Independent Auditors' Report

The Plan Administrator
Stock Bonus Plan for Hourly Employees of
the Rome Division of Revere Copper Products, Inc.:

We have audited the accompanying statements of net assets available for plan benefits of Stock Bonus Plan for Hourly Employees of the Rome Division of Revere Copper Products, Inc. (the Plan) as of December 31, 2008 and 2007, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2008 and 2007, and the changes in net assets available for plan benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4(i) – schedule of assets (held at end of year) as of December 31, 2008 and schedule H, line 4(j) – schedule of reportable transactions for the year ended December 31, 2008 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(1) Description of Plan

The following brief description of the Stock Bonus Plan for Hourly Employees of the Rome Division of Revere Copper Products, Inc. (the Stock Bonus Plan) is provided for general information purposes only. Participants should refer to the Stock Bonus Plan Agreement for complete information.

(a) Establishment of the Plan

The Stock Bonus Plan was designed to enable employees to share in the growth and prosperity of the employer, Revere Copper Products, Inc. (Sponsor or Company), and to provide an incentive to employees to sustain the growth and prosperity of the employer, through the acquisition of Class B nonvoting common shares of the Company stock.

(b) Eligibility

Each hourly employee who was employed on January 1 or July 1 and at all times during the preceding 12-month period and performed 1,000 or more hours of service during that period shall become a participant of the Stock Bonus Plan on that date.

(c) Participant Accounts

Each participant account is credited, at December 31 of the year that they become eligible to participate in the Stock Bonus Plan, with 1,000 shares of stock as defined in the Stock Bonus Plan Agreement.

Participant accounts can be transferred to or from the Revere Copper Products, Inc. Salaried Employees' Stock Bonus Plan if the participant transfers to or from salaried employment at the Sponsor.

(d) Value of Participant Accounts

For employees who began participation in the Stock Bonus Plan prior to January 1, 1995, the value of a participant's account upon termination or retirement is equal to the greater of the fair market value of the stock as of the end of the year coinciding with or immediately preceding the date of termination or the book value of the stock (as defined in the Stock Bonus Plan Agreement) as of the last day of the month coinciding with or immediately preceding the date of termination or retirement. For employees who began participation in the Stock Bonus Plan on or after January 1, 1995, the value of a participant's account upon termination or retirement is equal to the excess of (i) the greater of (a) the fair market value of the stock as of the end of the year coinciding with or immediately preceding the date of termination or retirement, or (b) the book value of the stock as of the last day of the month coinciding with or immediately preceding the date of termination or retirement, over (ii) the greater of (c) the fair market value of the stock on the date as of which the stock was contributed and allocated under the Plan, or (d) the book value of the stock as of the last day of the month that the stock was contributed and allocated under the Plan (Formulary Value). However, in no event shall the value of the stock be less than zero.

(Continued)

(e) Forfeitures

All amounts forfeited, due to terminations of nonvested participants, become available for distribution to new participants as they become eligible to participate in the Stock Bonus Plan, thereby reducing future Company contributions. Forfeited nonvested accounts for the plan years ended December 31, 2008 and 2007 totaled 9,000 shares and 3,000 shares, respectively. During the plan years ended December 31, 2008 and 2007, forfeited shares used to reduce company contributions totaled 4,000 shares and 5,000 shares, respectively. At December 31, 2008 and 2007, forfeited shares still remaining and available to reduce future contributions were 6,000 shares and 1,000 shares, respectively.

(f) Contributions

Stock contributions from the Company are discretionary, subject to the minimum contribution as described in note 1(c), and were 5,000 shares and 14,000 shares for 2008 and 2007, respectively, net of forfeitures. During 2008 and 2007, there were no contributions other than the minimum required.

(g) Vesting

Vesting occurs upon the earliest of the completion of five years of service, attaining age 65, death, or becoming totally disabled.

(h) Payment of Benefits

Distribution of plan benefits shall be made entirely in cash, unless a participant elects to receive their benefit in the form of stock. Participants have the right to put the stock to the Company, and the Company has the right of first refusal to purchase the stock from participants; both at the Formulary Value as described in note 1(d).

(i) Plan Termination

The Company reserves the right to terminate the Stock Bonus Plan at any time. In the event of termination of the Stock Bonus Plan, the assets shall be allocated in a manner approved by the Employee Retirement Security Act of 1974.

(j) Administrative Expenses

The Stock Bonus Plan requires that expenses be paid by the Stock Bonus Plan's assets unless paid by the Sponsor. The Stock Bonus Plan's administrative expenses approximated $13,000 in 2008 and 2007, all of which were paid by the Sponsor.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements for the Stock Bonus Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

(Continued)

Company stock is valued at the Formulary Value at which the stock will be repurchased by the Sponsor per the Stock Bonus Plan Agreement. For stock contributed to the Stock Bonus Plan prior to January 1, 1995, the Formulary Value is the greater of the fair value of the stock as determined by an independent appraiser or the book value per share. For stock contributed to the Stock Bonus Plan after January 1, 1995, the Formulary Value is equal to the excess of (i) the greater of (a) the fair value of the stock as determined by an independent appraiser or (b) the book value per share, over (ii) the greater of (c) the fair value of the stock as determined by an independent appraiser or (d) the book value per share as of the date that the stock was contributed and allocated to the Stock Bonus Plan. However, in no event shall the value of the stock be less than zero.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of additions and deductions during the reporting period. Actual results could differ from those estimates.

(c) Risks and Uncertainties

The Company's stock is exposed to various risks, such as market and credit. Due to the level of risk and uncertainty related to changes in the value of the Company's stock, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

(3) Fair Value Measurements

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes guidelines for measuring fair value, and expands disclosures regarding fair value measurements. SFAS 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements and is effective for fiscal years beginning after November 15, 2007. Effective January 1, 2008, the Stock Bonus Plan adopted SFAS 157, which did not have a material impact on the statements of net assets available for plan benefits or the statements of changes in net assets available for plan benefits.

(Continued)

SFAS 157 establishes a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under SFAS 157 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Stock Bonus Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. See note 6 for additional disclosures required under SFAS 157.

(4) Contingencies

The Sponsor of the Stock Bonus Plan is also the Sponsor of The Pension Plan for Hourly Employees of Revere Copper Products, Inc. (the Pension Plan). As the Pension Plan was substantially in arrears of its required minimum contributions in December 2002, the Pension Benefit Guarantee Corporation (PBGC) had placed a lien on the Sponsor's assets. On May 5, 2003, the board of directors of the Sponsor resolved to commence termination of the Pension Plan. On December 5, 2008, the Sponsor and the PBGC reached an agreement whereby the Pension Plan was terminated effective December 31, 2003, pursuant to a distress termination proceeding, with the PBGC becoming the trustee of the Pension Plan. The agreement provides for the Sponsor to make certain ongoing payments to the PBGC for 10 years beginning in 2009. The liens originally filed by PBGC were released in 2009.

(5) Tax Status

The Internal Revenue Service has determined and informed the Stock Bonus Plan by a letter dated August 19, 2002, that the Stock Bonus Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (Code). In the opinion of the Plan Administrator, the Stock Bonus Plan and related trust have operated within the terms of the Stock Bonus Plan and are qualified under applicable provisions of the Code and, therefore, are exempt from income taxes.

(6) Investments – Party-in-Interest

Investments held by the Stock Bonus Plan are comprised of 268,000 and 282,000 shares of Class B common stock of Revere Copper Product, Inc., the Sponsor, at December 31, 2008 and 2007, respectively. The stock is valued at the Formulary Value that is based on the greater of the fair value as determined by an independent appraiser or book value per share. The fair value per share as determined by an independent appraiser was $2.84 and $3.12 at December 31, 2008 and 2007, respectively. The book value per share was $3.32 and $2.59 at December 31, 2008 and 2007, respectively.

At December 31, 2008, investment in Revere Copper Product, Inc. Class B common stock is considered to be Level 3 within the fair value hierarchy. The fair value of the stock as determined by an independent appraiser was based upon a combination of the market and income valuation techniques taking into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of company assets and liabilities. The book value per share is based on the equity of the Company.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator of the Stock Bonus Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
