REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Administrative Committee and
Participants of the Twining Laboratories
Retirement Savings Plan

We were engaged to audit the financial statements of Twining Laboratories Retirement Savings Plan (the "Plan") as of December 31, 2009 and 2008, and for the years then ended, and the supplemental schedules as of and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's Administrative Committee.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan's Administrative Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Union Central Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan's Administrative Committee that the custodian holds the Plan's investment assets and executes investment transactions. The Plan's Administrative Committee has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan's Administrative Committee by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 and 2008 financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TWINING LABORATORIES RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 and 2008

NOTE 1 – GENERAL DESCRIPTION OF THE PLAN

The following description of the Twining Laboratories Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

1. **General.** The Plan is a salary reduction plan covering all full-time employees of the Company who have completed six-months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Pursuant to a collective bargaining agreement effective June 22, 1998, Twining Laboratories' union personnel no longer make salary deferrals to the 401(k) Plan. Amount previously contributed by union personnel will be maintained by the Plan until withdrawn by the employee.

   On October 15, 2003, the Plan was amended and restated for GUST, the final regulations for Minimum Required Distributions, and the interim EGTRAA amendments.

   Effective January 1, 2009, the Plan was amended and restated to adopt a prototype plan offered by the Plan's third-party administrator. The adoption did not change the eligibility requirements or investment options.

2. **Contributions.** Each year, participants may contribute up to 90% in 2009 and 60% in 2008 of pretax annual compensation, as defined in the Plan. The Company may contribute a discretionary matching contribution equal to a percentage, to be determined by the employer, of the participant's salary reduction. The Company made a discretionary matching contribution equal to 15% of the employee salary contributions for the years ended December 31, 2009 and 2008.

   The Company may contribute a discretionary profit sharing contribution to be determined by the employer. The Company did not make any discretionary profit sharing contributions for the years ended December 31, 2009 and 2008.

3. **Participants accounts.** Separate accounts are maintained for each participant in the Plan. Allocations of matching contributions are based on a percentage of the participants' elective deferral amounts. Allocation of the profit sharing contribution to each participant is based on the relationship that the participant's total eligible compensation bears to the total eligible compensation paid to all participants for such plan year. Each participant's account is credited with the participant's contribution and allocation of the Company's contributions, and Plan earnings.

NOTE 1 – GENERAL DESCIPTION OF THE PLAN - (Continued)

4. **Vesting.** Participants are immediately vested in their contributions plus related earnings. Vesting in the Company's matching and discretionary contribution portions of their accounts, plus related earnings, is based on years of continuous service. Company matching and profit sharing contributions vest 33% after two years, 67% after three years, and 100% after four years of credited service. Participants also become fully vested upon reaching age 65, in the event of death or upon suffering a permanent disability while employed with the Company.

5. **Investment options.** Upon enrollment in the Plan, a participant may direct all contributions in various investment options through an Allocated Group Annuity Contract with Union Central Life Insurance Company.

6. **Participants loans.** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or a reasonable period of time for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. If more security is required, the participant's primary residence may be used. Principal and interest are paid ratably through weekly payroll deductions. At December 31, 2009 and 2008, the interest rates on participant loans ranged from 4.75% to 9.75%. There were no defaulted participant loans as of December 31, 2009 and 2008.

7. **Payment of benefits.** On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount or an annuity equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or a direct rollover. Terminated employees with account balances greater than $5,000 may elect to keep their vested account balances in the Plan after termination. At December 31, 2009 and 2008, net assets included vested account balances of terminated employees totaling $237,777 and $180,291, respectively.

8. **Forfeited accounts.** Participants forfeit the unvested portion of their accounts upon receipt of distribution of the vested account balance. During 2009, forfeitures may be used to, first, reduce administrative expenses and, then, employer contributions. During 2008, forfeitures were used to reduce future employer contributions and were allocated among participants eligible to share for the plan year end. At December 31, 2009 and 2008 forfeited non-vested accounts available to offset future employer contributions totaled $40,380 and $38,773, respectively. Forfeited funds totaling $40,380 were used to offset employer contributions for the year ended December 31, 2009. At December 31, 2008, forfeited funds were not used to offset administrative expenses and employer contributions.

NOTE 1 – GENERAL DESCIPTION OF THE PLAN – (Continued)

9. **Plan Administration**. The Company provides accounting and administrative services to the Plan at no cost and pays contract administration fees and asset management fees. Administrative expenses, which amounted to $11,035 and $11,500, were paid by the Company for the years ended December 31, 2009 and 2008, respectively. Administrative expenses paid by the Plan were $1,290 and $760 for the years ended December 31, 2009 and 2008, respectively.

10. **Plan Termination.** The Company anticipates and believes that the Plan will continue without interruption but reserves the right to terminate the Plan in whole or in part at any time. In the event of termination of the Plan, each participant would become fully vested to the extent of the balance in their account, and all accumulated plan benefits would be disbursed to the participants.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2009-01 "*Topic 105 – Generally Accepted Accounting Principles – amendments based on – Statement of Financial Accounting Standards No. 168 – The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles.*" This guidance establishes the Accounting Standards Codification ("ASC") as the source of authoritative U.S. Generally Accepted Accounting Principles ("GAAP") recognized by the FASB and is effective for the Plan beginning September 15, 2009. The adoption of this guidance had no impact on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The guaranteed investment contract is valued at fair value. Contract value represents contributions made by participants, plus interest at the contract rates, less withdrawals or transfers by participants. Fair value reflects the relationship between credited rates earned by the funds and current market rates.

Investments in pooled separate accounts are valued at estimated fair value as reported by Union Central Life Insurance Company, as determined by the quoted market prices of the underlying investments. Participant loans are valued at cost which approximates fair value. Investment income is recorded when earned. Interest income on participant loans is recorded on the accrual basis.

Net appreciation (depreciation) in the fair value of investments consists of both realized and unrealized gains and losses. Realized gains and losses are measured as the difference between the historical cost of investments sold or redeemed during the year and the proceeds received from their sale or redemption. Unrealized gains and losses are measured as the difference between cost and fair value at the beginning of the period and at the end of the period. Investment transactions are accounted for on a trade date basis.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

New Accounting Pronouncements

In May 2009, the FASB issued guidance intended to establish general standards of accounting for and disclosure of events that occur after the Statement of Net assets Available for Benefits date but before financial statements are issued or are available to be issued. This guidance requires disclosure of the date through which the Plan has evaluated subsequent events and whether that date represents the date the financial statements were issued or were available to be issued. This guidance is included in ASC 855, "*Subsequent Events*," and was effective for the Plan during 2009. See Note 11 for disclosure of the Plan's subsequent events for the current reporting period.

NOTE 3 – INVESTMENTS IN INSURANCE CONTRACT

Guaranteed Investment Contract

The Plan has a benefit-responsive investment contract with Union Central Life Insurance Company ("Union Central"). Union Central maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by Union Central. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Fair value reflects the relationship between credited rates earned by the funds and current market rates. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The interest rates range from 2.89% to 3.21% in 2009 and 3.27% to 3.45% in 2008. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

	Investments at Fair Value	Adjustment to Contract Value
Union Central Deposit Account		
December 31, 2008	$108,111	$2,495
December 31, 2009	$130,945	($4,247)

Pooled Separate Accounts

The Plan's assets with Union Central are in an Allocated Group Annuity Contract with Union Central. The Plan has investments in pooled separate accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Pooled separate accounts are reported at estimated fair value as determined by Union Central, based on the quoted market prices of the funds' underlying investments.

NOTE 4 – INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2009	2008
Pooled separate accounts:		
Neuberger Ber Guardian Fund	$ 191,152	$ 167,746
Neuberger Ber Genesis Fund	-	120,006

CV Cash RES	776,988	561,314
Summit Pinn S & P 500 Index	$ 140,417	$ -

The Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $371,038 during 2009 and depreciated in value by $677,319 during 2008.

NOTE 5 – SUMMARY OF FINANCIAL DATA CERTIFIED BY THE CUSTODIAN OF PLAN ASSETS

The following financial data was certified by the Custodian of Plan Assets of the Plan for the years ended December 31, 2009 and 2008 in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 6 – FEDERAL INCOME TAX STATUS

Effective January 1, 2009, the Plan was amended and restated to adopt a prototype plan offered by the Plan's third-party administrator. The Plan has not applied for a determination letter from the Internal Revenue Service. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 – FEDERAL INCOME TAX STATUS (Continued)

Prior to 2009, the Plan had a favorable determination letter dated October 14, 2004 issued by the Internal Revenue Service qualifying, in form, under Section 401(a) of the Internal Revenue Code of 1986 as amended (the Code). The underlying trust was therefore, exempt from federal income taxes under Section 501(a) of the Code.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of participation in pooled separate accounts managed by Union Central. Union Central is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

There were no party-in-interest transactions that are prohibited by the Employee Retirement Income Security Act of 1974 Section 406 and for which no statutory or administrative exemption exists.

NOTE 8 – FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Guidance included in ASC 820-10 "*Fair Value Measurements and Disclosures*" provides a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 – The fair value of pooled separate accounts is based on quoted market prices of the underlying investments at year-end.

Level 2 – The fair value of the guaranteed investment contract with Union Central Life Insurance Company is determined by discounting the related cash flows based on current yield. The current yield and future cash flows are directly observable inputs, and consequently, guaranteed investment contract fair values are considered Level 2.

NOTE 8 – FAIR VALUE MEASUREMENT – (Continued)

Level 3 – The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

The following is a summary of the inputs used as of December 31, 2009 in valuing the Plan's investments:

	Level 1	Level 2	Level 3	Fair Value Measurements
Pooled separate account	$ 2,507,255	$ -	$ -	$ 2,507,255
Guaranteed investment contract	$ -	$ 130,945	$ -	$ 130,945
Participant loans	$ -	$ -	$ 43,848	$ 43,848

Fair value measurements using significant unobservable inputs (Level 3):

Balance at January 1, 2009	$ 42,125
Total gains or (losses) (realized and unrealized) included in changes in net assets available for benefits	5,514
Purchases, sales, and settlements (net)	(3,791)
Balance at December 31, 2009	$ 43,848

NOTE 8 – FAIR VALUE MEASUREMENT – (Continued)

The following is a summary of the inputs used as of December 31, 2008 in valuing the Plan's investments:

	Level 1	Level 2	Level 3	Fair Value Measurements
Pooled separate account	$ 1,811,613	$ -	$ -	$ 1,811,613
Guaranteed investment contract	$ -	$ 108,111	$ -	$ 108,111
Participant loans	$ -	$ -	$ 42,125	$ 42,125

Fair value measurements using significant unobservable inputs (Level 3):

Balance at January 1, 2008	$ 66,882
Total gains or (losses) (realized and unrealized) included in changes in net assets available for benefits	5,467
Purchases, sales, and settlements (net)	(30,224)
Balance at December 31, 2008	$ 42,125

NOTE 9 – RECONCILIATION WITH FORM 5500

The Statement of Net Assets Available for Benefits as of December 31, 2008 differs from the 2008 IRS Form 5500 in the amount of $2,749. The difference represents excess contributions payable as of December 31, 2008.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – SUBSEQUENT EVENTS

Subsequent events have been evaluated by the Company's management through July 13, 2010, the date these financial statements were available to be issued. No additional material subsequent events have occurred since December 31, 2009 that required recognition or disclosure in the current period financial statements.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Administrative Committee and
Participants of the Twining Laboratories
Retirement Savings Plan

We were engaged to audit the financial statements of Twining Laboratories Retirement Savings Plan (the "Plan") as of December 31, 2009 and 2008, and for the years then ended, and the supplemental schedules as of and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's Administrative Committee.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan's Administrative Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Union Central Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan's Administrative Committee that the custodian holds the Plan's investment assets and executes investment transactions. The Plan's Administrative Committee has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan's Administrative Committee by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 and 2008 financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TWINING LABORATORIES RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 and 2008

NOTE 1 – GENERAL DESCRIPTION OF THE PLAN

The following description of the Twining Laboratories Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

1. **General.** The Plan is a salary reduction plan covering all full-time employees of the Company who have completed six-months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Pursuant to a collective bargaining agreement effective June 22, 1998, Twining Laboratories' union personnel no longer make salary deferrals to the 401(k) Plan. Amount previously contributed by union personnel will be maintained by the Plan until withdrawn by the employee.

   On October 15, 2003, the Plan was amended and restated for GUST, the final regulations for Minimum Required Distributions, and the interim EGTRAA amendments.

   Effective January 1, 2009, the Plan was amended and restated to adopt a prototype plan offered by the Plan's third-party administrator. The adoption did not change the eligibility requirements or investment options.

2. **Contributions.** Each year, participants may contribute up to 90% in 2009 and 60% in 2008 of pretax annual compensation, as defined in the Plan. The Company may contribute a discretionary matching contribution equal to a percentage, to be determined by the employer, of the participant's salary reduction. The Company made a discretionary matching contribution equal to 15% of the employee salary contributions for the years ended December 31, 2009 and 2008.

   The Company may contribute a discretionary profit sharing contribution to be determined by the employer. The Company did not make any discretionary profit sharing contributions for the years ended December 31, 2009 and 2008.

3. **Participants accounts.** Separate accounts are maintained for each participant in the Plan. Allocations of matching contributions are based on a percentage of the participants' elective deferral amounts. Allocation of the profit sharing contribution to each participant is based on the relationship that the participant's total eligible compensation bears to the total eligible compensation paid to all participants for such plan year. Each participant's account is credited with the participant's contribution and allocation of the Company's contributions, and Plan earnings.

NOTE 1 – GENERAL DESCIPTION OF THE PLAN - (Continued)

4. **Vesting.** Participants are immediately vested in their contributions plus related earnings. Vesting in the Company's matching and discretionary contribution portions of their accounts, plus related earnings, is based on years of continuous service. Company matching and profit sharing contributions vest 33% after two years, 67% after three years, and 100% after four years of credited service. Participants also become fully vested upon reaching age 65, in the event of death or upon suffering a permanent disability while employed with the Company.

5. **Investment options.** Upon enrollment in the Plan, a participant may direct all contributions in various investment options through an Allocated Group Annuity Contract with Union Central Life Insurance Company.

6. **Participants loans.** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or a reasonable period of time for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. If more security is required, the participant's primary residence may be used. Principal and interest are paid ratably through weekly payroll deductions. At December 31, 2009 and 2008, the interest rates on participant loans ranged from 4.75% to 9.75%. There were no defaulted participant loans as of December 31, 2009 and 2008.

7. **Payment of benefits.** On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount or an annuity equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or a direct rollover. Terminated employees with account balances greater than $5,000 may elect to keep their vested account balances in the Plan after termination. At December 31, 2009 and 2008, net assets included vested account balances of terminated employees totaling $237,777 and $180,291, respectively.

8. **Forfeited accounts.** Participants forfeit the unvested portion of their accounts upon receipt of distribution of the vested account balance. During 2009, forfeitures may be used to, first, reduce administrative expenses and, then, employer contributions. During 2008, forfeitures were used to reduce future employer contributions and were allocated among participants eligible to share for the plan year end. At December 31, 2009 and 2008 forfeited non-vested accounts available to offset future employer contributions totaled $40,380 and $38,773, respectively. Forfeited funds totaling $40,380 were used to offset employer contributions for the year ended December 31, 2009. At December 31, 2008, forfeited funds were not used to offset administrative expenses and employer contributions.

NOTE 1 – GENERAL DESCIPTION OF THE PLAN – (Continued)

9. **Plan Administration**. The Company provides accounting and administrative services to the Plan at no cost and pays contract administration fees and asset management fees. Administrative expenses, which amounted to $11,035 and $11,500, were paid by the Company for the years ended December 31, 2009 and 2008, respectively. Administrative expenses paid by the Plan were $1,290 and $760 for the years ended December 31, 2009 and 2008, respectively.

10. **Plan Termination.** The Company anticipates and believes that the Plan will continue without interruption but reserves the right to terminate the Plan in whole or in part at any time. In the event of termination of the Plan, each participant would become fully vested to the extent of the balance in their account, and all accumulated plan benefits would be disbursed to the participants.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2009-01 "*Topic 105 – Generally Accepted Accounting Principles – amendments based on – Statement of Financial Accounting Standards No. 168 – The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles.*" This guidance establishes the Accounting Standards Codification ("ASC") as the source of authoritative U.S. Generally Accepted Accounting Principles ("GAAP") recognized by the FASB and is effective for the Plan beginning September 15, 2009. The adoption of this guidance had no impact on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The guaranteed investment contract is valued at fair value. Contract value represents contributions made by participants, plus interest at the contract rates, less withdrawals or transfers by participants. Fair value reflects the relationship between credited rates earned by the funds and current market rates.

Investments in pooled separate accounts are valued at estimated fair value as reported by Union Central Life Insurance Company, as determined by the quoted market prices of the underlying investments. Participant loans are valued at cost which approximates fair value. Investment income is recorded when earned. Interest income on participant loans is recorded on the accrual basis.

Net appreciation (depreciation) in the fair value of investments consists of both realized and unrealized gains and losses. Realized gains and losses are measured as the difference between the historical cost of investments sold or redeemed during the year and the proceeds received from their sale or redemption. Unrealized gains and losses are measured as the difference between cost and fair value at the beginning of the period and at the end of the period. Investment transactions are accounted for on a trade date basis.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

New Accounting Pronouncements

In May 2009, the FASB issued guidance intended to establish general standards of accounting for and disclosure of events that occur after the Statement of Net assets Available for Benefits date but before financial statements are issued or are available to be issued. This guidance requires disclosure of the date through which the Plan has evaluated subsequent events and whether that date represents the date the financial statements were issued or were available to be issued. This guidance is included in ASC 855, "*Subsequent Events*," and was effective for the Plan during 2009. See Note 11 for disclosure of the Plan's subsequent events for the current reporting period.

NOTE 3 – INVESTMENTS IN INSURANCE CONTRACT

Guaranteed Investment Contract

The Plan has a benefit-responsive investment contract with Union Central Life Insurance Company ("Union Central"). Union Central maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by Union Central. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Fair value reflects the relationship between credited rates earned by the funds and current market rates. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The interest rates range from 2.89% to 3.21% in 2009 and 3.27% to 3.45% in 2008. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

	Investments at Fair Value	Adjustment to Contract Value
Union Central Deposit Account		
December 31, 2008	$108,111	$2,495
December 31, 2009	$130,945	($4,247)

Pooled Separate Accounts

The Plan's assets with Union Central are in an Allocated Group Annuity Contract with Union Central. The Plan has investments in pooled separate accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Pooled separate accounts are reported at estimated fair value as determined by Union Central, based on the quoted market prices of the funds' underlying investments.

NOTE 4 – INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2009	2008
Pooled separate accounts:		
Neuberger Ber Guardian Fund	$ 191,152	$ 167,746

CV Cash RES	776,988	561,314
Summit Pinn S & P 500 Index	$ 140,417	$ -

The Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $371,038 during 2009 and depreciated in value by $677,319 during 2008.

NOTE 5 – SUMMARY OF FINANCIAL DATA CERTIFIED BY THE CUSTODIAN OF PLAN ASSETS

The following financial data was certified by the Custodian of Plan Assets of the Plan for the years ended December 31, 2009 and 2008 in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 6 – FEDERAL INCOME TAX STATUS

Effective January 1, 2009, the Plan was amended and restated to adopt a prototype plan offered by the Plan's third-party administrator. The Plan has not applied for a determination letter from the Internal Revenue Service. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 – FEDERAL INCOME TAX STATUS (Continued)

Prior to 2009, the Plan had a favorable determination letter dated October 14, 2004 issued by the Internal Revenue Service qualifying, in form, under Section 401(a) of the Internal Revenue Code of 1986 as amended (the Code). The underlying trust was therefore, exempt from federal income taxes under Section 501(a) of the Code.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of participation in pooled separate accounts managed by Union Central. Union Central is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

There were no party-in-interest transactions that are prohibited by the Employee Retirement Income Security Act of 1974 Section 406 and for which no statutory or administrative exemption exists.

NOTE 8 – FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Guidance included in ASC 820-10 "*Fair Value Measurements and Disclosures*" provides a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 – The fair value of pooled separate accounts is based on quoted market prices of the underlying investments at year-end.

Level 2 – The fair value of the guaranteed investment contract with Union Central Life Insurance Company is determined by discounting the related cash flows based on current yield. The current yield and future cash flows are directly observable inputs, and consequently, guaranteed investment contract fair values are considered Level 2.

NOTE 8 – FAIR VALUE MEASUREMENT – (Continued)

Level 3 – The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

The following is a summary of the inputs used as of December 31, 2009 in valuing the Plan's investments:

Purchases, sales, and settlements (net)	(30,224)
Balance at December 31, 2008	$ 42,125

NOTE 9 – RECONCILIATION WITH FORM 5500

The Statement of Net Assets Available for Benefits as of December 31, 2008 differs from the 2008 IRS Form 5500 in the amount of $2,749. The difference represents excess contributions payable as of December 31, 2008.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – SUBSEQUENT EVENTS

Subsequent events have been evaluated by the Company's management through July 13, 2010, the date these financial statements were available to be issued. No additional material subsequent events have occurred since December 31, 2009 that required recognition or disclosure in the current period financial statements.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Administrative Committee and
Participants of the Twining Laboratories
Retirement Savings Plan

We were engaged to audit the financial statements of Twining Laboratories Retirement Savings Plan (the "Plan") as of December 31, 2009 and 2008, and for the years then ended, and the supplemental schedules as of and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's Administrative Committee.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan's Administrative Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Union Central Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan's Administrative Committee that the custodian holds the Plan's investment assets and executes investment transactions. The Plan's Administrative Committee has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan's Administrative Committee by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 and 2008 financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TWINING LABORATORIES RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 and 2008

NOTE 1 – GENERAL DESCRIPTION OF THE PLAN

The following description of the Twining Laboratories Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

1. **General.** The Plan is a salary reduction plan covering all full-time employees of the Company who have completed six-months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Pursuant to a collective bargaining agreement effective June 22, 1998, Twining Laboratories' union personnel no longer make salary deferrals to the 401(k) Plan. Amount previously contributed by union personnel will be maintained by the Plan until withdrawn by the employee.

   On October 15, 2003, the Plan was amended and restated for GUST, the final regulations for Minimum Required Distributions, and the interim EGTRAA amendments.

   Effective January 1, 2009, the Plan was amended and restated to adopt a prototype plan offered by the Plan's third-party administrator. The adoption did not change the eligibility requirements or investment options.

2. **Contributions.** Each year, participants may contribute up to 90% in 2009 and 60% in 2008 of pretax annual compensation, as defined in the Plan. The Company may contribute a discretionary matching contribution equal to a percentage, to be determined by the employer, of the participant's salary reduction. The Company made a discretionary matching contribution equal to 15% of the employee salary contributions for the years ended December 31, 2009 and 2008.

   The Company may contribute a discretionary profit sharing contribution to be determined by the employer. The Company did not make any discretionary profit sharing contributions for the years ended December 31, 2009 and 2008.

3. **Participants accounts.** Separate accounts are maintained for each participant in the Plan. Allocations of matching contributions are based on a percentage of the participants' elective deferral amounts. Allocation of the profit sharing contribution to each participant is based on the relationship that the participant's total eligible compensation bears to the total eligible compensation paid to all participants for such plan year. Each participant's account is credited with the participant's contribution and allocation of the Company's contributions, and Plan earnings.

NOTE 1 – GENERAL DESCIPTION OF THE PLAN - (Continued)

4. **Vesting.** Participants are immediately vested in their contributions plus related earnings. Vesting in the Company's matching and discretionary contribution portions of their accounts, plus related earnings, is based on years of continuous service. Company matching and profit sharing contributions vest 33% after two years, 67% after three years, and 100% after four years of credited service. Participants also become fully vested upon reaching age 65, in the event of death or upon suffering a permanent disability while employed with the Company.

5. **Investment options.** Upon enrollment in the Plan, a participant may direct all contributions in various investment options through an Allocated Group Annuity Contract with Union Central Life Insurance Company.

6. **Participants loans.** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or a reasonable period of time for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. If more security is required, the participant's primary residence may be used. Principal and interest are paid ratably through weekly payroll deductions. At December 31, 2009 and 2008, the interest rates on participant loans ranged from 4.75% to 9.75%. There were no defaulted participant loans as of December 31, 2009 and 2008.

7. **Payment of benefits.** On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount or an annuity equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or a direct rollover. Terminated employees with account balances greater than $5,000 may elect to keep their vested account balances in the Plan after termination. At December 31, 2009 and 2008, net assets included vested account balances of terminated employees totaling $237,777 and $180,291, respectively.

8. **Forfeited accounts.** Participants forfeit the unvested portion of their accounts upon receipt of distribution of the vested account balance. During 2009, forfeitures may be used to, first, reduce administrative expenses and, then, employer contributions. During 2008, forfeitures were used to reduce future employer contributions and were allocated among participants eligible to share for the plan year end. At December 31, 2009 and 2008 forfeited non-vested accounts available to offset future employer contributions totaled $40,380 and $38,773, respectively. Forfeited funds totaling $40,380 were used to offset employer contributions for the year ended December 31, 2009. At December 31, 2008, forfeited funds were not used to offset administrative expenses and employer contributions.

NOTE 1 – GENERAL DESCIPTION OF THE PLAN – (Continued)

9. **Plan Administration**. The Company provides accounting and administrative services to the Plan at no cost and pays contract administration fees and asset management fees. Administrative expenses, which amounted to $11,035 and $11,500, were paid by the Company for the years ended December 31, 2009 and 2008, respectively. Administrative expenses paid by the Plan were $1,290 and $760 for the years ended December 31, 2009 and 2008, respectively.

10. **Plan Termination.** The Company anticipates and believes that the Plan will continue without interruption but reserves the right to terminate the Plan in whole or in part at any time. In the event of termination of the Plan, each participant would become fully vested to the extent of the balance in their account, and all accumulated plan benefits would be disbursed to the participants.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2009-01 "*Topic 105 – Generally Accepted Accounting Principles – amendments based on – Statement of Financial Accounting Standards No. 168 – The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles.*" This guidance establishes the Accounting Standards Codification ("ASC") as the source of authoritative U.S. Generally Accepted Accounting Principles ("GAAP") recognized by the FASB and is effective for the Plan beginning September 15, 2009. The adoption of this guidance had no impact on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The guaranteed investment contract is valued at fair value. Contract value represents contributions made by participants, plus interest at the contract rates, less withdrawals or transfers by participants. Fair value reflects the relationship between credited rates earned by the funds and current market rates.

Investments in pooled separate accounts are valued at estimated fair value as reported by Union Central Life Insurance Company, as determined by the quoted market prices of the underlying investments. Participant loans are valued at cost which approximates fair value. Investment income is recorded when earned. Interest income on participant loans is recorded on the accrual basis.

Net appreciation (depreciation) in the fair value of investments consists of both realized and unrealized gains and losses. Realized gains and losses are measured as the difference between the historical cost of investments sold or redeemed during the year and the proceeds received from their sale or redemption. Unrealized gains and losses are measured as the difference between cost and fair value at the beginning of the period and at the end of the period. Investment transactions are accounted for on a trade date basis.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

New Accounting Pronouncements

In May 2009, the FASB issued guidance intended to establish general standards of accounting for and disclosure of events that occur after the Statement of Net assets Available for Benefits date but before financial statements are issued or are available to be issued. This guidance requires disclosure of the date through which the Plan has evaluated subsequent events and whether that date represents the date the financial statements were issued or were available to be issued. This guidance is included in ASC 855, "*Subsequent Events*," and was effective for the Plan during 2009. See Note 11 for disclosure of the Plan's subsequent events for the current reporting period.

NOTE 3 – INVESTMENTS IN INSURANCE CONTRACT

Guaranteed Investment Contract

The Plan has a benefit-responsive investment contract with Union Central Life Insurance Company ("Union Central"). Union Central maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by Union Central. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Fair value reflects the relationship between credited rates earned by the funds and current market rates. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The interest rates range from 2.89% to 3.21% in 2009 and 3.27% to 3.45% in 2008. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

	Investments at Fair Value	Adjustment to Contract Value
Union Central Deposit Account		
December 31, 2008	$108,111	$2,495
December 31, 2009	$130,945	($4,247)

Pooled Separate Accounts

The Plan's assets with Union Central are in an Allocated Group Annuity Contract with Union Central. The Plan has investments in pooled separate accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Pooled separate accounts are reported at estimated fair value as determined by Union Central, based on the quoted market prices of the funds' underlying investments.

NOTE 4 – INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2009	2008
Pooled separate accounts:		
Neuberger Ber Guardian Fund	$ 191,152	$ 167,746

CV Cash RES	776,988	561,314
Summit Pinn S & P 500 Index	$ 140,417	$ -

The Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $371,038 during 2009 and depreciated in value by $677,319 during 2008.

NOTE 5 – SUMMARY OF FINANCIAL DATA CERTIFIED BY THE CUSTODIAN OF PLAN ASSETS

The following financial data was certified by the Custodian of Plan Assets of the Plan for the years ended December 31, 2009 and 2008 in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 6 – FEDERAL INCOME TAX STATUS

Effective January 1, 2009, the Plan was amended and restated to adopt a prototype plan offered by the Plan's third-party administrator. The Plan has not applied for a determination letter from the Internal Revenue Service. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 – FEDERAL INCOME TAX STATUS (Continued)

Prior to 2009, the Plan had a favorable determination letter dated October 14, 2004 issued by the Internal Revenue Service qualifying, in form, under Section 401(a) of the Internal Revenue Code of 1986 as amended (the Code). The underlying trust was therefore, exempt from federal income taxes under Section 501(a) of the Code.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of participation in pooled separate accounts managed by Union Central. Union Central is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

There were no party-in-interest transactions that are prohibited by the Employee Retirement Income Security Act of 1974 Section 406 and for which no statutory or administrative exemption exists.

NOTE 8 – FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Guidance included in ASC 820-10 "*Fair Value Measurements and Disclosures*" provides a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 – The fair value of pooled separate accounts is based on quoted market prices of the underlying investments at year-end.

Level 2 – The fair value of the guaranteed investment contract with Union Central Life Insurance Company is determined by discounting the related cash flows based on current yield. The current yield and future cash flows are directly observable inputs, and consequently, guaranteed investment contract fair values are considered Level 2.

NOTE 8 – FAIR VALUE MEASUREMENT – (Continued)

Level 3 – The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

The following is a summary of the inputs used as of December 31, 2009 in valuing the Plan's investments:

	Level 1	Level 2	Level 3	Fair Value Measurements
Pooled separate account	$ 2,507,255	$ -	$ -	$ 2,507,255
Guaranteed investment contract	$ -	$ 130,945	$ -	$ 130,945
Participant loans	$ -	$ -	$ 43,848	$ 43,848

Fair value measurements using significant unobservable inputs (Level 3):

Balance at January 1, 2009	$ 42,125

The Statement of Net Assets Available for Benefits as of December 31, 2008 differs from the 2008 IRS Form 5500 in the amount of $2,749. The difference represents excess contributions payable as of December 31, 2008.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – SUBSEQUENT EVENTS

Subsequent events have been evaluated by the Company's management through July 13, 2010, the date these financial statements were available to be issued. No additional material subsequent events have occurred since December 31, 2009 that required recognition or disclosure in the current period financial statements.
