NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES

The following description of the Pat Kuleto Restaurants & Affiliate Restaurants 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

The Plan is a multiple employer defined contribution plan established in 1999 to provide benefits to eligible employees of a group of affiliated companies collectively known as Pat Kuleto Restaurants, Inc. (the "Company"). Employees are eligible to participate in the Plan after completing six months of service and attaining age twenty-one. Participants may enter the Plan on the first day of any calendar quarter after attaining eligibility.

The Plan is intended to qualify under Section 401(a) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

In June 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles" (the "Codification") effective September 15, 2009. The Codification became the Plan's primary source of authoritative accounting and reporting guidance recognized by the FASB. It also modified the hierarchy of generally accepted accounting principles to include only two levels; authoritative and non-authoritative. The adoption did not have a significant impact on the Plan's financial statements.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

Administration - The Plan has an Administrative Committee (the "Committee") to manage the operation and administration of the Plan. The Committee authorized John Hancock Life Insurance Company ("John Hancock") to serve as custodian and record keeper. Two designated officers of the Company serve as trustees. Certain Plan administrative fees are paid by the Plan and other Plan administrative fees are paid by the Company.

1. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments - Investments of the Plan are held by John Hancock and are invested based solely upon instructions from participants. The Plan's investments in pooled separate accounts are stated at fair value as reported by the Plan's custodian as determined by quoted market prices, which represent the net asset value of shares held by the Plan at year end. The Plan's guaranteed investment contract is recorded at fair value, which approximates contract value. Participant loans are stated at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

U.S. generally accepted accounting principles require investment contracts held by a defined-contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed investment contract through an insurance company. Contract value is the amount paid when funds are withdrawn prior to maturity. Investment in the contract is intended to be held until maturity and early liquidation could result in a termination charge.

U.S. generally accepted accounting principles establish a framework for measuring fair value and provide a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level one measurements) and the lowest priority to unobservable inputs (level three measurements).

Level one: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level two: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level two input must be observable for substantially the full term of the asset or liability.

1. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level three: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's method of valuing investments may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, within the fair value hierarchy of U.S. generally accepted accounting principles, the Plan's investments at fair value as of December 31:

	2009	2008
Level two – Pooled separate accounts	$ 2,096,298	$ 1,465,021
Guaranteed account	18,667	10,653
Level three – Participant loans	8,207	10,738
Total investments at fair value	$ 2,123,172	$ 1,486,412

The following table is a reconciliation of level three investments for which significant unobservable inputs were used to determine fair value:

	2009	2008
Balance as of January 1	$ 10,738	$ 15,836
Loan distributions	9,187	13,562
Repayments, net of $838 and $884 of interest in 2009 and 2008, respectively	(5,624)	(18,657)
Deemed distribution	(6,094)	(3)
Balance as of December 31	$ 8,207	$ 10,738

Participant loans are reported at unpaid balances approximating fair value since there is no existing external exit market for these loans as all transactions are restricted to those between participants and the Plan sponsor and these loans can not be assumed or sold to outside parties. Any participant defaults are deemed taxable distributions to the participant.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Employee contributions - Participants may elect to have the Company contribute up to 100% of their eligible pre-tax compensation to the Plan, subject to maximum amounts allowable under current income tax regulations. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Participants are also allowed to make rollover contributions of amounts received from other tax-qualified retirement plans. Such contributions are invested in accordance with the participant's directions and Plan provisions.

Employer contributions – The Company is allowed to make discretionary matching and profit sharing contributions as defined in the Plan. Allocation of Company matching contributions is based on participant contributions. Allocation of Company profit-sharing contributions is based on the ratio of each individual eligible participant's compensation to the total eligible compensation of all participants for the Plan year. The Company did not make any matching or profit sharing contributions in 2009.

Participant accounts - Each participant's account is credited with the participant's contributions, an allocation of the Company's contributions, if any, Plan earnings or losses, administrative expenses and distributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account balances into various investment options offered under the Plan.

Vesting – Participants are fully vested in their contributions, rollover contributions and related earnings. Vesting in the Company's matching and profit sharing contributions is progressive based on length of service. Participants generally become fully vested in Company contributions over a five year period.

Participants become 100% vested in employer contributions upon death, disability or attainment of normal retirement age while still employed by the Company. Forfeitures may be used to reduce future Company contributions. There were no unallocated forfeitures during the years ended December 31, 2009 and 2008.

Payment of benefits - Benefits are recorded when paid. Benefits under the Plan are limited to the participant's vested account balance and may be paid in a lump-sum amount or in installments at the option of the participant. Participant account balances may generally be withdrawn by, or distributed to, a participant only upon (1) termination of employment, or (2) attaining the normal retirement age of sixty-five. Withdrawals prior to termination or attaining normal retirement age are generally not permitted, except in the event of retirement, hardship, death or total and permanent disability. At December 31, 2009 and 2008, there were no participants that had chosen to withdraw from the Plan awaiting payment of benefits.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Excess contributions refundable – During the year ended December 31, 2009 and 2008, the Plan failed and subsequently corrected certain of its non-discrimination tests. As a result, refunds of excess salary deferral contributions were accrued at December 31, 2009 and 2008, in order to meet compliance testing requirements for participants who had not previously received distributions upon termination prior to the completion of the non-discrimination tests.

Loans to participants - The Plan provides a provision which allows a participant to borrow not less than $1,000, up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's vested balance, bear interest at rates approved by the Committee, and must be repaid to the Plan within five years, except in the case of the purchase of a participant's principal residence whereby the term may not exceed thirty years. The specific terms and conditions of such loans are established by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Subsequent Events – Events or transactions occurring subsequent to year end through the date the financial statements were available to be issued, October 12, 2010, have been evaluated in the preparation of the accompanying financial statements.

2. INCOME TAX STATUS

The amended and restated Plan adopted by the Company in January 2007 is a volume submitter Plan. The Trustees and the Plan Administrator believe the Plan qualifies under and has been operated in compliance with the applicable requirements of the Internal Revenue Code and related state statues, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes. Therefore, no provision for income taxes has been included in the Plan's financial statements.

3. CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, all of the following investment information, including investment income used in the preparation of the accompanying financial statements and supplemental schedule have been certified as complete and accurate by John Hancock, the Plan's custodian, but were not subjected to any auditing procedures performed by independent certified public accountants:

The following table presents the fair market values of investment funds representing 5% or more of the Plan's net assets available for benefits at December 31:

4. PRIORITIES ON TERMINATION

The Company intends to continue the Plan indefinitely for the benefit of its employees. However, it reserves the right to terminate the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities (principally pooled separate accounts), which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

6. PARTY-IN-INTEREST TRANSACTIONS

The majority of the Plan's investments are managed by John Hancock, the Plan's custodian, or its affiliates. Therefore, investment transactions involving these investments qualify as party-in-interest transactions as defined by ERISA.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Plan's Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 2,110,380	$ 1,476,882
Add: Excess contributions payable	12,792	11,503

The following is a reconciliation of corrective distributions paid per the financial statements to the 2009 Form 5500:
