Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Plan Administrator of The Pension Plan for Members of
United Steel Workers of America, AFL-CIO-CLC Local Union
3355, Demag Delaval Turbomachinery Corp., Trenton,
New Jersey and the Siemens Administrative and
Investment Committees

We were engaged to audit the accompanying statements of net assets available for benefits of The Pension Plan for Members of United Steel Workers of America, AFL-CIO-CLC Local Union 3355, Demag Delaval Turbomachinery Corp., Trenton, New Jersey as of July 1, 2009 and December 31 2008, and the related statements of changes in net assets available for benefits for the 6-month period ended July 1, 2009 and year ended December 31, 2008, respectively. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 8, which was certified by BNY Mellon Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the 6-month period and year ended July 1, 2009 and December 31, 2008, respectively, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements as of and for the 6-month period ended July 1, 2009 and year ended December 31, 2008 taken as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following brief description of The Pension Plan for Members of United Steel Workers of America, AFL-CIO-CLC Local Union 3355, Demag Delaval Turbomachinery Corp., Trenton, New Jersey (the Plan) is provided only for general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan sponsored by Siemens Corporation (Siemens) and is available to employees of Siemens Demag Delaval Turbomachinery Corp. (the Company), a subsidiary of Mannesmann Corporation, a wholly owned subsidiary of Siemens AG. The Plan was amended and restated effective January 1, 1997. Employees are eligible to participate in the Plan if they are employed in the Company's Bargaining Unit as defined in the Basic Labor Agreement between Local Union 3355 and the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The assets of the Plan are held in the Master Trust for Siemens Pension Plans (the Master Trust) along with assets of certain other Siemens-sponsored pension plans. The assets of the Master Trust were held by BNY Mellon Bank, N.A. (the trustee) at July 1, 2009 and December 31, 2008.

Effective July 1, 2009, the Plan was merged with the Siemens Pension Plan for Union Employees and the related Plan assets of \$18,220,361 were transferred into the Siemens Pension Plan for Union Employees on that date. This merger did not impact the Plan's provisions.

Administration

The Administrative Committee of Siemens is responsible for administering the Plan's operations and the Investment Committee of Siemens is responsible for monitoring investments held by the Plan. The Administrative Committee is currently composed of the Director of Employee Benefits of Siemens, the Vice President and Controller of Siemens, and six human resource representatives from certain of Siemens affiliates who are appointed by the Senior Vice President

of Human Resources of Siemens. The six-person Investment Committee is currently composed of the following members: the Executive Vice President and Chief Financial Officer of Siemens (who serves as Chairman of the Investment Committee); the President of the Siemens Capital Company, LLC; the Senior Vice President, General Counsel and Secretary of Siemens; the Senior Vice President of Human Resources of Siemens; the Vice President of Mergers & Acquisitions of Siemens; and the Vice President and Controller of Siemens, all of whom are appointed by the Board of Directors of Siemens.

Pension Benefits

Participants with at least five years of service are entitled to monthly pension benefits beginning at the normal retirement age of 65. Monthly pension benefits are based on years of service and benefit multipliers pursuant to the plan document. Employees who retired before August 31, 1995 receive a monthly benefit equal to \$24.00 multiplied by years of benefit service. Employees retiring between September 1, 1995 and February 12, 2001 receive a monthly benefit equal to \$26.50 multiplied by years of benefit service. Employees retiring between February 12, 2001 and March 1, 2004 receive a monthly benefit equal to \$30.00 multiplied by years of benefit service. Employees retiring between March 1, 2004 through February 28, 2005 receive a monthly benefit equal to \$33.00 multiplied by years of benefit service. For those retiring between March 1, 2005 through March 1, 2006 the multiplier is equal to \$36.00 times years of service. For those retiring between March 1, 2006 through March 5, 2007, the dollar multiplier is \$38.00 times years of service and for post March 1, 2007 the dollar multiplier is \$44.00.

The Plan permits early retirement provided the participant has reached age 55 and that the sum of the participant's age and full years of service sums to at least 75. The amount of pension benefit is reduced by approximately 4% for each year before age 62 that retirement commences. Full benefits are payable for early retirement prior to age 65 if 30 or more years of service are attained.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participants may elect to receive the value of their accumulated benefits in the form of an annuity purchased from an insurance company, a single lump sum, or an annuity payable in periodic payments made at intervals not longer than one year. If the actuarial present value of the vested benefit is less than \$5,000, the Plan provides for lump-sum payments of accumulated pension benefits to participants.

Death and Disability Benefits

Unless a participant elects otherwise, in the event of a participant's death, the Plan also provides for a monthly life annuity to a participant's surviving spouse equal to 50% of the reduced monthly benefit amount to which the participant was entitled under the Plan at the time of the participant's death. If the participant dies prior to retirement, benefit payments commence on the first day that the participant would have been eligible for early retirement.

Participants having completed at least ten years of service, who became disabled after September 9, 1980 and before January 1, 2003, are eligible for disability benefits. The amount is equal to monthly payments of \$300 until the disabled participant can return to work, dies, or reaches his/her normal retirement age of 65, whichever comes first. Participants who became disabled before September 9, 1980 or after January 1, 2003 are not eligible for disability benefits.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

Fair Value Measurements

The Company defines fair value as the exchange price that would be received for an asset or paid for a liability in a most advantageous market for these assets or liabilities in an orderly transaction between market participants on the measurement date. The Company utilizes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize unobservable inputs when determining fair value and also established three levels of classification (see Note 9).

Investment Valuation and Income Recognition

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions, asset transfers in, and allocated investment income less actual distributions, allocated investment loss, asset transfers out, and allocated administrative expenses.

Investments in securities held by the Master Trust are generally valued using quoted market prices. The last reported sales price on the valuation date is used when no other value is obtainable from the trustee. The amounts reported by the Master Trust for securities that have no quoted market price represent estimated fair value as determined by the trustee. Investments in forward currency contracts are marked to market using quoted exchange rates on the valuation dates. The investment manager values investments in private placement bonds and high-yield bonds when no other value is obtainable from the trustee. Investments in short-term investment funds are reported at cost, which approximates fair value. Investments in limited partnerships are valued based on information provided by the sponsor of the partnership. In the event that no other value is obtainable from the trustee, the investment manager will determine the value. Purchases and sales by the Master Trust are recorded on a trade-date basis. Interest income is recorded by the Master Trust on the accrual basis. The Master Trust records dividends on the ex-dividend date.

2. Summary of Accounting Policies (continued)

Payment of Benefits

Benefit payments to participants are recorded when paid.

Plan Expenses

Certain expenses are paid by the Master Trust and charged to the Plan based upon the Plan's proportionate interest in the net assets of the Master Trust. Expenses attributed to a specific plan are charged to that plan only.

Risks and Uncertainties

The Plan participates in a Master Trust, which invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

The Investment Committee has diversified the net assets of the Master Trust with the intention of appropriately addressing significant concentrations of risk. The Master Trust's net assets were managed by 13 investment managers for the 6-month period and year ended July 1, 2009 and December 31, 2008, respectively.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect amounts reported and disclosed in the financial statements.

Notes to Financial Statements (continued)

3. Funding Policy

The Plan is funded solely by contributions made by the Company.

Contributions are determined annually based on actuarial valuations of the Plan by Hewitt Associates, LLC (Hewitt), an independent consulting actuary. Hewitt determines the maximum amount permitted by law or regulation as a Federal income tax deduction and the minimum amount necessary during any Plan year to avoid an accumulated funding deficiency as defined by ERISA.

The Company funds normal costs on a current basis and initial and additional past service liabilities from Plan amendments, assumptions/method changes, and actuarial experience over periods of 30, 10, and 5 years, respectively. The actuarial funding method was the Projected Unit Credit Cost Method for the December 31, 2008 valuation. The interest rate assumption used for funding purposes was 8% for 2008. There were no Company contributions for the 6-month period and year ended July 1, 2009 and December 31, 2008, respectively. The minimum funding requirements of ERISA were met for both periods.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions for employee services already rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died, and (iii) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of service. The accumulated plan benefits for active employees are based on years of service prior to the date of calculation (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employees' services rendered and compensation received up to the valuation date.

The actuarial present value of accumulated plan benefits was determined by Hewitt, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Demag Delaval Turbomachinery Corp.,

Notes to Financial Statements (continued)

4. Actuarial Present Value of Accumulated Plan Benefits (continued)

The more significant actuarial assumptions used in the December 31, 2008 valuation are as follows:

1. Life expectancy of active participants: 2008 RP – 2000 Combined Healthy Mortality Table
2. Accrued benefit interest rate: 6.95%
3. Weighted average retirement age: 62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2008 and the changes in actuarial present value of accumulated plan benefits during the year ended December 31, 2008 are as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 13,341,955
Participants with deferred benefits	715,790
Other participants	5,031,053
	<u>19,088,798</u>
Nonvested benefits	93,071
Total actuarial present value of accumulated plan benefits	<u><u>\$ 19,181,869</u></u>

4. Actuarial Present Value of Accumulated Plan Benefits (continued)

The Plan's experience and assumptions change amounts reflect changes due to retirement experience, turnover and mortality.

5. Plan Termination

The Company intends to continue the Plan indefinitely without interruption, but reserves the right to discontinue it at any time.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) up to the applicable limitations (discussed below).
- (c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (d) All nonvested benefits.

5. Plan Termination (continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2009, that ceiling is \$4,500 per month. That ceiling, which is adjusted periodically, applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

6. Tax Status

The Internal Revenue Service (IRS) has issued a favorable determination letter dated November 12, 2008, advising that the Plan qualifies for tax-exempt status pursuant to the provisions of the Internal Revenue Code (the Code). The Plan's management and management of the Company believe that the Plan conforms to ERISA requirements and continues to qualify as tax exempt under the Code.

7. Parties-in-Interest

The Plan trustee, BNY Mellon Bank, N.A. (the trustee), also serves as an investment manager with respect to one of the funds of the Master Trust of the Plan. In addition, the trustee also serves as the custodian for certain commingled funds managed by INVESCO in which the Plan participates.

9. Investment in the Master Trust

All Master Trust amounts were prepared from records certified to be complete and accurate by BNY Mellon Bank, N.A. at June 30, 2009 (as this is the most recent statement available) and December 31, 2008 and for the 6-month period and year then ended, respectively.

The Plan has a proportionate interest in the Master Trust. The Master Trust's net assets and investment loss are allocated to the individual Siemens-sponsored pension plans on a daily weighted average basis. The Plan's proportionate interest in the Master Trust's net assets was 0% and 0.55% at July 1, 2009 and December 31, 2008, respectively.

Fair Value Measurements

The Company defines fair value as the exchange price that would be received for an asset or paid for a liability in an orderly transaction between market participants on the measurement date. The Company utilizes a fair value hierarchy which requires the Plan to maximize the use of

observable inputs and minimize unobservable inputs when determining fair value and also established three levels of classifications. The levels are:

Level 1 – Quoted market prices or identical assets or liabilities in active markets, e.g., NYSE, NASDAQ, and over-the-counter markets that the Plan has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices, e.g., interest rates, yield curves, and quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect the custodian's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2009.

Cash and cash equivalents: Cash and cash equivalents comprise short-term investments and are held in a pooled investment vehicle. This fund maintains a \$1 per share value. Any gains and/or earnings by the underlying assets are paid out as interest.

Common stock (foreign and U.S.): All assets in which the Master Trust holds a direct share have been classified as common stocks. These assets are valued at the closing price reported on the active market on which the individual securities are traded.

Corporate debt obligations (foreign and U.S.): Valued based on market data, incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, etc. as model processes such as the Option Adjusted Spread model to assess interest rate impact of and develop prepayment scenarios. Both models and processes take into account market convention.

Government debt obligations (foreign and U.S.): Valued based on market data, incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, etc. as model processes such as the Option Adjusted Spread model to assess interest rate impact of and develop prepayment scenarios. Both models and processes take into account market convention.

Preferred stock: Valued based on market data, incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, etc. as model processes such as the Option Adjusted Spread model to assess interest rate impact of and develop prepayment scenarios. Both models and processes take into account market convention.

Real estate investment trust (REIT): The REIT is a limited partnership comprising marketable securities. The Plan directly holds shares of the underlying assets of the limited partnership and, therefore, the value is reported using the closing price on the active market of the underlying assets.

Commingled and mutual funds: These assets have been classified as common stocks on the preceding Master Trust table based on the underlying assets of the funds which are common stocks. The fund calculates a net asset value (NAV) based on the underlying securities' value at market close, less any applicable expenses, divided by the shares outstanding. NAVs may be calculated on a daily/weekly/monthly basis (as determined by the fund).

Limited partnerships: Limited partnerships are valued based on the information provided by the manager. Quarterly data is usually received one to three months after quarter end. This creates a "lag" as the data is updated when it is received. There is no material impact as a result of this lag.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Master Trust's investments at fair value for the 6-month period and year ended June 30, 2009 and December 31, 2008, respectively:

401(h) Account

Included within the assets of the Master Trust is a separate 401(h) account which is maintained with respect to a health-benefit component of the Siemens ElectroCom L.P. Retirement Plan which merged into the Siemens Pension Plan on December 31, 2000. The Siemens Pension Plan also participates in the Master Trust. This asset has been accounted for in accordance with Section 401(h) of the Code. The corresponding liability has been recorded in the statement of net assets of the Siemens Pension Plan and is not reflected in the Master Trust assets above. These assets are not available to the Plan.

Forward Currency Contracts – Net

In order to hedge against foreign currency exchange rate risks, the Master Trust may buy or sell foreign forward currency contracts. Foreign forward currency contracts obligate one party to purchase and the other party to sell a specific currency at a set price on a future date. Foreign forward currency contracts are valued monthly based on forward currency rates with the resulting adjustment being recorded as unrealized gain (loss). The net unrealized loss for forward currency contracts was \$5,767 and \$68,117 for the 6-month period and year ended June 30, 2009 and December 31, 2008, respectively.

As of June 30, 2009 and December 31, 2008, the Master Trust had open positions to buy foreign forward currency contracts in various denominations in exchange for \$525,007 and \$2,700,827, respectively, and whose values at June 30, 2009 and December 31, 2008 were \$519,240 and \$2,695,193, respectively, resulting in losses of \$5,767 and \$5,634 for 2009 and 2008, respectively.

As of June 30, 2009 and December 31, 2008, the Master Trust had open positions to sell foreign forward currency contracts in various denominations in exchange for \$525,007 and \$2,700,827, respectively, and whose values at June 30, 2009 and December 31, 2008 were \$525,007 and \$2,763,310, respectively, resulting in a loss of \$0 for the 6-month period ended June 30, 2009 and a loss of \$62,483 for the year ended December 31, 2008.

Securities Lending

As of June 30, 2009 and December 31, 2008, the Master Trust participated in the BNY Mellon Bank Security Lending Program for its U.S. and non-U.S. securities held in custody at BNY Mellon Bank, N.A. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102%, and for non-U.S. securities, collateral shall not be less than 105% unless it is denominated in the same currency as the collateral, in which case it will be 102%. Collateral received is

invested in a short-term collateral re-investment fund that is managed by BNY Mellon's Global Security Lending Group, and the fund consists of high quality short-term investments. The value of loaned securities amounted to \$355,687,513 and \$564,247,588 at June 30, 2009 and December 31, 2008, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements.

10. Subsequent Events

The Company has evaluated all subsequent events through January 13, 2010, which represents the date of these financial statements, to ensure that these financial statements include appropriate disclosure of events both recognized in the financial statements as of July 1, 2009, and events which occurred subsequent to July 1, 2009 but were not recognized in the financial statements. As of January 13, 2010, there were no subsequent events which required recognition or disclosure.

Early Retirement

Eligibility

Retirement at the later of age 55 or the date age plus full Years of Continuous Service equals 75.

Amount

Normal Retirement Benefit reduced 4% per year before age 62 that retirement commences. If a participant retires with 30 or more years of Continuous Service, the normal retirement benefit is paid without reduction.

Vesting

Eligibility

100% vested after 5 Years of Continuous Service.

Amount

The Monthly Accrued Benefit, payable unreduced at age 65 or payable on a reduced basis at an age not earlier than age 55.

Pre-retirement Death

Eligibility

Vested and married for one year prior to death.

Amount

The amount which would be payable if the participant terminated on his date of death, elected payment at the earliest eligibility for early retirement in the form of a qualified joint and survivor annuity, and died prior to the first payment.

Benefit Commencement

At the time the employee would have been eligible for an early retirement benefit.

Changes in Plan Provisions since January 1, 2008 Valuation

The January 1, 2009 funding valuation reflects the following plan changes:

- An increase in the annual maximum benefit limit under IRC Section 415 from \$185,000 in 2008 to \$195,000 in 2009.
- The plan was merged with the Siemens Pension Plan for Union Employees effective July 1, 2009.

Schedule SB, Part V—Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

The actuarial valuation was conducted on an ongoing (not termination) basis using personnel data furnished as of January 1, 2009 by Siemens Demag Delaval Turbomachinery, Inc. Asset information and the dates and amounts of contributions are based on information supplied by Siemens Demag Delaval Turbomachinery, Inc..

The target liability was calculated using the full yield curve based on corporate bond rates for December. As such, "0" was entered on line 21b as the applicable lookback month. Note that at the time of this filing, an error in the i-File software defaults the entry on line 21b to "1" in the created PDF file. Line 21b has been hand corrected to "0" on the filing signed by the Enrolled Actuary.

There is a minor difference between Item 2a and Schedule H line 1l(a) due to accrued expenses.
