KOPKA, PINKUS, DOLIN & EADS EMPLOYEE SAVINGS & RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

General. The following description of the Kopka, Pinkus, Dolin & Eads Employee Savings & Retirement Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more complete information. The Plan, which became effective February 17, 1999, as the Kopka, Pinkus, Dolin & Eads Employee Savings & Retirement Plan, is a defined contribution plan which covers eligible employees of Kopka, Pinkus, Dolin & Eads, P.C. (the "Employer" and "Plan Administrator") who meet certain eligibility requirements.

Eligible employees may participate in the Plan if they have completed one year of service and have also attained age 21. An employee has completed one year of service if, at the end of their first twelve consecutive months of employment, they have completed at least 1,000 hours of service with the company. An employee may begin participating in the Plan once they are eligible and reach their entry date. An employee's entry date will be the earlier of the first day of the Plan year or the first day of the seventh month of the Plan year coinciding with or next following the date they satisfy the Plan's eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions. A participant may contribute a percentage of their annual compensation each year instead of receiving that amount in cash. In addition, a participant may separately elect to defer up to 100% of any bonuses paid during the year. However, a participant's total deferrals in any year may not exceed the maximum amounts established by the Internal Revenue Code (the "Code"). The Employer may make discretionary matching contributions equal to a uniform percentage of an eligible employee's salary deferrals, a percentage that is determined each year. However, salary deferrals for each payroll period exceeding 6% of an employee's compensation for such period will not be considered. The Employer may also make discretionary profit-sharing contributions in addition to the matching contributions.

The Employer elected not to make matching contributions or profit-sharing contributions for the year ended December 31, 2009.

Participant Accounts. Each participant's account is credited with the participant's contributions, the Employer's contributions and allocations of investment earnings (losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment funds offered by the Plan.

Vesting. Participants are immediately vested in their accounts with respect to participant contributions, eligible rollovers and earnings thereon. Participants vest in Employer contributions and earnings thereon based upon the following vesting schedule:

Years of Service	Percentage
Less than 2 years	0%
2 years but less than 3 years	20%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years and thereafter	100%

Participant Loans. Participants may borrow from their accounts up to the lesser of $50,000 or 50% of their vested account balance. Loans to participants are secured by the respective participant's vested account balance and are subject to interest charges. Interest rates applicable to participant loans are determined by the Plan Administrator based on prevailing market rates. Loans are repayable ratably through payroll deductions over a term not to exceed five years, or twenty years for loans used for the purchase of a primary residence.

Payment of Benefits. Upon retirement, disability, death, or termination of service, a participant is eligible to receive a lump-sum amount equal to the value of the vested interest in his or her account. Other withdrawals from participant's account balances may be made under certain circumstances, as defined in the Plan document.

NOTE 1 – DESCRIPTION OF PLAN (Concluded)

Forfeitures. Forfeitures from nonvested participant accounts are used to pay administrative expense or reduce future Employer contributions. Forfeited nonvested accounts and other prepaid contributions totaled $3,304 and $2,174 as of December 31, 2009 and 2008, respectively. For the year ended December 31, 2009, $565 of forfeitures were used to pay administrative expenses.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States.

Estimates and Assumptions. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Concentrations of Credit Risk. Substantially all of the Plan's assets are held by John Hancock Life Insurance Company (U.S.A.) (the "Trustee"). The Trustee of the Plan holds the Plan's investments and executes all investment transactions.

Administrative Expenses. A portion of non-investment costs and administrative expenses of the Plan are paid by the Employer which is a party-in-interest. These expenses, which are reflected in the accompanying financial statements, constitute exempt party-in-interest transactions under ERISA. The Employer has no plans to obtain reimbursement of these expenses from the Plan. Loan establishment, loan maintenance and short-term trading fees are paid by the Plan and all other investment expenses are offset against the related investment income.

NOTE 3 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule, that was prepared by the Trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the Trustee that such information is complete and accurate:

- Investments, as shown in the statement of net assets available for benefits as of December 31, 2009 and 2008.
- Net appreciation in fair value of investments and participant loan and other interest
- Note 4, Note 5 and Note 9: All investment balances and investment information in the notes.
- Supplemental Schedule: All investment balances and information included in the schedule.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009 and 2008.

Mutual Funds. Valued at the net asset value of shares held by the Plan at year end.

Guaranteed Investment Contracts. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Note 9).

NOTE 5 – FAIR VALUE MEASUREMENTS (Concluded)

Participant Loans. Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,626,799	$ -	$ -	$ 3,626,799
Guaranteed investment contracts	-	-	4,929	4,929
Participant loans	-	-	47,017	47,017
Total investment assets at fair value	$ 3,626,799	$ -	$ 51,946	$ 3,678,745

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,606,505	$ -	$ -	$ 2,606,505
Guaranteed investment contracts	-	-	39,825	39,825
Participant loans	-	-	49,162	49,162
Total investment assets at fair value	$ 2,606,505	$ -	$ 88,987	$ 2,695,492

The following table sets forth a summary of the changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

	Level 3 Assets Year Ended December 31, 2009	
	Guaranteed Investment Contracts	Participant Loans
Beginning balance	$ 39,825	$ 49,162
Purchases, sales, issuances, and settlements, net	(34,896)	(2,145)
Ending balance	$ 4,929	$ 47,017

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 – INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Code including amendments to comply with recent legislation (GUST). The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

NOTE 8 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and a money market fund managed by John Hancock Life Insurance Company (U.S.A.). Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the Trustee for administrative expenses amounted to $33,763 for the year ended December 31, 2009.

NOTE 9 – INSURANCE CONTRACTS

The Plan's investments include insurance contracts with John Hancock Life Insurance Company (U.S.A.) in connection with the guaranteed interest accounts. Principal maintains participant directed contributions in the guaranteed interest accounts, which provide a guaranteed interest rate for either a 3 year or a 5 year period. The guaranteed interest accounts are valued at fair value as reported by John Hancock Life Insurance Company (U.S.A.). For withdrawals made before the guaranteed interest rate period matures, there is a possible value adjustment and, therefore, the guaranteed interest accounts are not considered benefit-responsive.

As of December 31, 2009, the following contracts were held in the Plan:

	Fair Value	Weighted-Average Guaranteed Interest Rate
Guaranteed 3-year, maturing 12/31/09	$ 23	3.80%
Guaranteed 3-year, maturing 12/31/10	4,003	2.91%
Guaranteed 5-year, maturing 12/31/11	29	3.88%
Guaranteed 5-year, maturing 12/31/12	496	3.46%
Guaranteed 5-year, maturing 12/31/13	378	1.71%
Total insurance contracts	$ 4,929	

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan provides investment options that hold securities of foreign companies, which may involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.
