FABRICLEAN SUPPLY, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

Note 1. DESCRIPTION OF PLAN

The following description of the Fabriclean Supply, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan is a defined contribution plan established by Fabriclean Supply, Inc. (the Company). The Plan qualifies as a profit-sharing plan under Internal Revenue Code (Code) Section 401(a) and as a cash-or-deferred arrangement under Code Section 401(k).

The Plan, as amended and restated as of January 1, 2009, is a defined contribution plan that covers all eligible employees of the Company (those over 21 years of age and who have completed six months service with the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan entry dates are January 1, April 1, July 1 and October 1 of each year. Eligible employees may enter the Plan on those dates.

Employee Contributions - Participants are permitted to contribute up to 20% of their annual compensation, up to the limits of the Code, to the Plan on a tax-deferred basis. Transfers (rollovers) from qualified plans are allowed under the provisions of the Plan. Voluntary after-tax contributions are not allowed.

Employer Contributions – The Company makes matching contributions based on each participant's contributions for the year. The matching rate is 50%, limited to matching participant contributions up to 6% of salary (i.e., the match is limited to 3% of compensation). All 2009 employer contributions were matching contributions.

The Company may also make nonelective profit sharing contributions. These were not made in 2009.

Participant Accounts – Each participant's account is credited with allocations of the participant's contributions, Company's contribution, Plan earnings or losses and custodian expenses. Earnings, losses and expenses are allocated proportionately among all participants based on their investment in each fund.

Investments – All investments are participant directed.

Vesting - Participants are fully vested in their deferral and rollover accounts. The employer matching accounts are 20% vested after two years' service with the Company. That increases 20% per year, until they are fully vested after six years' service. Employees' balances become fully vested upon death, reaching early retirement age, or upon disability resulting in retirement.

Forfeitures – Forfeitures were approximately $1,800 and $0 at December 31, 2009 and 2008, respectively. Forfeitures are used to reduce future employer contributions.

Note 1. **DESCRIPTION OF PLAN** – (continued)

Administrative Expenses – The Plan pays investment contract administration fees and third party administration fees. The Company absorbs the cost of substantially all other administrative expenses.

Participant Loans –Participants may receive a loan from their participant accounts. The minimum amount of a loan is $1,000; the maximum amount is the lesser of: (1) $50,000 or (2) 50% of their vested account balance. The loan repayment period is a maximum of five years, except for loans made for the purchase or a residence, for which the repayment period must not exceed 30 years. Participant loans are secured by the participants' vested balance in the plan. As of December 31, 2009, these loans bear interest at rates from 5% to 8%, are payable in payments to made at least quarterly, and mature at various dates through December 2014.

Payment of Benefits – Participants (or their beneficiaries) are eligible to receive benefits upon termination of service, disability or death. Vested balances under $5,000 may be paid without the participant's consent. Balances over that amount are made at the Participant's election. Benefits are paid as lump-sum distributions or installment payments.

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Note 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Investments and Investment Income - All investments are presented at fair value. Fair value of the Fixed Interest account is based on contract value, which approximates fair value based on "Level 2" (significant observable inputs other than quoted market prices in an active market) input. (See Note 6.) The fair value of pooled separate accounts is based on the quoted market prices of the underlying securities within each fund (Level 1 input). The fair value of participant loans is based on amortized cost, which is believed to approximate fair value (using Level 3 inputs). Issuances of new participant loans in 2009, net of settlements, were $4,330. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make

Note 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**– (continued)

estimates and assumptions that affect the reported amounts of Plan assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 3. **TAX STATUS**

On January 1, 2009, the Plan adopted the Prototype Cash or Deferred Profit-Sharing Plan and Trust sponsored by American United Life Insurance Company (AUL) – Basic Plan Document #07 (the Prototype Plan). AUL obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated the Prototype Plan was in compliance with the applicable requirements of the Code. The plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 4. **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Plan's sponsor has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a full or partial termination, participants would become fully vested in all accounts.

Investment activity - 2009:	
Earnings, including market value change	$ 459,776

Note 5. **INFORMATION PREPARED AND CERTIFIED BY AMERICAN UNITED LIFE INSURANCE COMPANY** – (continued)

All investments are party-in-interest transactions. Investments, except for the AUL Fixed Fund and the Participant Loans, are in AUL pooled separate accounts. See also Note 6.

Note 6. **INVESTMENT CONTRACT**

In 2009 and 2008, the Plan had an investment contract with AUL. AUL maintains the contributions in its general account, and guarantees a specified interest rate. The account is credited with earnings at the crediting interest rate and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by AUL. Fair value is estimated at contract value (contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses), less a market value adjustment due to transfer restrictions.

Participants with less than $2,500 in this investment may direct the withdrawal or transfer of all or a portion of their investment at contract value. Participants with more than $2,500 invested in this fund may only transfer 20% of the total each year.

There are no reserves against contract value for credit risk of the contract issuer. The market value adjustment was $0 in 2009 and 2008. The average yield was approximately 3.3% and 3.2% for 2009 and 2008, respectively. The crediting interest rate was approximately 3.64% and 3.43% at December 31, 2009 and 2008, respectively.

Note 7. **REPORTABLE TRANSACTIONS**

There were no reportable transactions in 2009.

Note 8. **RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 27, 2010, the date which the financial statements were available to be issued.

FABRICLEAN SUPPLY INC. 401K PLAN
001
20-2651150
December 31, 2009

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
