KELLOGG & ANDELSON
ACCOUNTANCY CORPORATION

To the Participants and Administrator of the
King's Seafood Company, LLC 401(k) Profit Sharing Plan
Costa Mesa, California

Independent Auditors' Report

We were engaged to audit the accompanying statements of net assets available for plan benefits of King's Seafood Company, LLC 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2009 and the supplemental Schedules of (1) Schedule H, line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2009, and (2) Schedule H, line 4i – Schedule of Assets H, line as of December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Great-West Life & Annuity Insurance Company (Great-West) and Orchard Trust Company, LLC (Orchard), the custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that Orchard held the Plan's investments and executed the investment transactions from December 18, 2008 through December 31, 2009, and that Great-West held the Plan's investment assets and executed the investment transactions from January 1, 2008 through December 17, 2008. The plan administrator has obtained certifications from the custodians as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

KING'S SEAFOOD COMPANY, LLC 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of the King's Seafood Company, LLC 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1999. The Plan covers all employees of King's Seafood Company, LLC (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees must have completed at least twelve months of service and have worked at least 1,000 hours, as defined, to be eligible to participate in the Plan, provided they are at least 21 years of age. Pursuant to the Plan amendment, employees are automatically enrolled into the Plan on the first day of any calendar quarter after they meet the participation requirements.

The Plan was amended and restated at various dates through December 31, 2009 to comply with applicable laws and regulations.

Plan Administration

The Company is the plan administrator and is responsible for managing the day-to-day operations of the Plan. From January 1, 2008 through December 18, 2008, Great-West was custodian of the Plan. Effective December 18, 2008, the Company appointed Orchard as custodian and Great-West Retirement Services as recordkeeper of the Plan. Orchard and Great-West Retirement Services are wholly-owned subsidiaries of Great-West.

Due to the change in service providers, the Company instituted a black-out period from December 15, 2008 to January 14, 2009. During this period, no contributions and repayment of loans were transferred to the Plan. Participants were not able to change their investment allocations and withdraw money from the Plan until the end of the black-out period.

Contributions

Participants may elect to defer a portion of their eligible compensation as an employee savings contribution, subject to the Internal Revenue Service (IRS) regulation limitations. Effective January 1, 2009, all eligible employees are automatically enrolled to defer 5% of their eligible compensation as pre and/or post-tax contributions to the Plan. Participants may elect not to defer or chose a difference percentage of deferral, subject to certain limitations under the Internal Revenue Code (IRC), by completing an elective deferral agreement. Plan participants over age 50 may defer additional catch-up contributions, subject to the IRC limitations.

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Contributions - Continued

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Prior to January 1, 2009, the Company matched 25% of participant's deferral up to a maximum of $100 per participant during the Plan year. Effective January 1, 2009, pursuant to the Plan amendment, the Company will not make matching contributions to the Plan. However, the Company may elect each year to make discretionary profit sharing contributions on behalf of all eligible participants. The Company did not elect to make discretionary profit sharing contributions for the year ended December 31, 2009.

Vesting

Participants are fully vested in their voluntary contributions and in the Company's matching contribution portion of their accounts and earnings thereon at all times. Vesting in the Company's profit sharing contributions is 20% per year, starting after two years of service.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions (including those rolled over from another qualifying plan or trust) and related employer matching and profit sharing contributions, as well as the participant's share of the Plan's income. Allocation is based on the proportion that each participant's account balance has to the total of all participants account balances.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are first applied against administrative expenses of the Plan. Any remaining forfeitures are used to reduce the Company's matching contributions. No forfeitures were used during the year ended December 31, 2009. During the year ended December 31, 2008, forfeitures in the amount of $3,447 were used to reduce Company matching contributions. As of December 31, 2009 and 2008, there were $64 and $11, respectively, in forfeitures available to reduce future Company contributions.

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution or installment payments equal to the participant's vested account balance or both, if the vested account balance is more than $5,000. If the vested account balance is $1,000 or less, the entire balance will be paid out. For the balances between $1,000 and $5,000, participant may elect to either directly transfer vested account balance to an IRA or another qualified plan or receive the vested benefits in a lump-sum payment. If no election is made, vested benefits are transferred to a separate IRA established by the Plan. Payments of account balances in excess of $5,000 may be deferred until the Normal Retirement Age. In addition, hardship distributions are permitted if certain criteria are met.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum limited to the lesser of: (1) $50,000 or (2) 50% of the participant's vested account balance. Each loan made bears a reasonable rate of interest, which is determined by the custodian of the Plan. Loans are to be repaid on an installment basis through payroll deductions over a period not to exceed five years, unless such loan is used by the participant to acquire a personal residence. Should employment with the Company be terminated prior to the full repayment of the loan, all remaining unpaid principal and interest shall be considered an immediate distribution of benefits under the Plan and reported as taxable income to the participant. Loans outstanding at December 31, 2009 and 2008 amounted to $141,469 and $106,324, respectively.

Administrative Expenses

Administrative expenses of the Plan are paid directly by the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Accounting Standards Codification

In June 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 105, *Generally Accepted Accounting Principles*, which became the single official source of authoritative, nongovernmental U.S. generally accepted accounting principles (GAAP), other than guidance issued by the Securities and Exchange Commission. FASB ASC 105 was adopted by the Plan as of December 31, 2009. As ASC did not create any new GAAP standards but incorporated existing accounting and reporting standards into a new topical structure, the adoption of FASB ASC 105 only changed referencing convention of GAAP in the notes to the financial statements.

Valuation of Investments

The Plan follows the provisions of FASB ASC 946-210-45, *Other Presentation Matters*, which requires the statements of net assets available for plan benefits present the fair value of the Plan's investments as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts, and the statement of changes in net assets available for plan benefits to be prepared on a contract value basis for the fully benefit-responsive investment contracts. Fully benefit-responsive contracts are the contracts that guarantee that (1) the crediting rate provided under the contract will not fall below zero and (2) participant-initiated withdrawals from the fund (i.e., withdrawals as the result of death, disability, retirement, termination of employment, hardship withdrawal, loan, and transfers to a non-competing fund) will be covered at contract value.

All assets of the Plan are participant-directed investments, which are stated at fair value as follows:

- Mutual funds are stated at fair value determined by quoted market prices (Level 1 inputs – Note 6).
- Pooled separate accounts are made up of various underlying investments (i.e., common stock, mutual funds, short term securities, etc.) and are valued based on the market value of these investments. The net asset value (NAV) of the pooled separate account is not a publicly-quoted price in an active market (Level 2 inputs – Note 6).
- Key Guaranteed Portfolio Fund is reported at fair value of the investment contract calculated using the discounted cash flow valuation methodology, where the interest rate for the portfolio investment contract is reset at least as frequently as annually. As such, fair value of the investment contract, prior to contract termination, equals to contract value prices (Level 2 inputs – Note 6).

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Valuation of Investments

- Loans to participants are stated at their current face value, which approximates fair value (Level 3 inputs – Note 6).

Investment Contract with Insurance Company

The Plan has an investment contract with Great-West through the Key Guaranteed Portfolio Fund. Great-West maintains the contributions in a general fund account, to which it adds interest at the contract rate. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The weighted average interest rate earned for the year ended December 31, 2009 was 3.16%. Participants may ordinarily direct the withdrawal or transfer of all or portion of their investment at contract value. However, the investment contract contains provisions that prevent the immediate and full payout of the contract value for plan-initiated transactions. Therefore, the guaranteed interest accounts are not considered fully benefit-responsive as defined in FASB ASC 946-210-45 and are reported at fair value.

Net Change in Fair Value of Investments

Net change in fair value of investments includes realized and unrealized gains and losses on investments sold or held during the year.

Recognition of Income

Sales and purchases are accounted for on a trade date basis, and interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefits

Benefit claims are recorded when paid. The amounts allocated to accounts of terminated employees who have also terminated their participation in the Plan, including involuntary cash-outs, as a component of net assets available for plan benefits, were $5,529 and $2,531 at December 31, 2009 and 2008, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Subsequent Events

During the year ended December 31, 2009, the Plan adopted FASB ASC 855, *Subsequent Events,* which establishes general standards of accounting for and disclosures of events that occur after the financial statement date but before the financial statements are issued or are available to be issued.

In preparing the accompanying financial statements, events occurring between December 31, 2009 and August 31, 2010 (the date the financial statements were available to be issued) were evaluated in accordance with the provisions of FASB ASC 855, and no material subsequent events that required recognition in these financial statements were noted.

New Accounting Pronouncements

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value, and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

New Accounting Pronouncements - Continued

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*, to amend the disclosure requirements related to recurring and nonrecurring fair value measurements. The guidance requires new disclosures on the transfers of assets and liabilities between Level 1 (quoted prices in active market for identical assets or liabilities) and Level 2 (significant other observable inputs) of the fair value measurement hierarchy, including the reasons and the timing of the transfers. Additionally, the guidance requires a roll forward of activities on purchases, sales, issuance, and settlements of the assets and liabilities measured using significant unobservable inputs (Level 3 fair value measurements).

The guidance will become effective for periods beginning after December 15, 2009, except for the disclosure on the roll forward activities for Level 3 fair value measurements, which will become effective for fiscal years beginning after December 15, 2010. The adoption of this new guidance is not expected to have a material impact on the Plan's financial statements.

NOTE 3 - PLAN AMENDMENT AND TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

NOTE 4 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIANS

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians of the Plan have certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for plan benefits as of December 31, 2009 and 2008, and the supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2009, and the related investment activity reflected in the accompanying statement of changes in net assets available for plan benefits for the year ended December 31, 2009.

NOTE 5 - INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's net assets are as follows at December 31:

	2009	2008
Janus Advisory Forty Class	$ 347,394	$ 240,106
Black Rock Global Growth	214,848	155,480
PIMCO Real Return	212,641	260,165
Key Guaranteed Portfolio Fund	448,411	326,695
American Capital World Growth Income	417,305	278,828
TIAA-CREF Institutional Mid Cap Value	249,684	161,921
Vanguard 500 Index	349,344	201,626
Munder Mid Cap Core Growth	122,653*	109,322

* For comparison purposes

During 2009, the Plan's investments (including interest, dividends, and realized and unrealized gains and losses on investments bought and sold as well as held during the year) appreciated in value by $621,629.

NOTE 6 - FAIR VALUE MEASUREMENTS

Authoritative accounting literature establishes a fair value hierarchy that prioritizes the inputs used to measure fair value based on observable and unobservable data. The hierarchy categorizes the inputs into three levels, with the highest priority given to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority given to unobservable inputs (Level 3). The levels of the hierarchy are as follows:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset is defined as a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Inputs other than quoted prices included in Level 1 that are either directly or indirectly observable for the asset as of the reporting date. These inputs are derived principally from, or corroborated by, observable market data.

- Level 3 - Unobservable inputs that are supported by little, if any, market activity and are significant to the fair value of the assets as of the measurement date.

NOTE 6 - FAIR VALUE MEASUREMENTS - CONTINUED

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value methods used may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the measurement date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Fair Value Measurement December 31, 2009 Using Input Type			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,695,572	$ -	$ 2,695,572
Guaranteed portfolio fund	-	448,411	-	448,411
Participant loans	-	-	141,468	141,468
Total investments	$ -	$ 3,143,983	$ 141,468	$ 3,285,451

	Fair Value Measurement December 31, 2008 Using Input Type			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,754,797	$ -	$ -	$ 1,754,797
Guaranteed portfolio fund	-	326,695	-	326,695
Participant loans	-	-	106,324	106,324
Total investments	$ 1,754,797	$ 326,695	$ 106,324	$ 2,187,816

For participant loans measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during 2009, the reconciliation of beginning and ending balance is as follows:

Fair value at January 1, 2009	$ 106,324
Purchases, sales, issuances, and settlements, net	35,144
Fair value at December 31, 2009	$ 141,468

NOTE 7 - RELATED PARTY TRANSACTIONS

Certain Plan assets are managed by Great-West. Great-West is the parent company of Orchard, the custodian of the Plan. Therefore, these transactions qualify as party-in-interest. However, these party-in-interest transactions are exempt pursuant to ERISA regulations.

NOTE 8 - TAX STATUS

The IRS has ruled that the Plan qualifies under Section 401(a) of IRC and is, therefore, not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

NOTE 9 - CORRECTIVE DISTRIBUTIONS

The Plan failed to pass the Actual Deferral Percentage (ADP) test for the Plan years ended December 31, 2009 and 2008. In order to correct this testing failure, federal law generally requires that corrective action be completed no later than the end of the following year to avoid Plan disqualification. The corrective distributions as of December 31, 2009 of $14,889, including corresponding investment gains, were made subsequent to year end and are reported as a liability in the accompanying statements of net assets available for plan benefits. The Plan fully settled its 2008 corrective distribution obligation during 2009.

Considering the remedial actions taken pursuant to the provisions of the Plan document, management believes that the failed nondiscrimination testing will not affect the tax-exempt status of the Plan.

NOTE 10 - NON-EXEMPT TRANSACTIONS

During the Plan year ended December 31, 2009, the Company did not deposit certain participant contributions in the aggregate amount of $1,208 to the Plan within the timeframe required by the Department of Labor, under the plan assets rules. As such, these late deposits are considered prohibited transactions. As of the date of the auditors' report, all late deposits have been remitted to the Plan, and the Company has credited affected participant accounts for lost interest as a result of the delay in remitting contributions payments.

NOTE 11 - RECONCILIATION OF THE FINANCIAL STATEMENTS TO THE FORM 5500
