INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
New York Cruise Lines, Inc.
Retirement and 401(k) Plan:

We were engaged to audit the financial statements and supplemental schedule of New York Cruise Lines, Inc. Retirement and 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan, as of December 31, 2011 and 2010, and for the year ended December 31, 2011 except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information in Note 8 that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the New York Cruise Lines, Inc. Retirement and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of New York Cruise Lines, Inc. ("NYCL") and subsidiaries (collectively, the "Employer") who have attained the age of twenty-one and completed 1,000 credited hours of service, as defined, in a minimum period of one year. Participation is effective as of the first day of the calendar quarter after the defined requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The participants' elective salary deferrals will be a dollar amount or a percentage of compensation, as specified by the participants on their 401(k) election form, which is between 2% and 15% of defined compensation. Participants can also contribute amounts from other qualified plans. The Employer can, at its discretion, match the participant's contribution at a rate determined each plan year. As defined in the Plan, the Employer may contribute 50% of each participant's contribution; however, the employer contribution is not to exceed 3% of the participant's earnings, subject to limits issued by the Internal Revenue Service including additional profit sharing contributions made. The Employer matched contributions for the year ended December 31, 2011 in accordance with the terms of the Plan. The Employer did not make any matching contributions for the year ended December 31, 2010.

Participant Accounts

Each participant's account is self-directed. The participant determines the percentage of compensation to be deferred (subject to the limitations stated above) and the investment selections from any of sixteen investments provided by ING Life Insurance and Annuity Company.

Vesting

Participants are 100% vested in their salary deferral contributions and related investment income, gains and losses, net of administrative expenses. Participants are vested in the Employer portion of their respective account balances as follows: service of less than 2 years—0%; 2 years—$33^1/_3$%; 3 years—$66^2/_3$% and 4 years—100%.

Participant Loans

Loans to participants are allowed in accordance with provisions of the Plan Agreement. A participant may borrow the lesser of 50% of his/her vested account balance or $50,000, subject to a $1,000 minimum. The loans are secured by the balance in the participant's account and bear interest at rates, currently ranging from 4.75% to 8.00%, determined by the Plan administrator to be reasonable in

relation to the rate(s) charged for similar and equivalent commercial loans and the loan shall not exceed five years, except loans for the purchase of a residence where the limit is 20 years. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Benefits shall be distributed in a lump sum or periodic installments. In addition, hardship withdrawals are permitted if certain criteria are met as stated in the Plan document. Benefits are recorded when paid.

Forfeitures

The nonvested portion of the accrued benefit of any terminated participant may be forfeited and applied to reduce employer contribution or administrative expenses following the Plan year in which the forfeiture occurs. As of December 31, 2011 and 2010, the amount of unallocated forfeitures available for the following year was $49,449 and $50,251, respectively.

Corrective Distributions

In 2012 and 2011, distributions were made in the amount of $17,716 and $22,988, respectively, to certain employees to return excess contributions made to the Plan by these employees in 2011 and 2010.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies adopted by the Plan.

Basis of Accounting

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America applicable to defined contribution plans for filing with the Department of Labor.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for its benefit responsive investment contract which is valued at contract value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan custodian executes buy and sell orders based on the participants' instructions; earnings, expenses, gains and losses on investments made with amounts in each participant's account are allocated to such account.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Agreement.

Plan Administration Expenses

NYCL pays substantially all costs associated with the administration of the Plan.

Concentration of Credit Risk

Financial instruments that potentially subject the Plan to risk of loss consist principally of investments and participant loans. The financial statements have been adjusted for all losses expected to occur.

3. Investments

All investments of the Plan are participant-directed and held by the Plan custodian. The following table presents a summary of investments; investments that represent five percent (5%) or more of the Plan's net assets are separately identified:

Fair Value of Investments

	2011	2010
Investments at fair value as determined by Plan custodian:		
ING Life Insurance and Annuity Company:		
Fidelity Advisor Mid Cap Fund	$ 224,467	$ 268,992
ING Global Bond Portfolio	271,075	245,634
Franklin Balance Sheet Inv't Fund	292,297	444,341
ING Intermediate Bond Portfolio	370,556	327,359
ING Money Market Portfolio	681,921	672,003
Other	887,702	914,293
	2,728,018	2,872,622
Investments at contract value as determined by Plan custodian:		
ING fixed income account	571,992	603,874
	$ 3,300,010	$ 3,476,496

During 2011 the Plan's investments, including gains and losses on investments bought and sold (realized), as well as held during the year (unrealized), depreciated in value by $45,761 and are reported in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

The annuity contract is maintained in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements of the Plan at contract value as reported to the Plan by ING Life Insurance and Annuity Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the

withdrawals or transfer of all or a portion of their investments at contract value.

4. Fair Value Measurement

FASB ASC-820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011			
	Level 1	*Level 2*	*Level 3*	*Total*

Total assets at fair value	$ 2,872,622	$ -	$ 603,874	$ 3,476,496

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2011.

	Fixed Account
Balance, beginning of year	$ 603,874
Realized gains (losses) – interest	16,107
Unrealized gains (losses) relating to instruments still held at the reporting date	-
Purchases, sales, issuances, interfund exchanges and settlements, net	(47,989)
Balance, end of year	$ 571,992

5. Investment Contract with Insurance Company

The Plan maintains an investment contract with ING Life Insurance and Annuity Company ("ING") who maintains the funds in a general account. ING has indicated that the contract may not be characteristic of those contracts required to be reported at fair value. Because the guaranteed interest option is fully benefit-responsive and does not have defined maturity dates, contract value is the relevant measurement for that portion of net assets available for benefits attributable to this investment option. Normally, an adjustment to fair value has been included in the financial statements to arrive at net assets available for benefits. In this instance, no such adjustment has been made. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investments at contract value which are not subject to market value adjustment. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest rates on the insurance contract vary with maturity dates with a minimum guaranteed rate of 3% per annum for 2011 and 2010. Interest rates for new contributions are determined quarterly and stay in effect through the end of the corresponding maturity dates.

6. Tax Status

The Plan has adopted a prototype plan which has been determined by the Internal Revenue Service ("IRS") to be in accordance with applicable Sections of the Internal Revenue Code ("IRC").

Although the Plan has been amended since receiving its original determination letter, the Plan administrator and custodian are not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

8. Information Prepared and Certified by Plan Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to be complete and accurate by the Plan custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011:

	2011	2010
Investments at fair value as determined by Plan custodian:		
Investments (see details in Note 3)	$ 3,300,010	$ 3,476,496
Investment loss:		
Net depreciation in fair value of investments	$ (45,761)	
Interest income	16,107	
	$ (29,654)	

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' amount balances and the amounts reported in the statements of net assets available for benefits.

10. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by ING Life Insurance and Annuity Company, the Plan custodian; therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

11. Subsequent Events

The Company has evaluated its subsequent events through August 6, 2012, the date that the accompanying financial statements were available to be issued. The Plan had no material subsequent events requiring disclosure.
