NOTE 1: DESCRIPTION OF PLAN

The following description of the Western Oilfields Supply Company 401(k) and Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a combination of qualified cash and deferred arrangement under Internal Revenue Code (IRC) Section 401(k) and a qualified profit sharing plan covering all eligible employees of Western Oilfields Supply Company (the "Company"). The Plan's last amendment was effective January 1, 2009.

Participation

Employees (other than those under the age of 18) of the Company begin participating in the Plan on their hire date. There were 1,514 and 1,310 participants in the Plan at December 31, 2010 and 2009, respectively.

Contributions

Under the Plan, participants may voluntarily contribute up to 20% of pre-tax salary and up to 10% of after-tax salary to the Plan. The maximum contribution of pre-tax and after-tax contributions cannot exceed 25% of the participant's compensation. The Plan also allows the Company to match, on a discretionary basis, a portion of participants' pre-tax contributions.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) the Company's contribution, and (c) earnings allocable to the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions and the related employer match amounts to any of twenty-two investment options. Participants may specify the ratios in which the amounts are invested among the following investment options:

Vanguard Wellington Fund - Seeks to provide income and long-term growth of capital without undue risk to capital by investing approximately 65% of its assets

Participants may change their investment options at their discretion. Participants may also transfer assets among investment options.

Notes Receivable from Participants

Notes receivables from participants are comprised of loan amounts the participant has borrowed from their funds. Participants may borrow from their fund accounts a maximum amount equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant loan fund. Loan terms range from 1 to 5 years with the exception for a loan which is used to acquire a primary residence which may be repaid over a longer, reasonable period of time as determined by the Plan Administrator. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the prevailing interest rate charged by professional lenders. Principal and interest is paid ratably through biweekly payroll deductions.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Vesting and Forfeitures

The Plan provides for immediate 100% vesting in the participant's elective deferral and after-tax contribution accounts. Vesting in Company contributions is determined by the participant's years of service with the Company. A participant becomes vested in 20% increments per year upon completing two years of services. A participant's interest in Company contributions shall become 100% vested without regard to years of service if (1) the participant is an employee of the Company on or after normal retirement age, or (2) on the death or disability of the participant while an employee.

The Plan provides that forfeitures with respect to Company contributions result when a participant terminates employment (or incurs a break in service) before the participant becomes fully vested. The effective date of the forfeiture is the last day of the plan year after the participant has five consecutive one-year breaks in service or the date the participant's vested balance is distributed, whichever occurs first.

Under the Plan, forfeited nonvested Company contributions and interest thereon of terminated participants are used to reduce the amount of contributions required to be made by the Company. However, these amounts are restored to participants in the event of re-employment within one year of termination providing Company funds distributed were repaid to the Plan upon re-employment. For the years ended December 31, 2010 and 2009, forfeited nonvested accounts totaled $1,086,866 and $649,099, respectively.

Distributions

Eligible employees may elect to receive benefits upon retirement or termination in a lump sum distribution, in regular installments or a combination thereof. A lump sum distribution is required when the value of the termination benefit does not exceed $1,000. Amounts greater than $1,000 but less than $5,000 are transferred into individual retirement accounts of the participant.

Termination of the Plan

The Company expects to continue the Plan indefinitely, but it does not assume an individual or collective obligation to do so, and the right is reserved to the Company, by action of its Board of Directors, to terminate the Plan or completely discontinue contributions. In the event of termination of the Plan, the assets will be distributed in accordance with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and participants will become fully vested in Company contributions without regard to their years of service.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Administration

The Company has appointed an administrative committee, the Employee Benefit Plan Administrative Committee (the "Committee"). The committee is the named fiduciary of the Plan. The Committee has the full power and discretion to administer the Plan and to interpret and apply its provisions. It has contracted with Vanguard Fiduciary Trust Company (VFTC) to act as Trustee of the Plan's assets. Record keeping services for the Plan are also provided by The Vanguard Group.

Expenses of the Committee

The expenses of the Committee properly and actually incurred in the performance of its duties under the Plan may be paid from the Trust Fund, or at the Company's discretion may be paid by the Company. The Company has paid all such expenses for the current plan year.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Date of Management Review

Subsequent events were evaluated through August 10, 2011, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Contributions

Contributions from employees are recorded in the period in which payroll deductions are made. The discretionary Company contribution to the Plan is recorded as an addition to net assets in the fiscal year for which the Company's Board of Directors approves funding of the Plan.

Recognition of Income

Net investment income is recorded when earned and is retained and reinvested for the benefit of the participants.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefits Payable

As of December 31, 2010, there were no benefits payable to persons who have withdrawn from participation in the earnings and operations of the Plan.

Valuation of Investments

Investments in securities which are listed on a registered stock exchange are valued at the closing price on the last business day of the Plan year. Any unlisted securities are valued at the bid price on the last business day of the Plan year. Realized gains and losses on dispositions of investments comprise the difference between proceeds and cost. In accordance with the policy of stating investments at market value, the Plan's proportionate share of net unrealized appreciation or depreciation is recorded at year end. Participant loans are valued at cost which approximates fair value. The net unrealized appreciation (depreciation) and the amount of realized gain (loss) reported in these financial statements differ from the amounts reported in the Form 5500 filed for the Plan because amounts included in the financial statements are computed on the basis of original cost of the investments whereas the amounts in the 5500 are computed using the value of investments from the beginning of the Plan year as a measurement of the gain or loss versus original cost to determine gain or loss. The result is a difference between the realized and unrealized portion of investment gain (losses). There is no effect on total investment earnings.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Reclassification

Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

NOTE 3: INCOME TAXES

The Internal Revenue Service issued a favorable determination letter on March 14, 1986 stating that the Plan is qualified under IRC of 1954 Section 401(a) of 1954 and that the corresponding trust is exempt from income tax under IRC Section 501(a). The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

As a result, no provision for federal or state income taxes is recorded in the accompanying financial statements. Participants are not expected to be subject to federal or state income taxes for contributions made by the participants or by the Company. Distributions from the Plan may be taxable to participants upon distribution.

NOTE 4: RELATED PARTY TRANSACTIONS

The Plan invests in shares of mutual funds by an affiliate of VFTC. VFTC acts as Trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

NOTE 5: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2010			
Mutual funds	$ 71,332,430	$ 71,332,430	$ -
December 31, 2009			
Mutual funds	$ 63,965,420	$ 63,965,420	$ -

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted market prices.

Level 2 Fair Value Measurements

The fair values of certain investment contracts are based on observable inputs other than the quoted prices included in Level 1. Thus, the fair value of the investment contracts are based on yields for securities of comparable maturity, quality and type.

Level 3 Fair Value Measurements

The fair values of investments which are not actively traded and significant other

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for year ended December 31, 2010, are reported in net appreciation in fair value of investments.

NOTE 6: SUMMARY OF FINANCIAL DATA CERTIFIED BY THE TRUSTEE

The Plan Administrator had elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Vanguard, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

The difference between the information summarized below and that included in the accompanying financial statements is attributable to accruals made for the purpose of conforming the financial information certified by the agent for the Trustee to the accrual basis of accounting.

Net Assets Available for Plan Benefits at December 31:

	2010	2009
Investment funds	$ 71,332,430	$ 63,965,420

Changes in Net Assets Available for Plan Benefits for the Years Ended December 31:

	2010	2009
Earnings on investments	$ 6,726,109	$ 9,831,605

The difference between the information summarized above and that included in the accompanying financial statements is attributable to accrual made for the purpose of conforming the financial information certified by the Trustee to the accrual basis of accounting.
