INDEPENDENT AUDITOR'S REPORT

To the Trustee and Participants
MICA Corporation Profit
Sharing Retirement Trust

We have audited the statements of net assets available for benefits of the MICA Corporation Profit Sharing Retirement Trust (the Trust) as of January 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the MICA Corporation Profit Sharing Retirement Trust as of January 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan maintains its accounting records on the accrual basis.

Federal Income Taxes

The Plan obtained its latest determination letter on August 5, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Valuation of Trust Investments

The Trust assets are revalued each year to reflect fair value using quoted market prices. Any appreciation or depreciation in fair value is reflected in the statement of changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Plan evaluated all events or transactions that occurred after January 31, 2010 through July 15, 2010, the date these financial statements were available to be issued. The Plan did not have any material recognizable subsequent events.

NOTE 2. DESCRIPTION OF PLAN AND TRUST

The MICA Corporation Profit Sharing Retirement Trust was established February 1, 1978 for the exclusive benefit of eligible employees of MICA Corporation.

Subsequently, the Plan has been restated to shorten the participants vesting schedule and the effective date of the latest restatement was February 2007. An individual, who is selected and designated by the Board of Directors of MICA Corporation, administers the Plan.

NOTE 2. DESCRIPTION OF PLAN AND TRUST – CONTINUED

The Plan is a defined contribution Plan that covers any employee who completes one hour of active service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

For each of its taxable periods, the employer shall contribute to the Trust (from its current or accumulated profits) an amount determined by its Board of Directors, provided, however, that the amount contributed shall not exceed the amount constituting an allowable deduction under Section 404(a)(3) of the Internal Revenue Code of 1986, as amended.

At each anniversary date (February 1) the employer contributions and forfeitures of the Trust are allocated to all participants in the ratio that their total salary bears to the total salaries of all the participants. The earnings of the Trust are allocated to each participant on the ratio of his beginning account balance to the beginning account balance of total participants.

Each participant shall have a vested interest in his proportionate share of employer contributions, trust earnings and forfeitures as follows:

a. Upon completion of two years of service, he shall have a vested interest of 20%. This vested interest shall increase 20% in the following four years. After six years of service, the participant shall be fully vested.

b. In the event of death or disability of a participant such amounts shall be fully vested.

A participant, upon reaching his normal retirement date (age 65) or his early retirement date (age 62), provided that the participant has at least six years of credited service, shall be fully vested in his proportionate share of the Trust. The amount may be paid as follows:

a. A single lump-sum payment.

b. In periodic payments of substantially equal amounts for a specified number of years not in excess of fifteen (15), in which event the unpaid balance as of each valuation date shall not receive allocations of employer contributions or forfeitures.

c. In a combination of the above.

The employer absorbs substantially all of the administrative expense of the Trust.

NOTE 3. INVESTMENTS

The following table presents the fair values of investments at January 31, 2010 and 2009:

	2010		2009	
	Number of Shares or Face Amount	Fair Value	Number of Shares or Face Amount	Fair Value
Fair value of investments as determined by quoted market price				
Money market fund	68,614	$ 68,614	216,821	$ 216,821

All investments are non-participant directed.

NOTE 4. TRUST TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Trust to discontinue its contributions at any time and to terminate the Trust subject to the provisions of ERISA. In the event of Trust termination, participants will become 100% vested in their account.

NOTE 5. RECONCILIATION TO FORM 5500

Amounts allocated to participants who have withdrawn from the Plan but who have not been paid are included as a liability in Form 5500, Line 1k. United States generally accepted accounting principles require these amounts to be included in net assets available for benefits.

	2010		2009	
	Participants Payable	Net Assets Value	Participants Payable	Net Assets Value
Per financial statements	$ 3,287	$4,453,624	$ 2,266	$3,082,741
Participant distributions (unpaid)	168,531	(168,531)	156,606	(156,606)
Amount per Form 5500	$ 171,818	$4,285,093	$ 158,872	$2,926,135

The following is a reconciliation of benefits paid to participants per the financial statements for the years ended January 31, 2010 and 2009 to Form 5500:

	2010	2009
Benefits paid to participants per the financial statements	$ 116,838	$ 178,819
Amounts allocated to withdrawing participants	11,924	16,010
Amount per Form 5500	$ 128,762	$ 194,929

NOTE 6. FAIR VALUE MEASUREMENTS

In September 2006, the FASB issued guidance that clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The guidance defines “fair value” as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments’ complexity.

NOTE 6. FAIR VALUE MEASUREMENTS – CONTINUED

The guidance also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs). The three levels of the fair value hierarchy are described below:

Level 1 inputs – Unadjusted, quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 inputs – Inputs (other than quoted market prices included within Level 1) that are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and fair value is determined through the use of models or other valuation techniques.

Level 3 inputs – Prices or valuations that require unobservable inputs that are both significant to the fair measurement and unobservable. Fair value for these investments are determined using valuation methodologies that consider a range of factors including but not limited to the nature of the investment, market conditions, current and projected operating performance and changes in operating characteristics of the investment.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 31, 2010 and 2009.

Corporate stocks, corporate obligations and mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6. FAIR VALUE MEASUREMENTS – CONTINUED

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value for the years ended January 31, 2010 and 2009.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedules of assets held at end of year and assets acquired and disposed of within year on pages 12 through 15 is presented for purposes of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for reporting and disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
