Los Angeles, CA 90010

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of Bankcard Service 401(k) Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2011 and 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards as established by the Auditing Standard Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The plan is not required to have, nor were we engaged to perform, an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidences supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note B, the financial statements were prepared on a modified cash basis of accounting, which is comprehensive basis of accounting other than accounting principles generally accepted in the United States.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits (modified cash basis) of Bankcard Service 401(k) plan as of December 31, 2011 and 2010, and the changes in its net assets available for benefits (modified cash basis) for the year ended December 31, 2011 and 2010, on the basis of accounting as described in Note B.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules of (1) assets (held at end of year) and (2) fair value of guaranteed interest accounts, are presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule (modified cash basis) has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinions, is fairly stated in all material respects in relation to the financial statements taken as a whole.

NOTE A - DESCRIPTION OF PLAN

The following description of the BANKCARD SERVICE ("Company") 401 (k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have 12 months of service and work at least 1,000 hours in the previous 12 months, and are age nineteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the lesser of 20% of pretax annual compensation or $16,500, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and insurance investment contracts under a group annuity contract issued by John Hancock Life Insurance Company (U.S.A.) (John Hancock USA) for participants. Contributions are allocated to investment options which: (a) invest solely in shares of an underlying mutual fund which will be held in the John Hancock USA's separate sub-accounts or (b) are the guaranteed interest accounts held in the John Hancock USA's general account. The Company used to provide a matching contribution in proportion to participants' salary reduction contributions. However, the Company has not offered any 401(k) matching on participants' contributions since 2009.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of Plan earnings, and charged with an allocation of administrative expenses if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. The vesting in the Company's contribution portion made to participants' accounts when the Company offered 401(k) matching program is based on years of continuous service. A participant is 100% vested after five years of credited service. Also, participants automatically become fully vested when they reach full retirement age, if they die or become disabled, or if the plan is terminated.

Participant Loans. Participants may borrow from their fund accounts a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 5.00%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or paid as a "direct rollover" to the participant's individual IRA or to another employer's tax qualified plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or installments.

Forfeitures. Forfeitures generated from non-vested fund of participants receiving distributions during the plan year are automatically transferred to the Plan's noninterest-bearing cash account and used to reduce future employer contributions. Forfeiture of non-vested fund did not occur in 2011, but the amount of forfeiture from non-vested fund was $3,704.51 in 2010.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles, and is an acceptable method of reporting for the Department of Labor and ERISA. This basis of accounting differs from accounting principles generally accepted in the United States primarily because additions and deductions are recognized as received or paid rather than as earned or incurred with exception for investments, which are adjusted to fair value for financial reporting purpose. In addition, the total value of investments includes participants' salary reduction contributions for the payroll ending December 31 even if payment does not be made and invested into the Plan as of December 31.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The group annuity contract the Plan entered into with John Hancock Life Insurance Company (U.S.A.) (John Hancock USA) is not "fully benefit responsive". One of the elements of deciding on whether an investment contract is fully benefit responsive is whether an event that limits the ability of the fund to transact at contract value with plan and participants is likely to occur. The John Hancock USA's group annuity contract is not fully benefit responsive because of the following reasons: (a) inter-account transfers from guaranteed interest accounts may be subject to a market value adjustment, depending on the withdrawal amount and the reason for the withdrawal, (b) inter-account transfers from certain sub-accounts may be subject to a redemption fee, as set by the underlying fund

manager and depending on the holding period of the underlying fund, (c) a contract charge may be applied at contract termination, per the contract specifications.

Under Statement of Position No. 94-4-1, issued by the American Institute of Certified Public Accountants, investment contracts that are not fully benefit responsive must be reported at “fair value”. On the other hand, when investment contracts are fully benefit responsive, plan investments should be present at “contract value” not “fair value”. Since the Plan’s group annuity contract is not fully benefit responsive, the Plan’s investments are stated at fair value including guaranteed interest accounts.

Quoted market prices are used to value investments in mutual funds. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end, and purchases and sales for shares of mutual funds are recorded on a trade-date basis.

Meanwhile, guaranteed interest accounts guarantee the return of principal plus compound interest earned over a defined 3-, 5- or 10-year term, less any applicable contract or participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed interest account in that month. Also, at the end of each reporting year, a composite rate of interest is determined for each participant account, depending on the amount contributed and the rate in effect on the day it is allocated under the participant account. The composite rate is the effective annual rate earned by all contributions to that guaranteed interest account during that reporting year for that participant. For each reporting year in which a participant makes a contribution to a guaranteed interest account, a new account is established for all contributions made during that reporting year and a new composite interest rate is established at the end of the contract year which applies for the remainder of the guarantee term for that account. As a result, the fair value for the guaranteed interest accounts will vary at the end of each year depending on the amount of contribution made to the account and how composite rate of interest is determined. Also, participants may have multiple guaranteed accounts earning different composite interest rates, each maturing at a different contract year-end(Please see the fair value report for guaranteed interest accounts on the page 13).

With respect to participant loans, they are valued at their outstanding balances, which approximate fair value.

In the Statement of Changes in Net Asset Available for Benefits, the Plan presents the appreciation or depreciation in the fair value of its investments, which consists of realized gains or losses and unrealized gains or losses on investments.

Payment of Benefits

Benefits are recorded when paid.

NOTE C – INVESTMENTS

All investments are totally participant-directed, so participants have the right to direct the allocation of their contributions to any one or combination of the funds being currently provided by the Plan.

The following presents investments of the Plan's net assets.

Add: Contributions from participants credited in the previous year, but actual payment made in the current year	2,487	2,273
Contributions from participants per the schedule H of Form 5500	$54,389	$59,608

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE F - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
