Each year, Participants may contribute a percentage of pretax annual compensation up to the maximum amount allowable in the Internal Revenue Code Section 401(k). The Company shall make company matching contributions to the Trust on behalf of each participant that is employed on the last day of the plan year in an amount equal to the percentage (designated by the Board of Directors of the Company prior to the last day of the Plan year) of the Salary Deferral Contributions made on behalf of the Participant for the Plan year which are not in excess of 8% of a Participant's Compensation. The Company shall also make a Company Discretionary Contribution to the Trust on behalf of each eligible Participant that is employed on the last day of the Plan year in an amount equal to a percentage (designated by the Board of Directors of the Company prior to the last day of the Plan year) of compensation. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, forfeitures, and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

Periods of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If their vested account is between $1,000 and $5,000 upon termination, the third-party administrator shall pay the distribution in a direct rollover to an individual retirement plan designated by the third-party administrator. If their vested account has been more than $5,000, the participant may choose to either leave their account under the Plan or have all or any part of their vested account paid to them. If the participant chooses to leave their account under the Plan, it will continue to participate in the Plan investments and provide benefits when they retire or die.

Disposition of Forfeitures

Non-vested accounts totaling $17,129 and $4,683 were forfeited during the years ended December 31, 2010 and 2009, respectively, and allocated to participant account balances. None of this amount was used to reduce Company contributions.

Investment Options

The Plan allows for the assets of the Plan to be invested in participant-directed investments. Participants direct the investment of their funds into any of 27 pooled separate accounts or a stable value fund offered by the Plan. Participants have an option to retain the Trustee-directed investments or, up to four times, transfer a portion of the balance to the participant-directed investments.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Note 2 - Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. If available, quoted market prices are used to value investments. The amounts shown in Note 3 for securities that have no quoted market price represent estimated fair value. Certificates of deposit are valued based on amortized cost or original cost plus accrued interest.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses of maintaining the Plan other than direct investment expenses are paid by the Company.

Note 3 - Investments

The fair value per share of Company stock is annually determined as of Plan year-end by an independent appraiser. Annual valuations are based on actual results as of December 31, 2010, and December 31, 2009. Participation units outstanding and participants' equity per unit, at December 31, 2010 and 2009, were as follows:

The Plan realized gains and losses on the sale of investments from corporate debt and equity of $0 and $55,609 for the years ending December 31, 2010 and 2009, respectively.

Note 4 - Certificates of Deposit

Certificates of deposit at December 31, 2010 and 2009, consist of amounts on deposit at banks, with interest rates ranging from 4.90% to 5.16%.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board Statement ASC 820, Fair Value Measurements (FASB ASC 820), formerly FAS 157, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5 - Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

- *Pooled Separate Accounts*: Valued based on the number of shares held of the respective underlying fund at the closing net asset value per share quoted by that fund.

- *Plan Sponsor Common Stock:* Valued at estimated fair value based on independent appraisal.

- *Debt and Equity Securities:* Valued at the closing price reported on the active market on which the individual securities are traded.

- *Guaranteed Interest Account:* Valued based on original cost plus compound interest, which approximates fair value.

- *Money Market Account:* Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

- *Stable Value Fund:* The fair value is based on the net asset value of units held by the Plan at December 31, 2010.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (continued)

The Company did not make a contribution to the Plan for the year ended December 31, 2010, and contributed $589,591 for the year ended December 31, 2009, which was a receivable at year-end.

Note 8 - Net Assets and Changes in Net Assets

Information about the net assets and significant components of the changes in net assets relating to the non-participant-directed investments is as follows:

	Non-Participant-Directed Investments

Total Changes in Net Assets	$ (311,438)	$ 956,088

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination or partial termination of the Plan or upon complete discontinuance of Company contributions, including elective contributions, all amounts credited to the affected Participants' accounts shall become one hundred percent (100%) vested and shall not thereafter be subject to forfeiture, and all unallocated amounts shall be allocated to the accounts of all Participants in accordance with the provisions hereof.

Note 9 - Plan Termination (continued)

Upon such termination of the Plan or complete discontinuance of Company contributions, Plan assets shall be distributed to the Participants within a reasonable period of time following issuance by the Internal Revenue Service of a determination letter regarding the qualified status of the Plan. The Plan committee shall direct the Trustee to distribute a Participant's vested accounts to the Participant or to the Participant's designated beneficiary as specified in Note 1.

Note 10 - Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 11 - Related Party Transactions

Certain Plan investments are shares of stock in Texas Independent Bancshares, Inc., as well as certificates of deposit with its subsidiary banks: Texas First Banks - Santa Fe and Texas City. Texas Independent Bancshares, Inc. is the sponsor as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Note 12 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 13 - Amounts Payable to Participants

During 2008, deferral contributions were not properly suspended for participants who took a hardship distribution. The Plan Sponsor and Administrator are in the process of correcting these deferral contributions and a payable to participants of $4,758 was recorded as of December 31, 2008. As of December 31, 2009, these deferral contributions had not been corrected and were netted in the distributions payable balance of $3,512. As of December 31, 2010, these deferral contributions were corrected.

Note 14 - Subsequent Event

The Plan has evaluated subsequent events through October 11, 2011, the date on which the financials were issued, and management has determined that there are no events that should be disclosed.
