INDEPENDENT AUDITORS' REPORT

To the Administrator and Trustee of
Modern Method Gunite, Inc. 401(K) Profit Sharing Plan
Houston, TX 77086

We were engaged to audit the accompanying statements of net assets available for benefits of Modern Method Gunite, Inc. 401(K) Profit Sharing Plan (the Plan) as of March 31, 2011 and 2010 and the related statement of changes in net assets available for benefits for the year ended March 31, 2011 and the supplemental schedules (1) Schedule H line 4a – Schedule of Delinquent Participant Contributions and (2) Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of March 31, 2011 and for the year then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 4, which was certified by John Hancock Life Insurance Company ("John Hancock"), the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that John Hancock holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from John Hancock as of March 31, 2011 and 2010 and for the year ended March 31, 2011 that the information provided to the plan administrator by John Hancock is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by John Hancock, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Modern Method Gunite, Inc. 401 (K) Profit Sharing Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Modern Method Gunite, Inc. 401(K) Profit Sharing Plan ("Plan") provides only general information. Refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, formed on December 16, 1995, covering all employees of Modern Method Gunite, Inc. (the Company) meeting participation requirements described below. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and all requirements of Section 401(a) and 401(k) of the Internal Revenue Code ("the Code") and all amendments.

The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Code. Under the Code, participants are not liable for federal income taxes on employee contributions, Company's contributions or plan earnings until such time as they are partially or completely withdrawn from the plan.

Administration

The Plan's administration is the responsibility of the management of Modern Method Gunite, Inc. (the "Plan Administrator").

Enrollment

All employees that are eighteen (18) years or older and have completed one year of service are eligible to participate in the Plan. Eligible employees can enroll in the Plan during the enrollment periods at April 1st, July 1st, October 1st and January 1st of each year.

Contributions

Contributions to the 401(k) Plan may consist of funds contributed by the Company, employees, and rollover contributions.

Employees may elect to contribute up to a maximum of $16,500 ($22,000 if 50 years or older).

The Company provides a discretionary matching contribution equal to a uniform percentage of the salary reduction up to 5 % of compensation. The percentage is determined annually. The Company also provides a discretionary profit sharing contribution allocated utilizing the "New Comparability Method". During the year ended March 31, 2011, the Company's matching contribution and profit sharing contribution amounted to $24,595 and $419,209, respectively.

Notes to Financial Statements

1. Description of the Plan (continued)

Vesting

Participants are fully vested in their elective contributions, employer matching contribution, qualified non-elective contribution ("QNEC") and the actual earnings thereon. Vesting in the employer profit sharing contributions and earnings thereon is based on years of service and is determined as follows:

For employees whose original date of employment with the employer is before April 1, 2001:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

For all other employees:

Years of Service	Vested Percentage
Less than 3	0%
3	20%
4	40%
5	60%
6	80%
7	100%

Forfeitures and non-vested balances

At March 31, 2011 and 2010 forfeited non-vested accounts totaled $8,214 and $0, respectively. These accounts are used to reduce the employer profit sharing contribution and offset administrative expenses. During the year ended March 31, 2011, administrative expenses were reduced from forfeited non-vested accounts by $6,012.

Allocations

Allocation of the employer profit sharing contribution is done using the "New Comparability" method which is based on participants' hours of service. Earnings and losses on investments are allocated based on participants' balances.

Modern Method Gunite, Inc. 401 (K) Profit Sharing Plan

Notes to Financial Statements

1. Description of the Plan (continued)

Payment of Benefits

Participants may withdraw all or a portion of vested contributions subject to certain conditions as specified in the Plan document. In the event of termination, hardship or death, a participant will receive a distribution in the form of a single lump sum payment equal to their vested interest in the account. Participants attaining age 59 ½ years may also elect distributions without regard to employment status.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions made to these accounts are directed by the participant into a particular investment offered by the administrator and the allocations between investments can be changed at will.

Investment Options

Participants direct the investment of their contribution, and employer match, if any, into various investment accounts offered by the Plan. The plan currently offers various pooled accounts and money market account as investment options for participants. All contributions were made with cash or cash equivalents.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's accounts. Principal and interest are paid ratably through weekly payroll deductions. During the year ended March 31, 2011, thirty-nine new loans were made totaling $223,645 at interest rate of 4.25%. Loan balances including interest as of March 31, 2011 and 2010 amount to $313,557 and $310,304, respectively.

Expenses of the Plan

Administrative expenses include fees of investment managers and accountants, and other cost of administration of the Plan. Administrative expenses amounted to $27,113 for the year ended March 31, 2011.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Modern Method Gunite, Inc. 401 (K) Profit Sharing Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurement.

Purchases and sales of investments are recorded on a trade date basis. Any distributions received from an underlying fund are reinvested into additional shares of the underlying fund.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Terminated Employees with Vested Benefits

As of March 31, 2011, terminated participants with vested benefits in the amount of $93,663 remain in the plan. The benefit payments are not reflected in the financial statements until benefit claims have been processed and approved for payment. Terminated employees with vested balances were paid $9,822 after the year end.

Reclassifications

Certain amounts in 2010 have been reclassified to conform to the 2011 presentation. Sub-accounts name changes have been retroactively restated.

Subsequent events

The plan has evaluated subsequent events through December 9, 2011, the date the financial statements were available to be issued.

Modern Method Gunite, Inc. 401 (K) Profit Sharing Plan

3. Investments

The following presents the fair values of the Plan's investments that represent 5% or more of the Plan's net assets. The following information is certified by John Hancock Life Insurance Company as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

	March 31, 2011		March 31, 2010	
	Fair Value	Ratio to total	Fair Value	Ratio to total
Money Market Fund	1,332,797	27.0%	1,144,749	29.4%
VS Blue Chip	628,489	12.7%	513,077	13.2%
Capital Appreciation Fund	568,464	11.5%	359,237	9.2%
500 Index Fund	489,124	9.9%	416,440	10.7%
Davis New York Venture	475,402	9.6%	399,549	10.3%
American Balanced Fund	397,161	8.0%	332,099	8.5%
Templeton World	255,160	5.2%	224,492	5.8%

Change in the market value for sub-accounts is reported as gains or losses. During the year ended March 31, 2011, the Plan's investments appreciated in value by $436,752.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Modern Method Gunite, Inc. 401 (K) Profit Sharing Plan

Notes to Financial Statements

4. Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The value of each sub-account is determined at the close of each business day based on market value and using a specified formula. The market values are determined by the account share balance and the net assets value received daily from the mutual fund manager. While the underlying asset values are publically quoted prices, the net asset values of separate accounts are not publically quoted. Therefore, the sub-accounts are assigned level 2 for the purpose of fair value measurement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2011 and 2010:

Assets at Fair Value as of March 31, 2011

	Level 1	Level 2	Level 3	Total
Sub-accounts	$ -	$ 4,616,539	$ -	$ 4,616,539
Total investments at fair value	$ -	$ 4,616,539	$ -	$ 4,616,539

Assets at Fair Value as of March 31, 2010

	Level 1	Level 2	Level 3	Total
Sub-accounts	$ -	$ 3,890,366	$ -	$ 3,890,366
Total investments at fair value	$ -	$ 3,890,366	$ -	$ 3,890,366

5. Liabilities

Corrective distribution as of March 31, 2011 at the amount of $1,274 represents additional distribution payable to a terminated employee due to an error made in calculating forfeiture.

Corrective distribution as of March 31, 2010 at the amount of $1,112 represent contributions above the compliance standards of Section 401(k) and Section 401(m) of the Internal Revenue Code as determined by ADP/ACP tests. Excess contributions were refunded to certain highly compensated employees in November of 2010, and applicable taxes were paid.

Modern Method Gunite, Inc. 401 (K) Profit Sharing Plan

Notes to Financial Statements

6. Plan Termination

Although it has not expressed an interest to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their profit sharing contributions.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 6, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Related Party Transactions

Plan investments are held by John Hancock Life Insurance Company which also provides recordkeeping services to the Plan, and thus, these transactions might be considered as party-in-interest transactions.

9. Concentration of Credit Risks and Uncertainties

At March 31, 2011 and 2010, none of the Plan's funds are insured by the Federal Deposit Insurance Corporation (FDIC). The Plan also invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Modern Method Gunite, Inc. 401 (K) Profit Sharing Plan

Notes to Financial Statements

10. ERISA bond requirements

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets and is required to be at least equal to the lesser of 10% of the Plan's assets at the beginning of the plan year or $500,000. At March 31, 2011 and 2010, the Plan's sponsor maintained bond coverage in the amount of $500,000.

11. Accounting Change

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The plan adopted this new guidance in its March 31, 2011 financial statements and has reclassified loans of $313,557 and $310,304 for the years ended March 31, 2011 and 2010, respectively, from investments to notes receivable from participants. Net assets of the plan were not affected by the adoption of the new guidance.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at March 31, 2011 and 2010 to Form 5500:
