KRUGER FOODS, INC.
PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 1 - PLAN DESCRIPTION

The following description of the Kruger Foods, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution plan covering employees of Kruger Foods, Inc. (the Company) who have completed one year of service (1,000 hours), are at least 21 years old and are not covered by the terms of a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b) Contributions

Beginning January 1, 2008, participants may contribute up to 100% of pre-tax annual compensation as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of the contributions into various investment options offered by the plan. The plan currently offers various mutual funds and insurance contracts as investment options for participants. The plan also holds investments in common stocks and limited partnerships that are non-participant directed (see Note 5). The Company contributes a matching contribution equal to 100% of the first 4% of compensation, not to exceed the participants' contribution. In addition, the Company may make discretionary profit sharing contributions to the Plan. Contributions are subject to certain limitations.

c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contributions, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) Vesting

Participants are immediately vested in full for their voluntary contributions, rollover contributions, and the employer's safe-harbor matching contributions. Vesting in the Company's other matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service.

NOTE 1 - PLAN DESCRIPTION (Continued)

d) Vesting (Continued)

A participant is 100% vested after six continuous years of credited service. The employer's vesting schedule for plan participants is as follows:

End of year 1	0%
End of year 2	20%
End of year 3	40%
End of year 4	60%
End of year 5	80%
End of year 6	100%

e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at a reasonable rate, which is to be determined by the plan administrator. Principle and interest are paid ratably through payroll deductions.

f) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annuity benefit payments, or systematic withdrawals. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

g) Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled $551 and $2,564, respectively. These forfeitures will be used first to pay any administrative expenses, and then any remaining forfeitures will reduce future employer contributions. In 2011, employer contributions were reduced by $551 from forfeited non-vested accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted by the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d) Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based upon the terms of the plan document.

e) Benefits Payments

Benefits are recorded when paid.

f) Administrative Expenses

All significant investment management services are paid by the participants. Other professional fees related to the Plan, including audit fees, are paid by the plan sponsor.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) Subsequent Events

The Plan has evaluated subsequent events through September 20, 2012, the date the financial statements were available to be issued.

NOTE 3 - CONCENTRATION OF CREDIT RISK

The Plan maintains a cash balance at a financial institution that, at times, may exceed the federally insured limits. The Plan has not experienced any losses in such accounts. The Plan believes it is not exposed to any significant credit risk on cash.

NOTE 4 - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets.

Limited partnerships	(741)

NOTE 6 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles (GAAP) provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for common stock investments. At December 31, 2011, the Plan Administrator reclassified the John Hancock pooled separate accounts and guaranteed interest account from Level I assets at December 31, 2010, to Level II assets at December 31, 2010. It was determined that the values of these assets are based on quoted prices for identical assets in inactive markets. At December 31, 2010, certain investments in limited partnerships are valued at management's estimate of the fair value per unit on the secondary market while other investments in limited partnerships are valued based on current trade activity per unit. At December 31, 2011, the investment in a limited partnership is valued based on current trade activity per unit owned by the Plan only.

Pooled Separate Accounts: Investments in mutual funds are valued at the net asset value per share at the close of each business day as reported by each Fund, which value their securities at fair value. These funds are valued on a closed exchange.

Guaranteed Interest Account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Common stock: Investments in common stock are valued at quoted prices on the New York Stock Exchange per share at the close of each business day as reported by each Company, which value their securities at fair value.

Limited Partnership: Certain investments in limited partnerships are valued at management's estimate of the fair value per unit on the secondary market. Other investments in limited partnerships are valued based on current trade activity per unit.

See Independent Auditors' Report.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

See Independent Auditors' Report.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

Unrealized gains and losses included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 7 - FINANCIAL INFORMATION CERTIFIED BY QUALIFYING INSTITUTION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from John Hancock Life Insurance Company (U.S.A.), the qualifying institution of the Plan, that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments in the trust fund administered by the qualifying institution, interest income, and all information in the supplemental schedules are presented in reliance solely upon that certification, and has not been audited by the independent auditors.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by John Hancock Life Insurance Company (U.S.A.). John Hancock is the qualifying institution as defined by the Plan for the years ended December 31, 2011 and 2010, and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9 - DELINQUENT PARTICIPANT CONTRIBUTIONS

During the year, it was noted that there were unintentional delays by the Company in submitting 2011 employee deferrals in the amount of $4,205, to the qualifying institution. These late deposits will be corrected in 2012. The amount of delinquent contributions carried over from 2010 and corrected in 2011 was $10,559. The Company has decided to correct the late deposits outside of the Voluntary Fiduciary Correction Program by filing Form 5330, Return of Excise Taxes Related to Employee Benefit Plans.

See Independent Auditors' Report.

NOTE 10 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in the Company contribution portion of their account.

NOTE 11 - TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 12 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 13 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The December 31, 2011, Form 5500 was prepared under the accrual basis of accounting and, thus, the asset and liability amounts reported on the Form 5500, as well as the net changes in plan assets, are in agreement in total with the amounts included in the accompanying financial statements. A reconciliation to Form 5500 has not been prepared.

The December 31, 2010, Form 5500 was prepared under the accrual basis of accounting and, thus, the asset and liability amounts reported in the Form 5500 are in agreement in total with the amounts included in the accompanying financial statements.

NOTE 14 - PLAN AMENDMENTS

Effective December 22, 2011, the Plan was amended to read as follows:

Notwithstanding anything in the Plan or Trust to the contrary, the Trustees are responsible for the collection of contributions on behalf of the Plan.

In determining how to discharge this duty to collect contributions, the Trustee should weigh the value of the Plan assets involved, the likelihood of a successful recovery, and the expenses expected to be incurred. Among other factors, the Trustee may take into account the Employer's solvency in deciding whether to expand Plan assets and pursue a claim.

NOTE 15 - SUBSEQUENT EVENTS

In January 2012, the Company began using an outside payroll service and began paying employees on a bi-weekly basis. Consequently, all of the participants with outstanding loans had to have their payment schedules re-amortized on a bi-weekly repayment schedule. New contracts were signed by all participants.

Effective July 2, 2012, the Plan transferred its assets out of John Hancock to The Hartford. The Trustees of the Plan decided to transfer the assets due to the increasing fees charged by John Hancock. As part of the transferring of assets, The Hartford required a blackout period from June 26, 2012 to July 11, 2012, where participants could not direct or diversify their investments, nor could any loans be taken from the Plan. Participants were able to defer monies from their wages; however, these monies were not funded to The Hartford until July 11, 2012.
