Independent Auditors' Report

The Trustees
Rewards Network Inc. 401(k) and Profit Sharing Plan:

We were engaged to audit the accompanying statement of assets available for benefits of the Rewards Network Inc. 401(k) and Profit Sharing Plan (the Plan) as of December 31, 2009, and the related statement of changes in assets available for benefits for the year ended December 31, 2009 and the supplemental Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 3, which was certified by Prudential Bank & Trust, F.S.B., the trustee of the Plan, except for comparing such information with the related information included in the 2009 financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2009 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as of or for the year ended December 31, 2009. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have audited the statement of assets available for benefits of the Plan as of December 31, 2008, and in our report dated September 21, 2009, we expressed our opinion that such financial statement presents fairly, in all material respects, the financial status of the Plan as of December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

(1) Description of the Plan

The following description of the Rewards Network Inc. (the Company) 401(k) and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all employees of the Company, Rewards Network Establishment Services Inc., and Rewards Network Services Inc. Effective January 1, 2009, there is a six month waiting period for all new hires to enter the Plan. From January 1, 2006 until December 31, 2008, all employees were immediately eligible to participate. Prior to that date, the Plan covered substantially all full-time employees who were 21 years of age or older and had completed six months of service (at least 500 hours worked). To be eligible for the discretionary profit sharing contributions, an employee must be at least 21 years old and have had completed one year of service (1,000 actual hours worked (excludes paid vacation and paid holidays)). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Upon enrollment in the Plan, a participant may direct employee contributions to any combination of various investment options and may direct the Company contribution to other investment options after the Company contribution has been made to the participant's account.

Effective November 3, 2008, Prudential Bank & Trust, F.S.B. (Prudential) serves as the plan trustee. Prior to that date, ING National Trust (ING) served as the plan trustee. Along with the plan trustee, two officers of the Company serve as plan representatives (collectively, the Trustees).

(b) Contributions

Prior to January 1, 2006, participants were eligible to contribute pre-tax salary deferral contributions of their eligible pay up to 15% of their total annual compensation, as defined in the plan document. Effective January 1, 2006, the Plan adopted Safe Harbor provisions whereby all eligible participants can contribute up to 3% of their compensation, each year to the Plan. Effective January 1, 2009, new employees are not automatically enrolled in the Plan. It is the employee's responsibility to enroll once the eligibility requirements are met. Participants may contribute pretax salary deferral of 1% to 80% of their total annual compensation, subject to the limitations ($16,500 for 2009 and $15,500 for 2008) of the Internal Revenue Code (the Code) Section 402(g) by way of regular payroll deductions. Participants who have attained the age of 50 are eligible to make catch-up contributions in accordance with, and subject to the limitations ($5,500 for 2009 and $5,000 for 2008) of, Section 414(v) of the Code. The Company matches $0.50 on every $1.00 contributed up to 6% of the employee's salary (excluding bonuses and commissions); however, the Company matching contribution is discretionary and may be modified by the Trustees at any time. Prior to 2009, the Company matched 100% up to 3% of the participants' compensation, and 50% between 3% to 5% of the participant's compensation. From January 1, 2006 through June 27, 2008, the Company match was in the form of Company stock. Effective July 11, 2008, the Company match is directed proportionately into the participant's current investment elections. Effective August 8, 2008, participants can no longer allocate or transfer new or existing assets into Company stock.

(Continued)

Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Additional contributions may be made at the discretion of the Company. No discretionary contributions were made for the years ended December 31, 2009 and 2008. Contributions are subject to certain limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions, and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their salary reduction and rollover contributions plus earnings thereon. Participants who leave the Plan because of death, normal retirement, or disability retirement, as defined in the plan document, are considered 100% vested.

Prior to January 1, 2006, Company contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

Vesting years of service	Percentage vested
1	—%
2	20
3	40
4	60
5	80
6	100

From January 1, 2006 until December 31, 2008, Company contributions and earnings thereon were vested immediately. Effective January 1, 2009, the Company implemented a three-year cliff vesting period for Company contributions.

(e) Forfeited Accounts

The Plan provides that the nonvested portion of Company discretionary contributions forfeited by terminated participants shall be added to any Company discretionary contribution. Forfeitures of matching contributions will be used to reduce the Company's matching contribution. If the participant returns to work for the Company before a consecutive five-year break in service, the forfeited account balances will be restored to the participant's account as of the end of the plan year in which the participant returned to work.

For the years ended December 31, 2009 and 2008, forfeited nonvested accounts totaled $9,509 and $23,151, respectively. Also, in 2009, Company contributions were reduced by $2,012 from forfeited nonvested accounts.

(f) Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment. A participant experiencing financial hardship, as defined in the plan document, may withdraw a portion of his or her account balance. Participants are not able to withdraw funds from employer directed safe harbor funds for financial hardship. Participants who have attained the age of 59½ may receive a distribution of all or any portion of their account balances.

(g) Termination of Plan

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(h) Participant Loans

Participants may borrow from their fund accounts, with certain restrictions as defined in the plan document, a minimum of $1,000 up to a maximum of $50,000 or 50.00% of their vested account balance, whichever is less. These loans are secured by the balance in the participant's account. At December 31, 2009, the loans bear an interest rate ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates at the time the loans were made. Principal and interest are paid ratably through payroll deductions. Terms on general purpose loans are not to exceed five years and terms on primary residence loans are not to exceed 15 years.

(i) Administrative Expenses

Certain administrative costs of the Plan have been borne by the Company.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

(Continued)

(c) Investment Valuation and Income Recognition

Common stock of the Company is stated at fair value using quoted market prices. Shares in registered investment companies are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances of unpaid principal and accrued interest. As described in note 5, there is an investment in a guaranteed investment contract recorded at fair value, which approximates contract value.

Net appreciation of investments included in the accompanying statement of changes in assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(d) Payment of Benefits

Benefits are recorded when paid.

	$ 2,802,990

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Guaranteed investment contract: Valued at fair value, which approximates contract value (see note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at fair value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Level 3 assets Year ended December 31, 2009 Guaranteed investment contract
Balance, beginning of year	$ 735,062
Realized gains	28,554
Purchases, sales, issuances, and settlements (net)	87,865
Balance, end of year	$ 851,481

(5) Investment Contract with Insurance Company

In 2008, the Plan entered into a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expense. The contract is included in the financial statements at fair value, which approximates contract value, as reported to the Plan by PRIAC. Participants may direct the withdrawal or transfer of all or a portion of their investment at fair value. There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately 3.55% for 2009. The crediting interest is based on a formula agreed upon with the issuer, but may not be less than 1.51%. PRIAC reviews interest rates on a semiannual basis and will adjust rates at their discretion. In the event that the Company terminates its contract with PRIAC, all investment withdrawals or transfers will be directed at contract value.

(6) Prohibited Transactions

As a party in interest, the Company is required to transmit participant contributions to the Plan within the time period described in 29 CFR 2510.3-102. During 2009 and 2008, the plan sponsor transmitted all participant contributions on a timely basis.

(7) Tax Status

During the period where ING served as Corporate Trustee, the Plan had adopted a prototype plan sponsored by ING. ING obtained its latest opinion letter dated November 7, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan had been amended since receiving the opinion letter, the plan administrator believed that the Plan, as amended, was designed and operated in compliance

with the applicable requirements of the IRC. Therefore, the plan administrator believed that the Plan was qualified and the related trust was tax exempt at December 31, 2007.

Effective November 3, 2008, the Plan adopted a prototype plan sponsored by Prudential. Prudential obtained its latest opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believed that the Plan was qualified and the related trust was tax exempt at December 31, 2009.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are subject to various risks, including credit, interest rate, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

(9) Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the Plan's Form 5500 has been prepared on the cash-basis method of accounting. The reconciliations between the financial statements and Form 5500 are as follows:

		2009	2008
Total assets per Form 5500, schedule H	$	11,162,726	7,695,269
Amounts receivable from participants		39,653	39,918
Amounts receivable from employer		12,783	13,603
Participant loan payments receivable		4,288	3,505
Unapplied participant loan payments		(4,288)	(3,505)
Assets available for benefits per financial statements	$	11,215,162	7,748,790
Increase (decrease) in assets per Form 5500, schedule H	$	3,467,457	(2,157,867)
Add current year contributions receivable		52,436	53,521
Less prior year contributions receivable		(53,521)	(41,053)
Net increase (decrease) in assets available for benefits per financial statements	$	3,466,372	(2,145,399)

(Continued)

(10) Adoption of New Accounting Standards

In September 2006, the FASB issued Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*. ASC 820 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820 was effective for fiscal years beginning after November 15, 2007 for financial assets and liabilities. In October 2008, the FASB issued FASB Staff Position (FSP) 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active*. This FSP clarifies the application of ASC 820 in a market that is not active. The impact of adoption of these standards as of January 1, 2008 was not material to the Plan's assets available for benefits. See note 4 for further discussion.

(11) Subsequent Events

The Plan has performed an evaluation of subsequent events through July 15, 2010, the date the financial statements were issued and determined there were no recognized or unrecognized subsequent events that would require an adjustment or additional disclosure in the financial statements as of December 31, 2009.
