Board of Trustees
Clark's Market, Inc. 401(k) Profit Sharing Plan

REPORT OF INDEPENDENT AUDITOR

We have audited the accompanying statement of net assets available for benefits of Clark's Market, Inc. 401(k) Profit Sharing Plan (the Plan) as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) and the supplemental schedule H, line 4a - schedule of delinquent participant contributions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2008 in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

NOTE 1 - PLAN DESCRIPTION

The following description of the Clark's Market, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all non-union employees of Clark's Market, Inc. (the Company) who are at least twenty-one years of age and have completed at least 1,000 hours of service. Once the eligibility requirements have been met, employees are eligible to make 401(k) pre-tax salary deferral contributions and receive Company matching contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants that do not make an enrollment election will be automatically enrolled in the Plan under the provisions of a qualified automatic contribution arrangement as defined by the Plan document.

Contributions

Participants are permitted to contribute pre-tax salary deferrals of their annual compensation up to the maximum allowable dollar limits set by federal law. Transfers from qualified plans are allowable under the provisions of the Plan.

The Company makes matching contributions equal to 50% of the amount of participant elective deferrals. The maximum participant contribution amount eligible to be matched is 6% of compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's non-discretionary match contributions, and Plan earnings. Allocations of Plan earnings are based on participants' account balances as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Elections

Each participant may direct that pre-tax salary deferrals and Company matching contributions allocated to their account be invested in one or more of the mutual fund investments offered. Participants may change such allocations at any time during the year.

Vesting

Vesting in the Company contribution portion of participants' accounts, plus earnings thereon, is based on years of continued service according to a graded vesting schedule. Participants are 100% vested after six years of credited service. Participants are always 100% vested in their voluntary salary deferrals plus actual earnings thereon and any rollover contributions.

Payment of Benefits
Upon termination of service, a participant will receive a lump-sum payment equal to the value of his or her account, provided the account does not have a value greater than $1,000 and an election has not been made to directly rollover the balance to an IRA. Participants with account values of at least $1,000 but less than $5,000 may receive a lump-sum payment, elect to rollover the balance to another plan or IRA, or if no other option is selected, the balance will be rolled over to an IRA on behalf of the participant. If a participant's account value is $5,000 or more, the participant may elect an annuity to be paid in monthly, quarterly, or annual installments, may receive a lump-sum payment, or may elect to defer benefits to a future date.

Forfeitures
Forfeitures of employer contributions resulting from terminations of non-vested participants may be used to offset Plan expenses or to reduce the employer's matching contributions. Net forfeitures used to reduce Plan expenses for the year ended December 31, 2009 were $7,242. Unallocated forfeitures are not considered assets available for benefits as of year end. At December 31, 2009, unallocated forfeitures totaled $266.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Investments Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 4).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
All benefits are recorded when paid.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3 - INVESTMENTS

The following presents the fair value of investments representing five percent or more of the Plan's net assets at December 31, 2009:

RS Value	$	273,716
Oakmark Equity & Inc	$	177,881
Wells Fargo Govt Securities	$	170,812
Columbia Value & Restruct	$	158,975
Oppen Int'l Bond	$	157,150
Schwab Investor Money	$	153,807
Tocqueville Gold	$	130,312
ING Corp Leaders Trust	$	124,535

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) changed in value as follows:

Mutual fund investments	$	417,119
Interest income – interest bearing cash		209
Interest income – participant loans		5,704
Total Investment Income	$	423,032

NOTE 4 - FAIR VALUE MEASUREMENTS

Effective January 1, 2008, the Company adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (ASC 820). ASC 820 defines fair values, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Under ASC 820, assets and liabilities are grouped in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.

- Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

- Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobserved assumptions reflect the Plan's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Under ASC 820, the Plan bases fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon management's estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future values.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair value measurements for assets recorded at fair value on a recurring basis at December 31, 2009 are as follows:

Description	Level 1	Level 2	Level 3	Total Fair Value
Mutual funds				
Blend funds	$ 659,504	$ -	$ -	$ 659,504
Growth funds	396,636	-	-	396,636
Value funds	283,510	-	-	283,510
Bond funds	234,731	-	-	234,731
U.S. Government securities	170,812	-	-	170,812
Total Mutual Funds	1,745,193	-	-	1,745,193
Money market accounts	170,995	-	-	170,995
Participant loans	-	-	98,629	98,629
Total	$ 1,916,188	$ -	$ 98,629	$ 2,014,817

Changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009 are as follows:

	Participant Loans
Balance, beginning of the year	$ 85,727
Realized gains (losses)	-
Unrealized gains (losses)	-
Purchases, sales, issuances, and settlements, net	12,902
Balance, end of the year	$ 98,629

NOTE 5 - QUALIFIED NON-ELECTIVE CONTRIBUTION

Subsequent to December 31, 2009, the Company determined that the participants were not provided the opportunity to elect and make elective deferrals on all eligible compensation. The Company had incorrectly excluded bonuses from the calculation of eligible compensation. The Company will make a qualified non-elective contribution (QNC) to the Plan on behalf of the participants to compensate for the missed deferral opportunity. The contribution will be 50% of the participants' missed deferrals plus 100% of the missed employer contribution. The Company is in the process of calculating the exact amount of the QNC. As of December 31, 2009, the Plan has calculated and accrued an estimated QNC of $13,000.

NOTE 6 - PLAN TAX STATUS

The Company has adopted a prototype standardized profit sharing plan offered by the third party administrator. On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Company, as then designed, qualifies under the applicable sections of the Internal Revenue Code (the Code). The Company has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Company's tax counsel believe that the terms of the prototype plan are being followed. The Plan has been amended since receiving the above letter; however, the Plan administrator and the Company's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable provisions of the Code.

NOTE 7 - RELATED PARTY TRANSACTIONS

The Company absorbs certain administrative expenses on behalf of the Plan, such as accounting fees and certain Plan expenses. During the years ended December 31, 2009 the Company paid administrative expenses on behalf of the Plan of approximately $11,815.

Charles Schwab, the custodian of the Plan, manages certain Plan investments. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets (held at end of year).

NOTE 8 - PROHIBITED TRANSACTIONS

As required by ERISA Section 2510.3-102, the Plan sponsor is required to segregate employee contributions to the Plan from its general assets as soon as practicable, but in no event more than 15 business days following the end of the month in which amounts are withheld from wages. During 2009, the Company failed to remit to the Plan's custodian certain employee contributions totaling approximately $17,220 within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the custodian were due to administrative errors, and the Company will make a contribution to the affected participants' accounts to compensate those participants an aggregate of approximately $40 for potential lost income due to the delays.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - SUBSEQUENT EVENTS

The Company's management has evaluated subsequent events through October 7, 2010, the date which the financial statements were available to be issued and determined that no events have occurred that require disclosure.

NOTE 11 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2009:

Net assets available for benefits per the financial statements	$	2,027,817
Less: employer contributions receivable not accrued on Form 5500		(13,000)
Net assets available for benefits per the Form 5500	$	2,014,817

The following is a reconciliation of employer contributions per the financial statements to Form 5500 for the year ended December 31, 2009:
