NOTE A – DESCRIPTION OF PLAN

The following description of the Heritage Sportswear (Company) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees who have three months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 75 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make matching contributions based on a percentage of the participant's elective deferral. This amount is discretionary and is determined by the Company's managing body from year to year. Additional profit sharing amounts may be contributed at the option of the Company's managing body. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their contributions and employer matching and discretionary contributions into any of the 23 investment options offered by the Plan. Participants may change their investment options upon notice to the Company and third party administrator.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and, if applicable, Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

NOTE A – DESCRIPTION OF PLAN - CONTINUED

Participant Loans

Participant loans are not permitted under the Plan.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest on his or her account. A participant who has reached age 59 ½ may request an in-service distribution. In addition, a participant may withdraw any part of his or her vested account in the event of undue financial hardship.

Forfeited Accounts

At December 31, 2009 and 2008 there were no forfeited nonvested accounts. Forfeited accounts, if applicable, will be used to reduce future employer contributions.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and the measurement date. See Note E for discussion of fair value measurements.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE C – INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

NOTE E – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for investments measured at fair value.

Cash

Cash investments are public investment vehicles valued at $1 for the NAV. The cash funds are valued classified within level 1 of the valuation hierarchy.

Mutual Funds

Investments in mutual funds are public vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – FAIR VALUE MEASUREMENTS - CONTINUED

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value at:

December 31, 2009 (Audited)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value
Cash	$201,406	$ -	$ -	$201,406
Mutual funds	408,955	-	-	408,955
	$610,361	$ -	$ -	$610,361
December 31, 2008 (Compiled)				
Cash	$112,873	$ -	$ -	$112,873
Mutual funds	290,285	-	-	290,285
	$403,158	$ -	$ -	$403,158

NOTE F – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE G – TAX STATUS

The Company adopted a Prototype Non-Standardized 401(k) Sharing Plan with a cash or deferred arrangement which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008. The letter stated that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE H – PLAN ADMINISTRATION

Employees of the Company perform certain administrative functions. No such employee receives compensation from the Plan. In addition, certain administrative expenses for the Plan are paid directly by the Company.

NOTE I – TRANSACTIONS WITH PARTIES IN INTEREST

Certain Plan investments include cash accounts with Park National Bank (Park). Park is the trustee, as defined by the Plan and provides third party administration. Fees paid to Park by the Plan amounted to $5,667 for the year ended December 31, 2009.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE K – EXCESS CONTRIBUTIONS

Payments in the amount of $6,247 were made in March 2010 to certain active participants to return to them 2009 excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

NOTE L– SUBSEQUENT EVENT

Date of Management Evaluation

Management has evaluated subsequent events through July 28, 2010, the date which the financial statements were available to be issued.

Plan Amendment

Effective January 1, 2010, the Plan was amended to change service eligibility requirements, change enrollment dates, and to allow for participant loans.
