401(k) PROFIT SHARING PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE A - DESCRIPTION OF PLAN

The following description of the Retail Investors of Texas, Ltd. ("Company") 401(k) Profit Sharing Plan & Trust ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General - The Plan is a defined contribution plan covering all employees of the Company who have attained the age of twenty-one, have completed 12 months of service, in which 1,000 hours were worked and who are not covered by a collective bargaining agreement or classified as an independent contractor.

2. Contributions - Voluntary pre-tax contributions ranging from one to sixty percent of gross compensation is withheld each pay period. However, the total of the participant's contributions may not exceed $16,500, which is the dollar limit set by law for 2009. If the participant is 50 years or older, they may elect to contribute additional amounts, called catch-up contributions, to the Plan. The maximum catch-up contribution that a participant can contribute is $5,500 for the year ended December 31, 2009.

   The Company contributes a nondiscretionary match in the amount of 50% of the first 5% of base compensation that a participant contributes to the Plan. Employees may begin payroll deductions on the first day of each month subsequent to meeting Plan requirements. The Company may contribute a discretionary contribution each year to all eligible employees. This contribution will be allocated to each employee based on eligible compensation. During the plan years ended December 31, 2009 and 2008, the Company contributed discretionary employer contributions of $300,000 and $250,000, respectively.

   Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. During the plan years ended December 31, 2009 and 2008, participants contributed $0 in rollover contributions.

3. Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - CONTINUED

4. Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. In the event of employer contributions, vesting of participants' accounts is based on years of continuous service. A participant is 100 percent vested in employer contributions after five years of credited service.

5. Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions in any increments in any of the following current investment options:

Fidelity Prime Fund - Funds are invested in money markets.

Janus Balanced Fund - Funds are invested in shares of a registered investment company that invests in stocks, bonds, and money markets.

Fidelity Advisor New Insights Fund - Funds are invested in shares of a registered investment company that invests mainly in stocks.

Fidelity Advisor Mid Cap II Fund - Funds are invested in shares of a registered investment company that invests mainly in common stocks.

Janus Overseas Fund - Funds are invested in shares of a registered investment company that invests mainly in stocks of non-US companies.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Subsequent Events
Subsequent events were evaluated through August 24, 2010, which is the date the financial statements were available to be issued

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Reclassifications
Certain reclassifications have been made to the 2008 financial statement presentation to correspond to the current year's format. These changes were mainly related to the presentation of fair value in Note D and 5% investments reported in Note E.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The information in Note D and the Schedule of Assets Held for Investment Purposes at End of Year was obtained from data that has been prepared and certified as complete and accurate by the trustee. In addition, the trustee certified the income, expense and other transactions for the year ended December 31, 2009 as complete and accurate.

NOTE D - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE D - FAIR VALUE MEASUREMENTS - CONTINUED

Level 1
Level 1 fair value measurements consist of the value of shares of mutual funds. The fair value for these investments is based on quoted market prices.

Level 3
The participant loans are not actively traded; therefore, the loans are valued with Level 3 measurements. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. Total gains and losses (as applicable) include realized and unrealized and would be included in the changes in net assets available for plan benefits and reported in net appreciation in fair value of investments. The following provides further details of the Level 3 fair value measurements.

Net Change in Fair Value	$ 3,180,449	$(6,381,704)

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE G - TAX STATUS

The Plan has adopted the Fidelity Volume Submitter Profit Sharing Plan document. On March 31, 2008, the Volume Submitter Plan received a favorable determination letter from the Internal Revenue Service which stated the Plan, as designed and amended, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan files an annual return and records must be retained for at least six years to support the filing.

NOTE H - ADMINISTRATION COSTS

Expenses of administration may be paid out of the Plan unless paid by the Company or others. The Plan may reimburse the Company for any administrative expense incurred. Administrative fees incurred by the Plan for the year ended December 31, 2009 included loan set up fees, overnight delivery fees and an audit fee. All were paid by the Plan directly.

NOTE I - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Investments and/or affiliates (Fidelity). Fidelity is also the trustee. Fees paid by the Plan for administrative services provided by Fidelity amounted to $6,875 and $5,875 for the years ended December 31, 2009 and 2008, respectively.

NOTE J - DISTRIBUTIONS PENDING

As of December 31, 2009, account balances of terminated persons amounted to $1,198,593.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

NOTE L - RECONCILIATION TO TAX RETURN

Employees may begin payroll deductions on the first day of each month subsequent to meeting Plan requirements. The Company may contribute a discretionary contribution each year to all eligible employees. This contribution will be allocated to each employee based on eligible compensation. NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Subsequent Events
Subsequent events were evaluated through August 24, 2010, which is the date the financial statements were available to be issued

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Reclassifications
Certain reclassifications have been made to the 2008 financial statement presentation to correspond to the current year's format. These changes were mainly related to the presentation of fair value in Note D and 5% investments reported in Note E.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The information in Note D and the Schedule of Assets Held for Investment Purposes at End of Year was obtained from data that has been prepared and certified as complete and accurate by the trustee. In addition, the trustee certified the income, expense and other transactions for the year ended December 31, 2009 as complete and accurate.

NOTE D - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE D - FAIR VALUE MEASUREMENTS - CONTINUED

Level 1
Level 1 fair value measurements consist of the value of shares of mutual funds. The fair value for these investments is based on quoted market prices.

Level 3
The participant loans are not actively traded; therefore, the loans are valued with Level 3 measurements. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. Total gains and losses (as applicable) include realized and unrealized and would be included in the changes in net assets available for plan benefits and reported in net appreciation in fair value of investments. The following provides further details of the Level 3 fair value measurements.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE G - TAX STATUS

The Plan has adopted the Fidelity Volume Submitter Profit Sharing Plan document. On March 31, 2008, the Volume Submitter Plan received a favorable determination letter from the Internal Revenue Service which stated the Plan, as designed and amended, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan files an annual return and records must be retained for at least six years to support the filing.

NOTE H - ADMINISTRATION COSTS

Expenses of administration may be paid out of the Plan unless paid by the Company or others. The Plan may reimburse the Company for any administrative expense incurred. Administrative fees incurred by the Plan for the year ended December 31, 2009 included loan set up fees, overnight delivery fees and an audit fee. All were paid by the Plan directly.

NOTE I - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Investments and/or affiliates (Fidelity). Fidelity is also the trustee. Fees paid by the Plan for administrative services provided by Fidelity amounted to $6,875 and $5,875 for the years ended December 31, 2009 and 2008, respectively.

NOTE J - DISTRIBUTIONS PENDING

As of December 31, 2009, account balances of terminated persons amounted to $1,198,593.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

NOTE L - RECONCILIATION TO TAX RETURN
