(1) DESCRIPTION OF PLAN

TAXPAYER'S COPY

The following description of the Allstate Floral & Craft, Inc. (''Company'') Employee Savings Plan (''Plan'') provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers one common collective trust and twenty-six insurance company pooled separate accounts as investment options for participants. The Company contributes a discretionary percentage, which the Company determines each year, of compensation that a participant contributes to the Plan.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant's considerations or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service after January 1, 2001, the effective date of the plan. A participant is vested on a 6-year graded schedule, 100% vested after six years of credited service.

(1) DESCRIPTION OF PLAN (CONTINUED)

Participant Loans. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, and the minimum loan is $1,000. The loans are secured by the balance in the participant's account and bear interest at Prime plus 2%. Principal and interest is paid ratably not less frequently than quarterly over a period not to exceed 5 years.

Payment of Benefits. On termination of service due to death, disability, retirement or other reasons, a participant would receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Those participants with vested account balances greater than $5,000 have the options of leaving their accounts invested in the Plan or being paid by varying forms of annuity. A participant may also request a hardship distribution due to an immediate and heavy financial need based on the terms of the Plan.

Forfeitures. Forfeited balances of terminated participants' nonvested accounts may be used to pay Plan expenses or to reduce future employer contributions. Forfeitures of $187 were used to reduce employer matching contributions for 2009.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through July 14, 2010, which is the date the financial statements were available to be issued.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation

The common collective trust is valued on a daily basis. The value of each unit is determined by subtracting total liabilities from the total value of the assets, including accrued income, and dividing the amount remaining by the number of units outstanding on the valuation date. Pooled separate account values are generally determined based on the market values of the securities included in the underlying funds.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

(3) INVESTMENTS

Except for the investments in pooled separate accounts under a group annuity contract with Principal Life Insurance Company, the Plan's investments are held in directed custodial trust with Union Bond & Trust Company, a wholly-owned subsidiary of the Principal Financial Group.

The following presents investments that represent 5% or more of the Plan's net assets.

(4) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(5) TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 7, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(6) PARTY-IN-INTEREST

TAXPAYER'S COPY

Principal Life Insurance Company, under the group annuity contract, provides third party administrative services to the Plan for which the Plan is charged. In addition, Principal Life Insurance Company receives (a) 32 basis points annually of the value of the Plan's units held in the Principal Stable Value Fund, and (b) a management fee based on the value of Plan assets invested in pooled separate accounts.

(9) FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritize the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement data for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and

(9) FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008.
