1. Description of Plan

The following description of the Southeastern Arizona Behavioral Health Services, Inc., ("Company") Money Purchase Pension Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory 401(a) Money Purchase Pension Plan covering all employees of the Company who have completed a minimum of six months of service and are age 21 or older. In order for a participant to be eligible to receive a contribution, the participant must have completed at least 1,000 hours of service during the Plan year, as defined in the Plan agreement. The Plan was effective March 1, 1980 and amended on January 1, 1990, January 1, 1996 and more recently on July 1, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Effective July 1, 2007, the Plan Sponsor ceased contributions to the Plan and froze the Plan.

Effective July 1, 2007, the Plan Sponsor established a 401(k) defined contribution pension plan for all eligible employees. Employees must be 21 years of age and must have completed one year of continuous employment with the Plan Sponsor to be eligible for participation in the Plan. Eligible employees may enroll on the first day of the quarter (January, April, July, and October) immediately following eligibility. Employer matching contributions are calculated at 100% of each participant's contribution not exceeding 3% of compensation, plus 50% of each participant's contributions in excess of 3%, but not in excess of 5% of compensation.

Participant Accounts

Each participant's account is credited with the allocations of the Plan's earnings. Allocations are based on participant earnings or account balances, as defined.

Forfeited Accounts

At December 31, 2009 and 2008, there were no forfeited non-vested accounts. These accounts will be reallocated to the remaining participant accounts in the same manner as employer contributions.

Plan Termination

Due to changes initiated in the Plan that have significantly decreased the number of Plan participants a partial termination is deemed to have occurred. Therefore, all participants employed, as of July 1, 2007 are considered 100% vested in the plan.

1. Description of Plan, continued

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. For account balances less than $1,000, the Plan will make a lump-sum distribution.

Under certain conditions, a participant who has reached normal retirement age may withdraw all or a portion of his non-forfeitable accrued benefit while still employed by the Plan Sponsor as defined in the Plan agreement.

2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through September 23, 2010, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statement in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of Changes in Net Assets available for benefits is prepared on a contract value basis.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies, (continued)

Investment Valuation and Income Recognition

Investment contracts are held by Jackson National Insurance Company (a custodian) and are recorded at their contract values, which represent contributions and reinvested income, less any withdrawals plus interest. The contracts are fully benefit-responsive because the Plan Administrator may direct withdrawals and transfers at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. All insurance contracts held by Jackson National Insurance Company are non-participant-directed. The average yield on the contracts was approximately 3.7% in 2009 and 4.2% in 2008. The contracts guaranteed minimum interest rate at 3.5% in 2009 and 2008. The cash surrender value represents the amount of cash refundable to the Plan upon termination of these life insurance contracts. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date without substantial penalty.

Investments in mutual funds are participant-directed and are held by Great West Retirement Services (a custodian). The fair value of the mutual fund investments is determined by using quoted market prices of shares held at year end. Participant loans are stated at historical cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Information Certified and Provided by Great West Retirement Services

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the years then ended, included throughout the Plan's financial statements and supplemental schedules, that was prepared by, or derived from, information provided by Great West Retirement Services ("Custodian") and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodian that information provided to the Plan Administrator by the Custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following investments:

	2009	2008
Investments at fair value:		
Guaranteed Portfolio Fund	$ 74,712	$ 109,893
Mutual Funds	529,271	475,620
	$ 603,983	$ 585,513

The Custodian also certified to the completeness and accuracy of $123,445 of net appreciation in fair value of investments and $3,453 of interest dividends related to the aforementioned investments for the year ended December 31, 2009.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31, 2009	December 31, 2008
Jackson National Life		
Deposit administration insurance contract**	$2,390,517	$2,580,553

** Contract value for these funds at December 31, 2009 and 2008 are $2,485,097 and $2,818,469, respectively.

During 2009 and 2008, the Plan's investments in Jackson National Life did not appreciate or depreciate in fair value as the investment is held in a fully benefit-responsive investment contract. During 2009 and 2008, the Plan's investments at Great West Retirement Services (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $123,445 and depreciated by $313,766, respectively.

5. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:	
	Fair Value	Quoted Price in Active Markets for Identical Assets Level (1)	Significant Unobservable Inputs Level (3)
December 31, 2009			
Mutual funds	$ 529,271	$ 529,271	$ -0-
Guaranteed portfolio fund	74,712	-0-	74,712
Investment contract with insurance company	2,390,517	-0-	2,390,517
Total	$ 2,994,500	$ 529,271	$ 2,465,229
December 31, 2008			
Mutual funds	$ 475,620	$ 475,620	$ -0-
Guaranteed portfolio fund	109,893	-0-	109,893
Investment contract with insurance company	2,580,553	-0-	2,580,553
Total	$ 3,166,066	$ 475,620	$ 2,690,446

5. Fair Value Measurements (continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 2 inputs were not available.

Level 1 Fair Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The fair values of participant loans approximate the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Investment Contract	Guaranteed Portfolio Fund	Total
December 31, 2009			
Beginning balance	$ 2,580,553	$ 109,893	$ 2,690,446
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	241,034	3,453	244,487
Purchases, sales, issuances, and settlements (net)	(431,070)	(38,634)	(469,704)
Ending balance	$ 2,390,517	$ 74,712	$ 2,465,229
December 31, 2008			
Beginning balance	$ 2,914,415	$ 128,337	$ 3,042,752
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	123,622	4,290	127,912
Purchases, sales, issuances, and settlements (net)	(457,484)	(22,734)	(480,218)
Ending balance	$ 2,580,553	$ 109,893	$ 2,690,446

5. Fair Value Measurements (continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

6. Reconciliation of Financial Statement to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	December 31, 2009	December 31, 2008
Net assets available for benefits per the financial statements	$ 3,075,055	$ 3,582,201
Adjustments from fair value to contract value for fully benefit responsive investment contracts	(94,580)	(237,610)
Nets assets available for benefits per Schedule H to the Form 5500	$ 2,980,475	$ 3,344,591

The following is a reconciliation of interest earned per the financial statements to the Form 5500 for the year ended December 31, 2009:

Net gain/(loss) on insurance contracts per financial statements	$ 98,004
Change in adjustments from fair value to contract value for full benefit responsive investment contracts	146,483
Interest earned per the Form 5500	$ 244,487

7. Life Insurance Premiums

The Plan allows participants to elect to have a portion of the Plan benefit in the form of life insurance policies. The participants can choose between whole and term life contracts. The premiums paid by the Plan are reflected as expenses. The term life insurance contracts have no residual value and as such are not included in the assets of the Plan. The whole life insurance contracts earn interest and are appropriately included as Plan assets at their fair value.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 31, 1997 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

9. Agreements and Transactions with Parties-in-Interest

Fees paid by the Company on behalf of the Plan for legal, accounting and other services rendered to the Plan were based upon customary and reasonable rates for such services, as determined by the Plan's Sponsor. Total fees paid by the Plan Sponsor for the Plan years ended December 31, 2009 and 2008 were $15,615 and $26,765, respectively.

10 Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
