NOTE 1 - PLAN DESCRIPTION

GENERAL

The Rex-Hide Incorporated Profit Sharing Plan (Plan) is a defined contribution plan. Substantially all non-collectively bargained employees of Rex-Hide Incorporated and its subsidiaries (Company) become eligible to participate in the Plan upon meeting the Plan's eligibility requirements, as defined.

Plan participants may make contributions to the Plan under a salary deferral arrangement. Salary deferral contributions are fully vested and nonforfeitable. The Company contributes a matching contribution amount which is equal to 50% of the participant's salary deferral contributions (subject to certain limitations). Company matching contributions are subject to the vesting percentage, as defined (see below). Also, the Company may make additional contributions to the Plan on a discretionary basis. Any additional contributions are subject to the vesting percentage. All contributions are allocated to several savings/investment accounts maintained under a group contract with Principal Life Insurance Company (Custodian) at the direction of the Plan participants. Contributions to the Plan are subject to certain limitations under various federal income tax regulations.

The Plan provides for loans to participants and beneficiaries at the lesser of one-half of the vested balance of the participant's account or $50,000. Each loan bears a fixed rate of interest determined by the loan administrator and is repayable over a specified period not to exceed five years. Loans are secured by the vested portion of the participant's account and repaid through payroll deductions.

The Plan is administered by the Company, which has the power to interpret provisions of the Plan, resolve all questions that may arise under the Plan, including questions relating to eligibility and benefits, and, in general, direct the activity of the Plan.

The following is a summary of certain significant provisions of the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

PARTICIPATION

Employees generally become eligible to participate in the Plan after completing six months of service and attaining age 21.

CONTRIBUTIONS

Salary deferral and Company matching contributions are allocated to participant's accounts when made. Employer additional contributions and any forfeitures released for allocation are allocated among all active participants as of the last day of the Plan year. The amount allocated to each participant is determined under an allocation formula which is based on a ratio of individual participant's annual compensation, as defined, to total annual compensation for all eligible participants.

VESTING PERCENTAGE

Company contributions are subject to the following vesting percentage based on years of service:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The financial statements of the Plan have been prepared in accordance with U. S. generally accepted accounting principles on an accrual basis.

INVESTMENTS

The guaranteed interest contracts (GIC) are valued at their contract value for purposes of the financial statements, which represents contributions made under the contract plus interest earnings at the contract rate, less funds used to pay benefits. The fair value, determined by the Custodian as described in Note 5, at December 31, 2009 and 2008, was $3,110,728 and $3,966,373, respectively. The market values of the pooled separate accounts were determined by the Plan's Custodian.

In the event that the Company would request withdrawal of all funds in the guaranteed interest account, the liquidation value of the account would be determined by the Custodian by application of the Liquidation Formula in effect at such time in accordance with plan provisions.

Investments held by the Plan at December 31, 2009 and 2008 that represent 5% or more of the Plan's net assets for the respective years then ended are as follows:

Account	Contract or Market Value	
	2009	2008
Guaranteed Interest Accounts	$ 3,131,604	$ 3,965,090
Lifetime 2030	1,573,987	1,233,535
Divers International	1,322,543	1,232,895
Lifetime 2020	1,547,361	1,036,283
Large Cap Stock Index	1,400,506	*
Bond & Mortgage	1,222,594	*
PTR Large Cap BLD I	1,145,821	1,058,827
Money Market	1,110,207	1,061,963
U.S. Property	*	1,166,250

* did not represent 5% of more of the Plan's net assets

USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported increases and decreases in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

ADMINISTRATIVE EXPENSES

Expenses incurred in the administration of the Plan are paid by the Plan Sponsor.

CONCENTRATION OF CREDIT RISK

All of the investments of the Plan are held in the general interest or pooled separate accounts of the Custodian. This situation constitutes a concentration of credit risk.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of Plan termination, all participants' accounts become fully vested and all net assets will be distributed to the participants.

NOTE 4 - TAX STATUS

A favorable determination letter, granting tax exempt status, was received from the Internal Revenue Service (IRS) on May 14, 1998. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for federal income tax has been made in the accompanying financial statements.

NOTE 5 - INVESTMENT OPTIONS

The Plan's assets are invested in separate accounts of Principal Life Insurance Company (Principal) as directed by the participants. Investment options include guaranteed interest contracts and pooled separate accounts.

Guaranteed interest contracts are funds invested in the general account of Principal that provide for guaranteed interest rates for certain time periods. The underlying assets in this account are invested primarily in private placement bonds, commercial mortgages and residential mortgages. The fair values of the guaranteed interest contracts are determined by reference to applicable published market data.

The Plan offers more than twenty-five pooled separate accounts of Principal. The fair values of these separate accounts are determined by reference to applicable published market data.

NOTE 6 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2009 and 2008.
- Investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2009 and 2008.
- The schedule of assets held as of December 31, 2009 as shown on Schedule I.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 7 - DEFERRED VESTED BENEFIT PAYMENTS

Some of the Plan's vested participants have terminated their employment with the Company and elected to defer their vested benefit payments. These amounts are included in net assets available for benefits at the end of each respective plan year.

NOTE 8 - RECONCILIATION TO FORM 5500

The following table reconciles the financial statements to the Form 5500 as filed by the Company for the Plan year ended December 31, 2009.

Net assets available for benefits per financial statements	$ 21,410,579
GIC market value adjustment	(20,876)
Net assets available for benefits per Form 5500	$ 21,389,703

NOTE 9 - FORFEITURES

There were no forfeited nonvested benefits as of December 31, 2009 or 2008.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in multiple investment products, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

NOTE 11 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board *Accounting Standards Codification* 820, *Fair Value Measurements,* (ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 11 - FAIR VALUE MEASUREMENTS - CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:
