Report of Independent Certified Public Accountants

To the Plan Administrator
King Engineering Associates, Inc. Savings Plan
Tampa, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of the King Engineering Associates, Inc. Savings Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by the Principal Trust Company and Principal Life Insurance Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that Principal Trust Company held the Plan's investment assets and executed investment transactions from September 12, 2008 to December 31, 2009, and that Principal Trust Company and Principal Life Insurance Company, co-trustees of the Plan, held the Plan's investment assets and executed investment transactions for the period January 1, 2008 to September 11, 2008. The plan administrator has obtained certifications from the trustees as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information in the Plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
December 31, 2009 and 2008

Note 1 – Plan Description

General – The following description of the King Engineering Associates, Inc. Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

The Plan is a defined contribution plan covering all full-time permanent employees of King Engineering Associates, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). There are no age or service requirements to become a participant. Effective December 7, 2009, the Plan was amended to eliminate employer matching contributions but allow qualified non-elective contributions and discretionary employer contributions.

Contributions – Participants may contribute to the Plan based on amounts specified in participant salary deferral agreements. The Plan allows participants to contribute amounts based on total eligible employee compensation up to a maximum dollar amount determined annually by the Internal Revenue Service ("IRS"). The Company may contribute qualified non-elective contributions and other Company contributions at its discretion.

Participant Accounts – Each participant's account is credited with the participant's contribution, the employer contributions, if any, and Plan earnings. Participant accounts are charged with withdrawals, an allocation of Plan losses and investment expenses. Contract investments are self-directed by the participants and Plan earnings are credited to the participants' respective accounts. Discretionary contributions made by the Company are allocated to participants based on an integrated formula, as defined.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions plus earnings is based on years of service. A participant is 100% vested after six years of credited service based upon the following schedule:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payments of Benefits – Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account, or annual installments over a period not exceeding the life expectancy of the participant or the life expectancy of the participant and a designated beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or in the form of a direct transfer to an individual retirement account or any qualified plan described in Section 401(a) of the Internal Revenue Code. On termination of service due to death or disability, as defined by the Plan, a participant shall become 100% vested in the Plan. The Plan also provides for certain hardship withdrawals and non-emergency withdrawals.

Note 1 – Plan Description (continued)

Participant Loans – Participants may borrow up to 50% of their vested account balance provided the loan does not exceed $50,000. Loans must be for a minimum of $500 and are collateralized by the participant's vested account balance. Principal and interest is paid ratably through payroll deductions.

Forfeitures – When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce employer contributions or can be reallocated to participants. As of December 31, 2009 and 2008, the Plan has $40,170 and $110,641, respectively, in forfeitures available to apply to future contributions or reallocations. During the year ended December 31, 2009, employer contributions were reduced by $118,167 from forfeited, non-vested accounts.

Note 2 – Summary of Significant Accounting Policies

Fair Value Measurements – Financial Accounting Standards Board ("FASB") provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

FASB describes three levels of inputs that may be used to measure fair value:

> Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;
>
> Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and
>
> Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Guaranteed Interest Accounts – These investments are made by the Plan in a group annuity contract issued by Principal Life Insurance Company, which guarantees a fixed interest rate. The fair value of these accounts is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity. Guaranteed interest accounts are classified within level 3 of the valuation hierarchy.

Pooled Separate Accounts – These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Note 2 – Summary of Significant Accounting Policies (continued)

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Participant Loans – Participant loans are valued at cost plus accrued interest, which approximates fair value and are classified within level 3 of the valuation hierarchy.

Limited Partnership Interests – These investments are valued based upon the Plan's capital contribution, plus the Plan's proportionate share of the underlying investment income (loss) and change in fair value, less the Plan's proportionate share of liabilities. The investment is classified within level 3 of the valuation hierarchy, as the valuation inputs are unobservable due to limited trading activity in the limited partnership in a private market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 investment assets for the year ended December 31, 2009:

	Beginning Fair Value	Appreciation/ (Depreciation)	Interest and Dividends	Purchases, Issuances, (Repayments) (Settlements), Net	Ending Fair Value
Guaranteed interest accounts*	$ 1,432,468	$ 47,335	$ -	$ (168,564)	$ 1,311,239
Participant loans*	115,061	-	5,667	68,658	189,386
Limited partnership interests	51,133	(1,084)	-	-	50,049
Total	$ 1,598,662	$ 46,251	$ 5,667	$ (99,906)	$ 1,550,674

* Unaudited, see Note 3.

Investments and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

Payment of Benefits – Benefits are recorded by the Plan when processed and paid.

Accounting E*stimates* – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (continued)

Subsequent Events – Management has evaluated subsequent events through July 14, 2010 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 3 – Investments Held By Trustees (Unaudited)

The following information included in the accompanying financial statements and accompanying supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate as permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA by the trustees as of December 31, 2009 and 2008, and for the year ended December 31, 2009:

	December 31,	
	2009	2008
Investment contracts with insurance company:		
Guaranteed interest accounts	$ 1,311,239	$ 1,432,468
Pooled separate accounts	6,684,411	6,366,968

Participant loans	189,386	115,061
	$ 11,160,478	$ 10,291,753

	Year Ended December 31, 2009
Interest income	$ 5,667
Net appreciation in fair value of investments, excluding limited partnership interests, which were not certified by the trustees	$ 1,903,688

During 2009, the Plan's investments held by the Trustee (including investments bought, sold, and held during the year) appreciated in value as follows:

Guaranteed interest accounts	$ 35,649
Investment in pooled separate accounts	1,201,493
Mutual funds	666,546
	$ 1,903,688

Note 3 – Investments Held By Trustee (Unaudited) (continued)

The fair value of investments that represent 5% or more of the net assets available for benefits are as follows at December 31:

Description of Investment	2009	2008
PIMCO Core Plus Bond I**	$ 732,918	$ -
Goldman Sachs Mid Cap Value Fund**	623,265	-
American Funds Growth Fund of America**	594,912	-
Principal Money Market Fund	1,383,112	1,890,115
Franklin US Government Securities Fund	578,437	631,888
Principal Diversified International Stock Fund	870,896	763,049
Principal Bond and Mortgage Fund *	-	781,786
Principal Financial Group Guaranteed Interest Accounts (maturing 12/31/12)*	-	597,310

* Asset does not represent 5% or more of the net assets available for benefits as of December 31, 2009.

** Asset does not represent 5% or more of the net assets available for benefits as of December 31, 2008.

Note 4 – Investment Contracts with Insurance Company

The Plan enters into investment contracts with Principal Life Insurance Company ("Principal"). The Plan invests in guaranteed interest investment accounts and pooled separate investment accounts with Principal. Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution and Plan earnings, and is charged for Plan withdrawals. Former participants are charged with administration fees related to maintenance of their accounts as charged by Principal.

The guaranteed interest accounts provide a guaranteed interest rate for a specified period of time. The crediting interest rates ranged from approximately 0.94% to 2.69% for the year ended December 31, 2009. The fair market value of the account is the value paid when funds are withdrawn prior to their maturity.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 – Tax Status

The Plan is identical to the Principal Financial Group Prototype Basic Savings Plan ("Principal Prototype Plan") approved as to form by the IRS. The Principal Prototype Plan is a qualified plan under Section 401(k) of the Internal Revenue Code (IRC) and, as such, is exempt from federal income taxes under Section 501(a) of the IRC. The Principal Prototype Plan obtained its latest determination letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 – Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Principal Financial Group, an affiliate of Principal Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Participant loan transactions are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 8 – Administrative Expenses

Plan administrative and investment expenses of $10,300 were paid by the Company on behalf of the Plan during the year ended December 31, 2009.

Note 9 – Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
