prevailing wage determinations.

Contributions:

Non-elective employer contributions are made by the employer based on hours worked and job classification of each employee performing work on prevailing wage contracts. There is no discrimination allowed under the plan. Generally, discrimination is considered to occur when non-highly compensated participants receive proportionately lesser benefits than highly compensated participants. ERISA allows employers to make a Qualified Non-Elective Contribution (QNEC) on behalf of certain participants to ensure the plan is in compliance with non-discrimination tests. The employer made a QNEC contribution for the year ending December 31, 2009 in the amount of $145. The Company chose to issue refunds to certain participants in lieu of a QNEC for the year ending December 31, 2008.

Profit sharing contributions are determined annually by the Employer up to maximum of 25% of all Participants' compensation. The annual compensation of each Participant taken into account in determining allocation for any plan year will not exceed $245,000 adjusted for cost-of-living increases in accordance with Section 401(a)(17)(B) of the Code. Contributions are limited to $49,000 per Participant adjusted for cost-of-living under Code Section 415(d). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

NOTE 1 – Description Of Plan (Cont.)

Participant Accounts:

Each Participant's account is credited with the Participant's contribution and allocations of (a) the Employer's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on Participant earnings or account balances, as defined. Due to immediate vesting, there are no forfeitures of non-elective employer contributions. Forfeited profit sharing balances are used to reduce non-elective employer contributions. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting:

Participants are immediately vested in elective contributions and non-elective employer contributions plus applicable earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. A Participant is 100 percent vested after six years of credited service.

Participant Loans:

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, or the present balance of the Participant's accrued benefit, whichever is less. The loans are secured by the balance in the Participant's account. Loan repayment is made not less frequently than quarterly and must be repaid within five years unless the loan is used to buy a primary residence.

Payment of Benefits:

On termination of service due to death, disability, or retirement, a Participant may elect to receive a lump-sum amount equal to the value of the Participant's vested interest in his or her account.

Investment Options:

Contributions on behalf of the Participants are invested in accordance with the Participants' investment allocation. The Participants' investment choice is limited to in-house investments with John Hancock Life Insurance Company (USA), chosen by trustees. The Plan's investments are pooled. However, each Participant receives allocations of Plan earnings based on the Participant's investment allocation. Participants may change their investment options at any time.

Reclassifications:

Certain reclassifications were made to the 2008 financial statements presentation in order to conform to 2009 financial statements presentation.

NOTE 2 – Summary Of Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting. The financial statements and notes are the representation of the Plan's trustees, who are responsible for the integrity and objectivity of the financial statements.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value except for its benefit-responsive investment contract, which is valued at contract value (Note 4). Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant's loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest and dividend income is earned individually according to each Participants' investment allocation and are reinvested in each account.

Payment of Benefits:

Benefits are recorded when paid.

NOTE 3 – Investment Contract With Insurance Company

The Plan uses a fully benefit-responsive variable investment contract with John Hancock Life Insurance Company (USA) (John Hancock). John Hancock maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by John Hancock. The contract is included in the financial statements at contract value measured by quoted market prices in an active market, which represents contributions made under the contract, plus earnings less Plan withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 was $2,033,384. The average gain was approximately twenty-three percent (23%) for 2009. The fair value of the investment contract at December 31, 2008 was $1,607,231. The average loss was approximately thirty-two percent (32%) for 2008.

NOTE 4 – Investments (Cont.)

During 2009 and 2008, the Plan's investment funds appreciated (depreciated) in value by $435,434 and $(581,291), respectively. The Plan's Guaranteed Accounts earned interest of $648 and $421, respectively.

As of December 31, 2009, the investment of $860,036 in the JH Lifestyle Balanced Fund, $103,523 in the JH Lifestyle Growth Fund, $98,224 in the JH Columbia Value & Restructuring Fund, and $250,067 in the Money Market Fund each represent a greater than 5% interest of net assets available for benefits.

As of December 31, 2008, the investment of $896,192 in the JH Lifestyle Balanced Fund, $105,775 in the JH Lifestyle Aggressive Fund, $95,698 in the Lifestyle Growth Fund, $106,389 in the JH Columbia Value & Restructuring Fund, $292,819 in the Money Market Fund, and $120,676 in the Investment Quality Bond Fund each represent a greater than 5% interest of net assets available for benefits.

NOTE 5 – Fair Value Measurements

The Company 401(k) profit sharing plan adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements,* as of January 1, 2008, which among other things requires enhanced disclosures about investments that are measured and reported at fair value. SFAS No. 157 establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is impacted by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value. The adoption of SFAS 157 did not have a material impact on the Company 401(k) Profit Sharing Plan financial statements.

SFAS No. 157 also establishes a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three levels. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is available and significant to the fair value measurement. SFAS No. 157 establishes and prioritizes three levels of inputs that may be used to measure fair value:

Level I – Quoted prices are available in active market for identical investments as of the reporting date.

Level II – Observable inputs other than quoted prices in active markets for identical investments, quoted price or identical or similar investments in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the investments.

Level III – Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the investments.

NOTE 5 – Fair Value Measurements (Cont.)

At December 31, 2009 and December 31, 2008, all investments were classified as Level I investments. The changes in investments, measured at fair value, for which the Company 401(k) Profit Sharing Plan has used Level I inputs to determine fair value, are presented in the Statements of Net Assets Available for Benefits for December 31, 2009 and December 31, 2008. The change in unrealized appreciation (depreciation) of $435,434 and $(581,291) for Level I investments relates to investments still held at December 31, 2009 and December 31, 2008, respectively.

NOTE 6 – Party-In-Interest Transactions

John Hancock Life Insurance Company provides substantially all of the brokerage services for the Plan investments and, as such, is a party-in-interest. The plan administrator, Actuaries Unlimited, is also a party-in-interest. Fees paid by the Plan for administrative services amounted to $22,535 and $22,002 for the years ended December 31, 2009, and December 31, 2008, respectively.

NOTE 7 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will receive a lump-sum amount equal to the value of their account.

NOTE 8 - Federal Income Taxes

On November 8, 2004, the Trustee received from the Internal Revenue Service a letter of determination stating that A.J. Kirkwood & Associates, Inc. 401(k) Profit Sharing Plan is exempt from federal income taxes under Section 401(a) of the Internal Revenue Code for the Plan and its latest amendment dated October 11, 2003. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 9 – Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – Subsequent Events

Management has evaluated subsequent events through September 14, 2010, the date on which the financial statements were available to be issued. There were no material subsequent events subject to disclosure.
