We were engaged to audit the accompanying statements of net assets available for benefits of the Health Services Consultants, Inc. 401(k) Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3 and Note 6, which was certified or provided by John Hancock Life Insurance Company, the current custodian of the Plan and Nationwide Trust Company, the former custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodians hold/held the Plan's investment assets and executes/executed investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodians regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the current custodian as of December 31, 2009 and for the period from December 4, 2009 to December 31, 2009, and the former custodian as of December 31, 2008 and for the period from January 1, 2009 to December 14, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the current and former custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Health Services Consultants, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Health Services Consultants, Inc., Cobblestone Rehabilitation LTD Partnership, Developmental Foundations, Inc., Residential Developers, Inc., and Specialized Developments, LTD (the Companies) who have one year of service, in which the employee worked at least 1,000 hours, and is age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to reduce their salary and have the amount contributed to the Plan. The elective deferral amount may not be more than the lesser of: (a) 100% of their eligible compensation for the period, (b) the maximum dollar limit allowed under the requirements of the Internal Revenue Code ($16,500 for 2009) or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants who will be age 50 or older during the Plan year can make additional special catch-up contributions (up to $5,500 additional for 2009). Contributions of distributions to participants from another qualified plan are permitted as defined in the Plan and are reflected as rollover contributions.

The Companies shall contribute a safe harbor matching contribution equal to 100 percent of the first 3 percent of eligible compensation deferred, plus 50 percent of the participant eligible compensation deferral in excess of 3 percent, but not in excess of 5 percent. The maximum match will not exceed 4 percent of eligible compensation. The Companies may also make a discretionary contribution. For the year ended December 31, 2009, the Companies did not make a discretionary contribution. Contributions are subject to certain limitations.

The Plan currently offers thirty-eight mutual funds as investment options for the participants. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant accounts: Each participant's account is credited with the participant's elective contributions and, if applicable, rollover contributions and allocations of (a) the Companies' contributions, and (b) Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Participants are immediately vested in their elective contributions and, if applicable, rollover contributions, and the Companies safe harbor and discretionary matching contributions plus actual earnings thereon.

Payment of benefits: On termination of service, death, disability or retirement, a participant with a vested account balance greater than $5,000 may:

1. Elect to receive a lump-sum amount equal to the value of his or her vested account balance, or

2. Defer receipt of his or her distribution until a later date, subject to legal requirements regarding minimum required distributions.

If a participant's vested account balance is $5,000 or less, a lump sum amount distribution is the required form of distribution on termination of service, death, disability or retirement.

Note 1. Description of Plan (Continued)

Additionally, a participant may also elect to have a portion or all of his or her distribution paid in the form of a direct trustee-to-trustee transfer to another eligible retirement plan designated by the participant.

A participant shall also have the right to withdraw all or any portion of his/her 401k account or rollover account if the participant has a financial hardship as defined in the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The methods used to estimate the fair value of investments are described in Note 6.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Companies. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Companies.

Subsequent events: The Plan Administrator has evaluated subsequent events through June 11, 2010, the date the financial statements were available to be issued.

New accounting standards adopted: In June 2006, the Financial Accounting Standards Board (FASB) issued guidance on "Accounting for Uncertainty in Income Taxes," which has been codified in FASB ASC 740. This guidance clarifies the accounting for uncertainty in income taxes in financial statements and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken. This guidance also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. This guidance became effective and was implemented in 2009 by the Plan. The adoption of this guidance did not have a material impact on the Plan's financial statements.

In April 2009, the FASB issued accounting guidance related to "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly." This accounting guidance provides additional guidance for estimating fair value in accordance with accounting guidance related to Fair Value Measurements, when the volume and level of activity for the asset or liability have significantly decreased. This accounting guidance also includes guidance on identifying circumstances that indicate a transaction is not orderly. This guidance is effective for annual reporting periods ending after June 15, 2009, and shall be applied prospectively. The Plan adopted this guidance for the year ended December 31, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

In May 2009, the FASB issued accounting guidance which established general standards of accounting for and disclosure of subsequent events. The guidance defines "recognized subsequent events" as those that give evidence of conditions that existed at the balance-sheet date and "non-recognized subsequent events" as those that provide evidence about conditions that arose after the balance-sheet date but prior to the issuance of the financial statements. Entities must recognize in the financial statements the effect of recognized subsequent events, but cannot recognize the effects in the financial statements of non-recognized subsequent events. This guidance also requires entities to disclose the date through which subsequent events have been evaluated. This guidance was effective for annual periods ending after June 30, 2009. The Plan adopted this guidance for the year ended December 31, 2009. The adoption of this guidance did not have an impact on the Plan's financial statements.

In June 2009, the FASB issued accounting guidance which established the FASB "Accounting Standards Codification™" (the "ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities. This guidance was effective for financial statements issued for annual periods ending after September 30, 2009. On the effective date, this guidance superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the ASC became non-authoritative. The Plan adopted this new guidance effective December 31, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

In September 2009, the FASB issued an amendment to accounting guidance, "Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)" (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Recent accounting standard: In January 2010, the FASB issued an amendment to accounting guidance, "Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements" (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting those changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010. The Plan is currently evaluating the impact, if any, of this guidance on the Plan's financial statements.

Note 3. Information Certified by the Custodians

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the current and former custodians that information provided to the Plan Administrator by the custodians related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears in Notes 3 and 6 and throughout the financial statements and supplemental schedule related to the investments.

Note 3. Information Certified by the Custodians (Continued)

The following table presents the fair values of the investments as of December 31, 2009 and 2008, which were certified by the custodians. Single investments representing more than 5% of the Plan's net assets as of December 31, 2009 and 2008, are separately identified.

	$ 3,622,755	$ 3,017,883

* Did not meet the 5% threshold during the year

The custodians also certified to the completeness and accuracy of $626,572 of net appreciation in fair value of investments for the year ended December 31, 2009.

Note 4. Income Tax Status

The Internal Revenue Service has determined and informed the Companies by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities for years before 2007.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 6. Fair Value Measurements

Effective January 1, 2008, the Plan adopted accounting guidance related to fair value measurements issued by the Financial Accounting Standards Board (FASB). This guidance established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end, as determined by the Plan's custodians.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

	2009			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies (mutual funds):

Total	$ 3,017,883	$ -	$ -	$ 3,017,883

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Party-in-Interest Transactions

The Plan invests in shares of registered investment companies managed by the custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the custodian are paid by the Company.
