Independent Auditors' Report

We were engaged to audit the statements of net assets available for benefits of the Lauren Corporation 401(k) and Profit Sharing Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedules as of December 31, 2009 and 2008, as listed in the accompanying contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by Fidelity Management Trust Company except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator, that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2009 and 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the current and former trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

LAUREN CORPORATION 401(k) AND PROFIT SHARING PLAN
Abilene, Texas

NOTES TO FINANCIAL STATEMENTS

December 31, 2009

NOTE 1: PLAN DESCRIPTION

The following description of the Lauren Corporation 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1989, under the provisions of the Internal Revenue Service Code Section 401(a), as a defined contribution plan to benefit participating employees of Lauren Corporation and other related companies (the "Company"). The Plan provides eligible employees an opportunity to accumulate funds for retirement, death and disability benefits. Subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan has received a favorable opinion letter from the Internal Revenue Service.

Plan Administration

The Plan is administered by the Plan administrator who is appointed by the board of directors of the Company. The Plan's trustee, Fidelity Management Trust Company (the "Trustee), is responsible for the custody and management of the Plan's assets.

Eligibility to Participate

Employees become eligible to participate in wage deferrals upon attainment of age twenty-one (21). Employees become eligible for employer matching contributions upon attainment of age twenty-one (21) and when the employee has performed a minimum of 1,000 hours of service during a 12-consecutive-month period beginning with employees' employment commencement date and each anniversary thereof. The Plan entry date is the 1st of the next month after the participants hire date.

Employee Contributions

Participants in the Plan may elect to have compensation deferred through payroll deductions. The maximum contribution amount for 2009 is $16,500. An added contribution up to $5,500 in salary deferral catch-up is allowed for those 50 or older, for a total possible contribution of $22,000.

Employer Contributions

Due to the election of a "safe harbor" designation, the Company is obligated to make a matching contribution to each participant's account regardless of the profitability of the employer during the Plan year. The Company is obligated to make a matching contribution on behalf of each participant equal to one hundred percent (100%) of the participant's salary deferral, but not in excess of four percent (4%) of the participant's compensation.

The employer shall have the right to make an additional discretionary contribution that will be paid at the end of the year. Forfeitures will first reduce employer contributions for the current Plan year and then will reduce employer contributions for the next Plan year.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as the participant's share of the Plan's income and any related administrative expenses. Allocations of income and expenses are based upon the proportion that each participant's account balance bears to the total of all participant account balances.

Forfeitures

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $0. These accounts are used first to reduce employer-matching contributions.

Participant Loans

All participants may borrow from their accounts. The maximum amount of a loan is the lesser of:

a. $50,000 less the excess of the highest outstanding loan balance during the one year period ending on the day before the loan is made over the outstanding balance of Plan loans on the date the loan is made, or

b. One-half the present value of the "participant's" vested interest in their account. The interest rate for the loan is determined by the administrator by reviewing the interest rates charged for similar types of loans by other lenders. The maximum number of loans that a participant may have outstanding at one time is two.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution. Plan earnings are allocated based on participant account balances, as defined.

Payment of Benefits

On termination of service due to death, disability or retirement, or for any other reason a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Employee elective deferrals and after-tax employee contributions are always one hundred percent (100%) vested. Employer matching contributions are vested 100% and employer discretionary regular contributions, if any, are vested according to the following six -year schedule:

Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Participant Investment Options

Participants may direct their salary deferral contributions to selected investments as made available and determined by the Plan administrator or if they choose, they can direct their salary deferral contributions to any investments traded by the Trustee. Participants may change their investment options at any time throughout the year via direct phone access, fax, or internet.

Subsequent Events

The Plan Administrator has evaluated subsequent events through July 28, 2010, that date the financial statements were available to be issued.

Recent Accounting Pronouncements

ASC 740-10/FIN 48
The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. See **NOTE 3** for further discussion.

ASU 2009-12
In September 2009, the Financial Accounting Standards Board issued amendment ASU 2009-12, "Investments in Certain Entities That Calculate Net Asset Value per Share", which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See **NOTE 5** for further discussion.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force) and the American Institute of Certified Public Accountants did not or are not believed by management to have a material impact on the Plan's present or future financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

As described in Financial Accounting Standards Board Staff Position ASC 946-45/FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate transactions permitted under the terms of the plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment from fair value to contract value relating to investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Valuation of Investments and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See **NOTE 5** for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes realized and unrealized gains and losses on investments held during the year.

Brokerage fees are added to the acquisition costs of the assets purchased and subtracted from the proceeds of assets sold.

Administrative Costs

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement of changes in net asset available for benefits as other expenses.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 3: INCOME TAX MATTERS

Effective November 1, 2004, the Plan adopted a non-standardized form of a prototype plan sponsored by Fidelity Management and Research Company. The prototype plan has received an opinion from the Internal Revenue Service as to the prototype plan's qualified status dated October 9, 2003. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

NOTE 4: INFORMATION CERTIFIED AND PROVIDED BY FIDELITY MANAGEMENT TRUST COMPANY

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustee and furnished by the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing

procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following investments.

Investments at fair value:	2009	2008
Mutual funds	$ 14,123,369	$ 9,253,740
Fidelity Managed Income Portfolio at fair value	1,095,753	966,014
Adjustment from fair value to contract value	20,375	52,109
Common/Collective Trusts at contract value	1,116,128	1,018,123
Interest bearing cash	519,414	454,789
Participant notes receivable	651,484	547,923
Total	$ 16,410,395	$ 11,274,575

Fidelity also certified to the completeness and accuracy of $3,063,925 of net appreciation in fair value of investments and $317,209 of interest and dividends related to the aforementioned investments for the year ended December 31, 2009.

NOTE 5: FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

All investments in the Statement of Net Assets are reported at fair value. The following table sets forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2009 and 2008. The following table presents separately those assets that represent 5% or more of the Plan's net assets.

[1] Based on nature and risks, Plan has determined presenting as a single class is appropriate
[2] Represents 5% or more of the Plan's assets as of December 31, 2008

During 2009, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $3,063,925.

The following is a description of valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2008, and December 31, 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end at the closing price reported on an active market.

Common/collective trusts: Valued at the net asset value ("NAV") per unit as of the close of business of the New York Stock Exchange. It is the policy of the portfolio to use its best efforts to maintain a stable NAV of $1.00 per unit; although there is no guarantee that the portfolio will be able to maintain this value.

Cash and cash equivalents: Valued at the net asset value ("NAV") of shares held by the Plan at year end at the closing price reported on an active market.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with market participants, the use of difference methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

		Participant Loans
Balance at January 1, 2009	$	547,923
Loan repayment		(310,817)
Loan withdrawal		414,378
Balance at December 31, 2009	$	651,484

The following sets forth a description of the Plan's alternative investments as required by FASB amendment ASU 2009-12, "Investments in Certain Entities That Calculate Net Asset Value per Share":

	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trusts	$1,095,753	$0	Immediate	None

Common/collective trusts includes an open-end commingled pool sponsored by Fidelity Management Trust Company. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investment in this category has been estimated using the net asset per share of the investment.

NOTE 6: RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31,:

	2009	2008
Net assets available for benefits according to the financial statements	$ 16,523,051	$ 11,274,575
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(20,375)	(52,109)
Net assets available for benefits according to the Form 5500	$ 16,502,676	$ 11,222,466

The following is a reconciliation of the increase in net assets available for benefits according to the financial statements to the Form 5500 for the year ended December 31, 2009:

Increase in net assets available for benefits according to the financial statements	$ 5,248,476
Current year contract value adjustment	31,734
Other	1
Increase in net assets available for benefits according to 5500	$ 5,280,211

NOTE 7: PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination participants will become one hundred percent (100%) vested in their accounts.

NOTE 8: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $16,338 for the year ended December 31, 2009.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participant's account balances and the amounts reported in the statement of net assets available for benefits.
