HARTER SECREST & EMERY SAVINGS AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
(Modified Cash Basis)
DECEMBER 31, 2011 AND 2010

Note 1 **Description of Plan**

The following description of the Harter Secrest & Emery Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Harter Secrest & Emery (the "Firm") who have one year of service with a minimum of 1,000 hours of employment within that year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Prior to June 30, 2011, the Firm maintained two retirement plans, the Harter Secrest & Emery Pension Plan (the "Pension Plan") and the Harter Secrest & Emery Savings and Profit Sharing Plan. Effective June 30, 2011, the Firm ceased contributions to the Pension Plan, and merged the Pension Plan with the Savings and Profit Sharing Plan. All assets of the Pension Plan ($26,541,716) were transferred into the Plan on July 1, 2011.

Administration

The Plan is administered by the Retirement Committee. Members of this Committee are appointed by the Firm. The Plan trustee and recordkeeper is Vanguard Fiduciary Trust Company ("VFTC").

Contributions

Each participant may make voluntary contributions up to 100 percent of compensation, not to exceed the limitations set by the Internal Revenue Code ("IRC"). The Firm matches contributions up to one-half of every dollar contributed not to exceed two percent of the participant's annual salary. In addition, an annual discretionary profit sharing contribution equal to 2.35 percent of compensation paid to participants during the year ended December 31, 2011 was contributed. The Firm may, however, elect to change the annual percentage in future years.

In addition to the profit sharing contribution, the Firm also can contribute an additional discretionary contribution. In 2011, the discretionary contribution was equal to 5.7 percent of the participant's base compensation plus 11.4 percent of the participant's excess compensation. Base compensation is the amount of a participant's compensation for the respective Plan year which does not exceed the taxable wage base under Section 230 of the Social Security Act in effect at the beginning of the Plan year. Excess compensation is the amount of compensation of a participant for the respective Plan year which exceeds the taxable wage base under Section 230 of the Social Security Act at the beginning of the Plan year.

NOTES TO FINANCIAL STATEMENTS
(Modified Cash Basis)
DECEMBER 31, 2011 AND 2010

Note 1 **Description of Plan - Continued**

Participant Accounts
A separate account is maintained for each participant. Each participant's account is credited with the participant's contributions and an allocation of the Firm's contributions and Plan earnings, and charged with the participant's withdrawals and an allocation of Plan losses and administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately and fully vested in all contributions plus actual earnings thereon.

Investment Options
Upon enrollment in the Plan, a participant may direct employee and Firm contributions in one percent increments in various investment options offered by the Plan. A participant may re-direct his/her contributions at any time.

Payment of Benefits
Upon termination of service, a participant may elect to receive either a lump-sum equal to the value of the account, a single life or joint survivor annuity, or rollover the value of the account to an individual retirement account.

Administrative Expenses
Certain expenses of the Plan are paid directly by the Firm or by the Plan. The expenses consist primarily of custodial and recordkeeping fees.

Note 2 **Significant Accounting Policies**

Basis of Accounting
Accounting principles generally accepted in the United States of America ("GAAP") require accrual basis accounting for contributions, benefit payments, investment income and expenses. The accounting records of the Plan are maintained on the modified cash basis, a comprehensive basis of accounting other than GAAP. Contributions and investment income are recognized when received. Benefits and expenses are recorded when paid.

Note 2 **Significant Accounting Policies - Continued**

Investment Contracts
Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits - modified cash basis present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits - modified cash basis is prepared on a contract value basis.

Subsequent Events
In preparing the financial statements, management has evaluated all events and transactions for potential recognition or disclosure through August 9, 2012, the date the financial statements were available to be issued.

Use of Estimates
The preparation of the Plan's financial statements in conformity with the modified cash basis requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan invests in investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits - modified cash basis.

Note 3 **Investment Valuation and Income Recognition**
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by GAAP for financial and non-financial assets and liabilities. This guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Note 3 **Investment Valuation and Income Recognition - Continued**

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Money Market Fund: Valued at the Net Asset Value ("NAV") of shares held by the Plan at year end.

Mutual Funds: Valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Common/Collective Trust: Valued at NAV based on information provided by the investment advisor using the audited financial statements of the common/collective trust at year end. There are no restrictions on redemptions of this investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 **Income Tax Status**

The Internal Revenue Service ("IRS") has determined and informed the Firm by a letter dated October 30, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan Administrator and Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, maintains its tax-exempt status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 6 **Certified Information**

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. VFTC has certified to the completeness and accuracy of all investments reflected on the statements of net assets available for benefits - modified cash basis as of December 31, 2011 and 2010, schedule of assets (held at end of year) as of December 31, 2011, and the related investment activity (including interest and dividend income and net depreciation of investments) reflected in the statement of changes in net assets available for benefits - modified cash basis for the year ended December 31, 2011. The common/collective trust is included in the certification at contract value.

Note 7 **Plan Termination**

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 **Party-in-Interest Transactions**

The Plan invests in certain investments managed by an affiliate of VFTC. VFTC is the trustee of the Plan and, therefore, transactions involving these investments qualify as party-in-interest transactions.
