Shur-Lok Savings and Investment Plan

Notes to Financial Statements

As of March 31, 2009 and December 31, 2008

1. Description of Plan

General

The following description of the Shur-Lok Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all employees of Shur-Lok Company, SPS Fastener Division, a PCC Company (the "Company") who have at least three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On January 5, 2006, the Company was sold to Precision Castparts Corporation ("PCC"). The Shur-Lok Savings and Investment Plan merged with the Precision Castparts Corp. 401(k) Retirement Savings Plan ("PCC Plan") on April 1, 2009. Fidelity Investments is the custodian and record-keeper for the PCC Plan. All assets of the Plan were transferred to Fidelity on March 31, 2009.

Plan Administration

The Plan is managed by an Administrative Committee (the "Committee") appointed by the Company's Board of Directors. Principal Life Insurance Company is the Plan's custodian and third-party administrator ("Custodian"). The Custodian holds, administers and distributes the Plan's funds in accordance with the provisions of the Plan and instructions of the Committee or its designees. Certain plan expenses such as third party administration fees are paid for by the Plan whereas other expenses are paid for by the Company (see Note 6.)

Contributions

Participants may contribute from 1% to 50% of their annual compensation. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes a matching amount at the discretion of the Board of Directors. During the three month period ended March 31, 2009, the Company contributed \$0.50 for each \$1.00 that a participant contributed to the Plan, up to a maximum of 3% of the participant's annual compensation. Contributions are subject to certain limitations, as defined by law.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) plan earnings, net of certain investment transaction fees. Allocations are based on participant balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Shur-Lok Savings and Investment Plan

Notes to Financial Statements

As of March 31, 2009 and December 31, 2008

1. Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's contribution plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service. On termination of service due to death, disability, or retirement, participants become fully vested.

Investment Options

Upon enrollment in the Plan, participants may direct their contributions in any of the investment options offered under the Plan. Pending investment in the various funds, amounts may be temporarily invested in the Money Market Fund, a pooled separate account with Principal, which invests in money market instruments. Participants may change their investment options at any time.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range up to 5 years. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. Loan processing fees are deducted from the borrowing participant's account. Participants may have up to three loans outstanding at a time.

Payment of Benefits

On termination of service, a participant with a vested account greater than \$5,000 has four options: (a) receive a lump-sum amount equal to the value of the participant's vested interest in his or her account; (b) receive installments in the form of various types of annuities, as defined by the Plan; (c) keep the balance of his or her account in the Plan making no further contributions nor receiving any Company contributions; or (d) roll over the balance in his or her account to another qualified plan. A participant with a vested account balance of \$5,000 or less may choose option (a) or (d). Withdrawals may also be made for financial hardship, which is determined pursuant to the provisions of the Internal Revenue Code.

Forfeitures

Forfeited non-vested amounts are used to reduce future Company matching contributions or pay administrative expenses. During the period ended March 31, 2009, forfeitures totaling \$750 were used to pay administrative expenses. At March 31, 2009, there were \$2,327 in forfeitures that were transferred to the PCC Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statement of changes in net assets available for benefits during the reporting period. Actual result could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in any combination of bonds, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Concentration of Credit Risk

The Plan's investments include bank-administered and registered investment company mutual funds that represent obligations by the counterparties to meet the terms of the financial instruments. Should one or more of the counterparties default, the Plan might lose amounts up to the recorded carrying value of the related instruments.

Investment Valuation and Income Recognition

Investments are valued as follows:

Pooled separate accounts: Stated at fair value based on the net asset value of the composite portfolio. Net asset value is the fair market value of the securities on the last business day of the Plan year.

Registered investment companies: Shares are valued at quoted market prices on the last business day of the year.

Guaranteed interest accounts: In accordance with Statement of Position ("SOP") 94-4, "Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans," investments in guaranteed interest accounts with Principal are stated at fair value, as reported by the insurance company. Fair value is the value paid any time funds are withdrawn prior to their maturity, and reflects the applicable surrender charge.

2. Summary of Significant Accounting Policies (Continued)

Participant loans: Valued at the unpaid principal amount of the loan, which is estimated to approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Recording of Contributions

Participant contributions are recorded by the Plan in the year withheld from participant earnings. Contributions to the Plan by the Company are recorded in the year which they become obligations of the Company.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative fees of the Plan, including loan-related fees, are paid out of Plan net assets. During the period ended March 31, 2009, such expenses totaled \$2,420 and are included in the Statement of changes in Net Assets Available for Benefits. Certain other administrative fees, including audit fees, are paid by the Company. (See Note 6.)

3. Investment Information Certified by the Custodian

The following is a summary of the investment information relating to the Plan, included in the accompanying financial statements. The information was prepared by Principal, the Custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained certification from the Custodian that such information is complete and accurate under 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

On January 1, 2008, the Plan adopted SFAS No. 157 which clarifies the definition of fair value, establishes a framework for measuring fair value and expands the disclosure on fair value measurements. The Plan's fair value measurements also consider guidance provided by FSP 157-3, "Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active", issued by the FASB in October 2008 which clarifies the application of SFAS No. 157 in a market that is not active.

SFAS No. 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

4. Fair Value Measurements (Continued)

SFAS No. 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. SFAS No. 157 describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices for identical assets or liabilities in active markets.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the relative fair value of the underlying market value of investments in the composite portfolio.

Registered investment companies: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Guaranteed interest accounts: Valued at the value paid any time funds are withdrawn prior to their maturity, and reflects the applicable surrender charge.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	Investments at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 7,383,119	\$ -	\$ 7,383,119

Realized gains/(losses)	-	-
Unrealized gains/(losses) relating to instruments still held at the reporting date	-	-
Purchases, sales, issuances and settlements, net	(683,896)	5,044
Transfers to parent plan	(1,535,563)	(729,301)
	\$ -	\$ -

5. Tax Status

The Plan has adopted the Principal Life Insurance Company Prototype Non-standardized (Basic Plan No. 2). The Internal Revenue Service ("IRS") issued an opinion letter on this prototype plan, dated July 22, 2003, stating that the Plan as then designed is in accordance with applicable sections of the Internal Revenue Code ("Code") and is exempt from federal income taxes. Once qualified, the Plan is required to operate in conformity with the Code to maintain qualification. The Plan Administrator and tax counsel believe the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code.

6. Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of mutual funds managed by Principal Life Insurance Company, the custodian and record-keeper of the Plan. The Plan issues loans to participants, which are secured by the balances in participant accounts. The Company pays certain administrative expenses of the Plan, including audit fees. During the period ended March 31, 2009, the Company paid \$1,500 of such expenses on behalf of the Plan. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.
