SERVICE HOLDINGS LLC RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following brief description of the Service Holdings LLC Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General – The Plan is a defined contribution plan covering all employees of Service Holdings LLC (the Company) who have completed 60 days of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Contributions and Participation – Participants may contribute up to 100% of their annual gross compensation, subject to the limits imposed by the Internal Revenue Code of $17,000 in 2012 and $16,500 in 2011. Age 50 and over participants can contribute an additional $5,500 in 2012 and 2011. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are invested by the trustees into the fund(s) elected by each participant. The Plan currently offers various registered investment companies, a money market fund, and a common/collective trust fund as investment options for the participants.

The Company may make discretionary matching contributions to the Plan prior to the end of each quarter. No matching contributions were made during 2012 and 2011. In addition, at the discretion of management, the Company may also contribute a profit-sharing contribution for active participants at the end of each year. For the years ended December 31, 2012 and 2011, no profit-sharing contributions were made by the Company.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Participants become immediately vested upon permanent disability, death or upon retirement at age 65 or after. Vesting in the Company's contributions is based on the following schedule:

Completed Years of Service	Percent Vested
Less than 1 year of service	0%
1 year of service	20%
2 years of service	40%
3 years of service	60%
4 years of service	80%
5 years of service	100%

1. Description of the Plan (Cont.)

Notes Receivable From Participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less, less the participant's highest outstanding loan balance, if any. Loans are secured by the balance in the participant's account and bear interest at the prevailing rate at the date of inception. Principal and interest installment payments are made through payroll deductions and are payable within 5 years (except for loans used to acquire a principal residence, which are payable within 20 years). Loans outstanding at December 31, 2012 bear interest at rates from 4.25% to 9.25%.

Payment of Benefits – Upon termination of service due to death, disability or retirement, the entire vested balance in a participant's account may be distributed in a lump-sum payment, rolled over into another qualified plan or, if the amount is in excess of $5,000, in substantially equal annual installments as selected by the participant or beneficiary.

Forfeited Accounts – At December 31, 2012 and 2011, forfeited non-vested accounts totaled $1,836 and $8,147, respectively. During the year ended December 31, 2012, $8,541 of forfeitures were used to pay Plan expenses. No forfeitures were used during the year ended December 31, 2011. All forfeitures will be applied to reduce employer discretionary matching contributions to the Plan or to pay the Plan's ordinary and necessary administrative expenses during the plan year. Any remaining forfeitures are to be allocated to participants in the manner described in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are stated at fair value as further described in Note 5. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded as earned on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements – In May 2011, the Financial Accounting Standards Board issued guidance in Accounting Standards Update No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU No. 2011-04). ASU No. 2011-04 was issued to improve comparability of fair value application, measurements and disclosures between U.S. GAAP reporting and IFRS reporting. ASU No. 2011-04 clarifies fair value definitions and enhances fair value measurement guidance with respect to highest and best use measurements, equity instrument measurements, and measurement of financial instruments that are managed within a portfolio. Additionally, ASU No. 2011-04 expands disclosures for unobservable inputs used in Level 3 fair value measurements. ASU No. 2011-04 is effective for annual periods beginning after December 15, 2011. The Plan has adopted this guidance in 2012.

2. Summary of Significant Accounting Policies (Cont.)

Notes Receivable from Participants – Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

Payment of Benefits – Benefit payments to participants are recorded when paid.

Administrative Expenses – Certain expenses of the Plan are paid by the Company and not reimbursed by the Plan. Other administrative expenses are expensed as incurred. Certain investment management fees are included in the net appreciation (depreciation) in fair value of investments.

3. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Trust Company, LLC (formerly Orchard Trust Company, LLC), the trustee of the Plan, has certified that the following information included in the financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011.
- Interest and dividend income, interest from participant notes receivable and net appreciation (depreciation) in fair value of investments as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011.
- Investments, at fair value, and participant loans included in the schedule of assets (held at end of year) as of December 31, 2012.

4. Investments

At December 31, 2012 and 2011, the following presents investments, at fair value, that represent 5% or more of the Plan's net assets available for benefits:

	2012	2011
AllianceBernstein 2020 Retirement Strategy Fund	$ 526,840	$ 620,490
AllianceBernstein 2025 Retirement Strategy Fund	619,252	493,460
AllianceBernstein 2030 Retirement Strategy Fund	556,127	507,331
AllianceBernstein 2035 Retirement Strategy Fund	392,059	325,555
AllianceBernstein 2040 Retirement Strategy Fund	454,234	449,153
AllianceBernstein 2045 Retirement Strategy Fund	482,556	410,148
AllianceBernstein Balanced Wealth Strategy Fund	989,918	863,721
AllianceBernstein International Portfolio Fund	483,468	529,483

4. Investments (Cont.)

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value as follows:

	2012	2011
Common/collective trust fund	$ 8,685	$ (2,213)
Registered investment companies	577,521	(635,791)
	$ 586,206	$ (638,004)

5. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires the plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

The fair values of registered investment companies and money market funds are determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1 inputs).

The determination of the fair value of the common/collective trust fund is determined by the fair value of underlying investments (Level 2 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

		Fair Value Measurements at Reporting Date Using

5. Fair Value Measurements (Cont.)

(a) This common/collective trust invests primarily in corporate stock which has been identified as undervalued when compared to its long-term ability to generate earnings. The investment may be redeemed daily, without prior notice, at the current net asset value per share based on the fair value of the underlying assets.

6. Tax Status

The Plan has adopted a nonstandardized prototype plan sponsored by Great-West Trust Company, LLC (formerly Orchard Trust Company, LLC) which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008. The Plan has been amended since receiving the opinion letter; however, Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Transactions with Parties-In-Interest

Fees of $11,921 and $14,160 paid by the Plan during 2012 and 2011, respectively, for professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

9. Risks and Uncertainties

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31,	
	2012	2011
Net assets available for benefits per the financial statements	$ 6,146,368	$ 5,692,615
Contributions receivable	(578)	-
Net assets available for benefits per the Form 5500	$ 6,145,790	$ 5,692,615

The following is a reconciliation of changes in net assets per the financial statements to the Form 5500:

	December 31,	
	2012	2011
Net increase (decrease) in net assets per the financial statements	$ 453,753	$ (2,394,212)
Beginning of year contributions receivable	-	91,502
End of year contributions receivable	(578)	-
Net increase (decrease) in net assets per the Form 5500	$ 453,175	$ (2,302,710)

11. Late Deposits

During the plan year ended December 31, 2012, the Plan engaged in prohibited transactions related to late deposits of employee deferrals totaling $558, which were included in contributions receivable at December 31, 2012. The Company has calculated late deposits and made the appropriate $578 contribution, which included lost earnings, to the affected participant's account.

12. Subsequent Events

Management has evaluated subsequent events through September 13, 2013, the date the financial statements were available to be issued.
