Independent Auditors' Report

To the Plan Administrator and Participants
Goellner, Inc. Retirement Savings Plan
Machesney Park, Illinois

We were engaged to audit the accompanying financial statements and supplemental schedules of the Goellner, Inc. Retirement Savings Plan (the Plan) as of December 31, 2009 and 2008, and for the years then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to cash, investments, investment transactions and related income, which were certified by the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Independent Auditors' Report

To the Plan Administrator and Participants
Goellner, Inc. Retirement Savings Plan
Machesney Park, Illinois

We were engaged to audit the accompanying financial statements and supplemental schedules of the Goellner, Inc. Retirement Savings Plan (the Plan) as of December 31, 2009 and 2008, and for the years then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to cash, investments, investment transactions and related income, which were certified by the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Goellner, Inc. Retirement Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Goellner, Inc. (the Company) and affiliated companies, Hennig, Inc. and Advanced Machine and Engineering, Inc., who are at least 18 years old and have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make salary deferral contributions from a minimum of 1 percent up to the maximum amount allowed by the Internal Revenue Code (IRC). If employee contributions cause the Plan to exceed the 401(k) discrimination limits, excess contributions are refunded to the participants. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company contributes a matching contribution on behalf of each participant, equal to 1 percent of eligible compensation for participants deferring 1 percent, 1.5 percent of eligible compensation for participants deferring 2 percent, and 2 percent of eligible compensation for participants deferring 3 percent or more. During 2009, the Company only made a matching contribution for the first quarter. The Company may also make discretionary profit sharing contributions. No profit sharing contribution was made in 2009 but one was made in 2008. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions, the Company's matching contributions, and an allocation of (a) the Company's profit sharing contribution (if applicable) and (b) Plan earnings and is reduced for certain fees. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The Company's profit sharing contributions are allocated based on participant's eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions and earnings thereon vest immediately. Participant's vesting in Company contributions is based on years of service. A participant becomes vested in the Company contributions according to the following schedule:

Years of Service	*Vested Percentage*
Less than 1	0 %
1	20
2	40
3	60
4	80
5 or more	100

A participant must work at least 1,000 hours during a Plan year to increase the vested portion of Company contributions.

Investment Options

Participants must direct all contributions to selected investments as made available and determined by the Plan administrator. Participants have the option to transfer monies between funds and change the allocation of their investment options daily.

Payment of Benefits

Upon termination of service due to death, disability, retirement or termination, a participant may elect to receive an amount equal to the participant's vested account balance as a lump-sum distribution.

Loans

Participants may borrow from their accounts a minimum of $1,000 and up to a maximum of the lesser of $50,000 or 50 percent of their employee deferral account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent. Loan terms range from one to five years. Principal and interest are paid ratably through payroll deductions.

Administrative Expenses

Administrative expenses incurred by the Plan are paid from the assets of the Plan.

Forfeited Accounts

Forfeitures are used to reduce employer contributions.

Note 2. Significant Accounting Policies

Valuation of Investments and Income Recognition

Investments in the common/collective trust funds are reported at fair value based on the unit prices quoted by the fund, representing the fair value of the underlying investments. Shares of registered investment companies are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares held by the Plan at year end. Participant loans are valued at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for Plan benefits.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefit of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through the date of this report, which is the date the financial statements were available to be issued.

Note 4. Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring the fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plans's level 1 assets include investments in money market funds and mutual funds.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. The Plan's level 2 assets include common/collective funds.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Plan's level 3 assets include participant loans, which are valued at amortized cost.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

December 31, 2009	*Level 1*	*Level 2*	*Level 3*	*Total*
Money market funds	$ 13,520	$ -	$ -	$ 13,520

Notes to Financial Statements

Note 5. Investment Contract with Insurance Company

During 2008 and 2009, the Plan participated in a common collective trust managed by Reliance Trust Company in the beginning of the year until assets were transferred to Charles Schwab Trust Company (Trustee), which invests solely in a managed group annuity contract with Metropolitan Life Insurance Company called Metlife Stable Managed GIC ABG (Contract #25157) (the Fund). The Trustee maintains the contributions in a general account. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed quarterly for resetting.

The Fund could be limited in its ability to transact with issuers at contract value. Such events include the Fund raising its risk profile or being subjected to an extended period of significant cash outflow, amendments to the plan documents, bankruptcy of the plan sponsor, or failure of the Trust to qualify for tax exempt status. The Plan administrator does not believe that the occurrence of any such event is probable.

The fair market value of the specific contracts inside the Fund was $.96 and $.84 per $1.00 of contract value at December 31, 2009 and 2008, respectively.

Average yields:	*2009*	*2008*
Based on actual earnings	**15.01 %**	(10.29) %
Based on interest rate credited to participants	**3.80**	5.11

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 7. Related Party Transactions

Certain administrative functions are performed by officers or employees of the Company for which they receive no compensation from the Plan.

Note 8. Income Tax Status

The Plan is operating under a standardized adoption agreement sponsored by Alliance Benefit Group of Illinois for which the prototype sponsor has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
