FRESNO OXYGEN EMPLOYEES 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
Years Ended December 31, 2009 and 2008

Note 1. DESCRIPTION OF PLAN

The following description of the Fresno Oxygen (the company) Employees 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all eligible employees of the company. It is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan provides retirement benefits that cover employees of the company, each with at lease three months of service and age 21 or older. The employees' vested benefit is dependent upon their years of service with the company.

Contributions - Each year, participants may contribute a portion of their annual compensation on a pretax or Roth after tax basis up to the maximum annual deferral limit. Participants may also contribute amounts representing distributions from other qualified retirement plans. Beginning January 1, 2008, the company made a match contribution for all eligible participants. The match is equal to 100% of the first 3% of compensation deferred. An additional discretionary profit sharing amount may be contributed at the discretion of the company. Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers twenty-one mutual funds as investment options for participants. Contributions are subject to certain limitations.

Participant accounts - Each employee's segregated account is credited with the participant's contribution and allocations of (a) the company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their salary deferral and rollover contributions plus actual earnings thereon. Vesting in the company's match and profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six (6) years of credited service.

Participant loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined monthly by the trustees. The interest rates range from 5.25% to 10.25%.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Payment of benefits - On termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Distributions may also commence upon death, disability, or attainment of normal retirement age.

Forfeited accounts - At December 31, 2009 and 2008, forfeited accounts totaled $3,923 and $2,424 respectively. This account will be used to reduce future employer contributions.

Amendment to plan document - During the 2009 plan year, the plan document was amended so that the employer matching provision to employee's contributions would be discontinued. Also, the plan sponsor negotiated a reduction in the asset management fee by 10 basis points and wiave the $15 annual per participant fee.

Profit sharing 2009 - The company has elected not to make a profit sharing contribution for the 2009 plan year.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements are prepared using the accrual basis of accounting.

Use of estimates – The preparation of financial statements, in conformity with generally accepted accounting principles, requires that the plan administrator make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – The Plan's investments are stated at fair value, as reported by MassMutual Life Insurance Company for 2009 and 2008. Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis.

Administrative expenses – All expenses of administration may be paid out of the trust fund unless paid by the plan sponsor. All administrative expenses have been paid by the plan sponsor.

Payment of benefits - Benefits are recorded when paid.

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (FASB Statement No. 157), establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the underlying net asset value (NAV) of assets comprising the accounts of shares held by the Plan at year end.

Life insurance policies: Valued at cash value, which approximates fair value.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total

NOTE 5: PARTICIPANT LOANS

The terms of the participant loans provide for payments of principal and interest from biweekly payroll deductions. Interest rates vary, depending on the rate in effect at the time the loans were made. The notes are secured by 50% of the participant's vested interest in the Plan.

NOTE 6: RELATED-PARTY TRANSACTIONS

Certain plan investments are shares of pooled separate accounts and life insurance policies managed by MassMutual Life Insurance Company. MassMutual Life Insurance Company is the custodian of the Plan's investments and, therefore these transactions qualify as party-in-interest transactions. There were participant loans issued during 2009 and 2008 in the amount of $53,289 and $35,815 respectively.

NOTE 7: SIGNIFICANT RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become one hundred (100%) vested in their employer contributions.

NOTE 9: INCOME TAX STATUS

The Plan was organized under a pre-approved prototype plan document. This Plan and Trust qualifies under Section 501(c)(9) of the Internal Revenue Code (IRC) and, therefore, is not subject to tax under the present income tax law. An opinion letter dated November 27, 2001 has been received from the Internal Revenue Service for the pre-approved prototype plan. Although the Plan has been amended as required by law since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.
