METRO CORRAL PARTNERS, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF THE PLAN

The following description of the Metro Corral Partners, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Adoption Agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of Metro Corral Partners, LLC and affiliates under common ownership (the "Sponsor"), who have attained the age of 21 and completed one year of service. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 ("ERISA"). See the Plan document for additional information regarding the Plan.

Contributions
Participants may contribute a portion of their compensation, as defined, to the Plan under a salary deferral arrangement on a pre-tax basis, subject to current tax law ceilings. Participants may also make rollover contributions to the Plan, representing distributions from other qualified retirement plans or accounts.

For the year ended December 31, 2008 and the period from January 1, 2009 through January 31, 2009, the Sponsor matched 50% up to 3% of compensation that a participant contributed to the Plan. Effective February 1, 2009, the Plan was amended not to allow matching contributions. The Sponsor may make a discretionary profit sharing contribution each year for all eligible personnel employed by the Sponsor. There was no discretionary contribution for the year ended December 31, 2009.

Investment options
The Plan's assets are held by State Street Bank and Trust Company (the "Custodian"), the custodian of the Plan's assets. Under this arrangement with the Custodian and upon enrollment in the Plan, a participant may direct employee contributions in any whole percentage increments in any of the available funds. Participants may change their allocation to the various investment options at any time.

Participant accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contributions and (b) Plan earnings and losses. Allocations are based on participant contributions or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions plus earnings thereon. Vesting in the employer's contribution and the earnings thereon is based on years of continuous service according to the following schedule:

Years of Service	Vested %
Less than 2 years	0%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 years or more	100%

Forfeited accounts
Forfeited non-vested amounts during the years ended December 31, 2009 and 2008 were $3,396 and $12,411, respectively. Amounts forfeited which were used to reduce employer matching for the years ended December 31, 2009 and 2008 were $293 and $5,870, respectively.

Participant loans
The Custodian may make loans from the Plan to participants in accordance with the Plan document. All loans are to be repaid within five years unless the loan is used to acquire a principal residence, in which case the term may be longer. The outstanding participant loans at December 31, 2009 and 2008 bear interest at rates ranging from 5.25% to 10.25%. The minimum loan amount is $500.

Payments of benefits
Upon termination of service, a participant whose vested account balance exceeds $1,000 may request a lump-sum distribution equal to the value of the participant's vested interest in his or her account. If no such request is made, distribution is made at normal retirement age. A terminated participant whose vested account balance does not exceed $1,000 will receive a lump sum distribution of the vested account balance immediately following termination. Active employees may withdraw vested funds subject to certain withdrawal requirements as defined in the Plan.

Administrative expenses
Administrative expenses charged to the Plan include transaction fees relating to certain participant-initiated transactions. The Sponsor absorbs costs of Plan administration, including legal, accounting, custodial, and general administration.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting
The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Interest income is recorded when earned. Net appreciation/depreciation includes dividends and unrealized and realized gains and losses on investments bought and sold as well as held during the year. Participant loans are valued at amortized cost, which approximates fair value.

Payment of benefits
Benefits are recorded when paid.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent events
The Sponsor has evaluated subsequent events through September 7, 2010, the date that the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during the years ended December 31, 2009 and 2008.

- Money market account: valued at legal tender value
- Mutual funds: valued at the net asset value of shares held by the Plan at year end
- Common / collective trusts: valued at the net asset value of shares of the underlying mutual funds
- Participant loans: valued at amortized cost, which approximates fair value

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Assets at fair value as of December 31, 2009

5. PLAN AMENDMENT

Effective February 1, 2009, the Plan was amended to not allow Sponsor matching contributions.

6. INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator has elected that information certified by the Custodian not be subjected to any auditing procedures except for comparing such information to the related information contained in the accompanying financial statements and supplemental schedule.

7. RELATED PARTY TRANSACTIONS

Certain of the Plan's investments are held in common / collective trusts managed by the Custodian and as such, qualify as party-in-interest transactions as defined by ERISA.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for plan benefits and changes in net assets available for plan benefits per the financial statements at December 31, 2009 and 2008 and for the years then ended to Form 5500, Annual Return/Report of Employee Benefit Plan:

	2009	2008

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

10. INCOME TAX STATUS

The Plan uses a prototype plan document provided by Automatic Data Processing, Inc. ("ADP"). The Internal Revenue Service ("IRS") has determined and informed ADP, by a letter dated March 31, 2008, that the Plan was designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has not obtained a determination from the IRS on its adoption of the non-standardized prototype plan. In accordance with Revenue Procedure 2002-6, the Sponsor has chosen to rely on the opinion letter of the prototype plan. Subsequent to this opinion letter, the prototype plan has been amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, is qualified and the related trust is tax exempt.

11. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

12. SUBSEQUENT EVENTS

Effective January 1, 2010, the Plan was amended to allow a discretionary Sponsor match.

Effective March 1, 2010, the Plan was amended to all participants to make ROTH elective deferrals.
