Section 401(k) Profit Sharing Plan

We were engaged to audit the financial statements and supplemental schedule of the Akin Gump Strauss Hauer & Feld, L.L.P. Section 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Retirement Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the cash, investments, investment transactions and related income, which was certified by Benefit Trust Company, State Street Trust Company and Whittier Trust Company, (the "Custodians") of the Plan, except for comparing that information with the related information included in the financial statements and supplemental schedule. We have been informed by the Retirement Committee that the Custodians hold Plan investment assets and execute investment transactions. The Retirement Committee has obtained certifications from the Custodians as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the Retirement Committee by the Custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the accompanying financial statements and supplemental schedule taken as whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

The following description of the Akin Gump Strauss Hauer & Feld, L.L.P. Section 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provision.

General

The Plan is a defined contribution Plan formed under the provision of Section 401(a) of the United States Internal Revenue Code (the "IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, to enable eligible employees (including self-employed individuals, employees and professional corporate partners) of Akin Gump Strauss Hauer & Feld, LLP (the "Partnership") to save and invest funds for retirement.

The Partnership maintains multiple benefit plans. The investment assets of these plans are held and administered by the Comingled Qualified Plans of Akin Gump Strauss Hauer & Feld Master Trust (the "Master Trust"). Each of the plans has an interest in the net assets of the Master Trust and changes therein.

The Plan was amended and restated as of January 1, 2009.

Management has evaluated subsequent events through October 12, 2010, which is the date the financial statements were available to be issued.

Plan Administration

The Partnership's Retirement Committee (the "Committee") is responsible for administrating the Plan. Employees of the Partnership are eligible to participate upon hire provided they are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). . Certain expenses incurred in the administration of the Plan in 2009 were paid by the Partnership.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation as defined in the Plan, subject to the dollar limitation under §402(g) of the IRC. The Plan permits pre-tax deferral contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan has an automatic enrollment feature. Employees and participants can elect to stop or change this automatic contribution.

Partnership contributions shall be made to the Plan at the Partnership's sole discretion. The Partnership may designate any portion of a contribution as a Partnership matching contribution, profit sharing contribution, discretionary profit sharing contribution, qualified non-elective contribution or a qualified matching contribution.

In 2009, the Partnership made a matching contribution equal to ten percent of Participant's salary reduction contributions for participants who are not "non-partner attorneys", made salary reduction contributions of at least three percent of compensation, completed a minimum of 1,000 hours of service, and who were employed on December 31. Matching contributions totaled $713,182. In addition discretionary profit sharing contributions of $6,734,873 were made for participants. Partners' profit sharing contributions totaled $5,954,050.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching and other contributions, as well as the participant's share of investment income, appreciation (depreciation) and any related administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are vested immediately in their rollover, salary reduction, qualified non-elective and qualified matching accounts. Vesting in their profit sharing account is based on years of vesting service. A Participant is fully vested after six years of credited service.

Investment Options

The Plan invests in cash and cash equivalents, government securities, corporate bonds, mutual funds and stocks which are managed by outside investment managers. In 2009 and 2008, the Plan also invested in limited partnerships. Some of these investments are held in a master trust (the "Master Trust") under the terms of a trust agreement with the Partnership. The Plan provides for self-directed investment programs for participants (the "Segregated Accounts").

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the Participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Committee. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution or a direct rollover of the Participant's vested account balance. Participants with accounts transferred from the Target Benefit Plan may choose to receive their distribution from the Target Benefit Contribution Account in either a lump-sum distribution or an annuity. In addition, hardship and in-service withdrawals are permitted if certain criteria are met. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $201,288 and $326,424, respectively. These accounts will be used to reduce future employer contributions to the Plan and/or to pay administrative expenses of the Plan. During the year ended December 31, 2009, forfeitures of $335,783 were used to reduce the 2009 employer's contribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied by the Plan in the preparation of the accompanying financial statements is as follows:

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. The investments in the limited partnerships are carried at a value as determined by the limited partnerships' general partner and evaluated by the Committee. Changes in market value are reflected in operations. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Investment in the Master Trust is valued at the Plan's proportionate share of the fair value of underlying assets of the Master Trust as determined by quoted market value. Earnings from the Master Trust are the Plan's proportionate share of the Master Trust's earnings. The Plan's proportionate share of the Master Trust and Commingled Assets may vary during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

The SSGA Stable Value Fund (the "Stable Value Fund") consists primarily of investments in several fixed-income categories, including U.S. Treasuries, government agency securities, corporate debt, asset-backed securities, and mortgage-backed securities. The Stable Value Fund also purchases third party wrap contracts and investment contracts offered by insurance companies and other approved financial institutions that provide for the payment of a specified rate of interest. The Stable Value Fund is considered to be fully benefit-responsive, and the wrap and investment contracts in the fund assure that payments will be made for participant directed withdrawals at contract value. In determining the net assets available for benefits, the Stable Fund is included in the accompanying financial statement at contract value, which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses The average yield to maturity and crediting interest rate for the fund was approximately 2.15% and 3.18% at December 31, 2009 and 2.65% and 3.64 at December 31, 2008.

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the constant net asset value of $1 per unit. It is the policy of the Stable Value Fund to use its best efforts to maintain a stable net asset value of $1 per unit; although there is no guarantee that the Stable Value Fund will be able to maintain this value. Stable Value Fund's objective is preserving principal while earning interest income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract is included in the statements of net assets available for benefits at estimated fair value. There are no reserves against contract value for credit risk.

The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are adjusted on a daily basis. The Stable Value Fund imposes certain restrictions on the Plan, and the Stable Value Fund itself may be subject to circumstances that impact its ability to transact at contract value. Such events include: the Plan's failure to qualify under section 401(a) of the Internal Revenue Code; the establishment of a plan or similar fund that competes for employee contributions; changes in laws or regulations that could have a material adverse effect on the Stable Value Fund's cash flow; communication to participants influencing them to not invest in the Stable Value Fund. Plan management believes that the occurrence of events that would cause the Stable Value Fund to transact at less than contract value is not probable.

The Plan reports its interests in fully benefit-responsive investment contracts at fair value in the statements of net assets available for benefits. In addition, any material difference between the fair value of these investments and their contract value is to be presented as a separate adjustment line in the statement of net assets available for benefits, because contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to intiate permitted transactions under the terms of the Plan.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments includes realized and unrealized investment gains and losses.

Brokerage fees, if any, are added to the acquisition cash of assets purchased and subtracted from the proceeds of assets sold.

3. INVESTMENTS IN COMMINGLED ASSETS

Commingled Assets are directed by the Committee. Accordingly they are non-participant directed. They are held separately from interests in the Master Trust. The Custodian has not certified that the data for the Partnerships in the Commingled Assets is complete and accurate.

Aggregate cost of investments in Commingled Assets attributable to this Plan is approximately $126,117,054 and $124,598,324 as of December 31, 2009 and 2008, respectively.

Investments attributable to this Plan in excess of five percent of net assets as of December 31 were as follows:

	2009	2008
Non-participant directed:		
Interest in Master Trust	$ 21,082,722	$ 15,260,862

The Plan's share of the Commingled Assets appreciated in value as follows during the year ended December 31, 2009:

Mutual funds	$ 7,864,799
Investments in limited partnerships	9,360,349
	$ 17,225,148

4. INVESTMENT ASSETS HELD IN THE MASTER TRUST

Master Trust investments are directed by the Committee, accordingly they are non-participant directed.

Investment assets held in the Master Trust consisted of the following at December 31:

	2009		2008	
	Cost	Fair Value	Cost	Fair Value
Cash and cash equivalents	$ 999,040	$ 999,040	$ 1,439,841	$ 1,439,841
Common and preferred stock	29,259,804	30,779,058	32,058,656	23,021,329
Allocable assets in Master Trust	30,258,844	31,778,098	33,498,497	24,461,170
Specific plan liabilities in the Master Trust	-	-	-	-
Net assets in Master Trust	$ 30,258,844	$ 31,778,098	$ 33,498,497	$ 24,461,170

The Plan had a 66.34% and 62.39% interest in the Master Trust as of December 31, 2009 and 2008, respectively.

Following is a summary of the changes in net assets available for beneifts at fair value held in the Master Trust during the year ended December 31, 2009:

Additions	
Interest	$ 8,175
Dividends	337,045
Net appreciation in fair value of investments	7,982,682
Total additions	8,327,902
Deductions	
Net transfers out of the Master Trust	214,304
Administrative expenses	796,670
Total deductions	1,010,974
Net increase in net assets	7,316,928
Net assets available for benefits, beginning of year	24,461,170
Net assets available for benefits, end of year	$ 31,778,098

4. INVESTMENT ASSETS HELD IN THE MASTER TRUST (Continued)

Net investment income of the Master Trust is allocated daily to each participating plan using the best available information.

During 2009, the investments of the Master Trust, including those bought, sold or held during the year, appreciated in value by $7,982,682, which is solely attributable to the change in value of the common and preferred stock held by the Master Trust.

The Committee has elected the method of annual reporting compliance permitted by 29 CPR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the above data is complete and accurate as of and for the years ended December 31, 2009 and 2008

The Master Trust's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. INFORMATION IN PARTICIPANT DIRECTED ASSETS CERTIFIED BY THE PLAN'S CUSTODIAN

The Custodian has certified that the following data for the participant directed investment assets held is complete and accurate as of and for the years ended December 31,:

	2009	2008
Investments, at fair value:		
Mutual funds	$ 128,354,863	$ 106,960,850
Segregated accounts	10,650,999	9,218,487
Participant loans	2,457,410	2,604,504
Total investments at fair value	$ 141,463,272	$ 118,783,841

	2009
Investment income:	
Interest and dividends	$ 2,769,789
Net appreciation in fair value of investments	16,316,138
	$ 19,085,927

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. INVESTMENTS – PARTICIPANT DIRECTED

Investments attributable to this Plan in excess of five percent of net assets as of December 31 were as follows:

	2009	2008
SSGA S&P 500 Index Fund	$ 18,831,437	$ -
SSGA Stable Value Fund	18,239,200	16,581,970

7. FAIR VALUE OF INVESTMENTS

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures* (formally FASB Statement No. 157), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

7. FAIR VALUE OF INVESTMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009 and 2008.

Cash and cash equivalents: The net asset value of these accounts is based upon the underlying value of the U.S. dollar and interest credited at the prevailing rate.

Stable Value Fund: Valued at the net asset value of units held by the Plan at year end. The net asset value of these accounts is based on the market value of its underlying investments. The net asset value is not a publicly-quoted price in an active market.

Mutual funds – trustee-directed: Valued at the net asset value of shares held by the Plan at year end.

Mutual funds – participant-directed: Valued at the net asset value of shares held by the Plan at year end.

Master trust interest: Valued at the net asset value of the underlying securities.

Segregated accounts: Valued at the net asset value of the underlying securities.

Limited partnerships: Value is determined by the general partner as based on the value of the underlying assets.

Participant loans: Held at amortized cost which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts and estimated fair values of the Plan's financial instruments, none of which are held for trading purposes, as of December 31, 2009 are as follows:

	Carrying Amount	Significant Other Observable Inputs (Level 2)
Employer contributions receivable – non-participant directed	$ 12,688,923	$ 12,688,923
Participant contributions receivable – participant directed	1,603,702	1,603,702
Employer contributions receivable – participant directed	425,311	425,311
	$ 14,717,936	$ 14,717,936

The carrying amounts shown in the above table are included in the statement of net assets available for benefits under the indicated captions. The carrying amounts approximate fair value due to their short maturities.

9. TAX STATUS

The United States Internal Revenue Service has determined and informed the Partnership by a letter dated August 15, 2003 that the Plan and the related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Committee believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. The partnership has filed timely for a new determination letter as of January 1, 2009.

10. REPORTABLE TRANSACTIONS

Plan management has been informed that during October 2008 the investment custodian purchased certain asset-backed and mortgage-backed securities from its stable value funds, including the SSGA Stable Value Fund held as a participant-directed investment by the Plan, and made a cash contribution to these funds. Under DOL regulations, these transactions may be classified as reportable transactions. The custodian has made filings with the DOL applying for an exemption in connection with these transactions. However, a final exemption has not been received as of October 12, 2010, the date that these financial statements were available for release.

There were no investments both acquired and disposed of during the Plan year, loans or leases in default or classified as uncollectible or non-exempt transactions during the year ended December 31, 2009 that require disclosure under DOL Rules and Regulations.

11. PLAN TERMINATION

Although it has not expressed any intent to do so, the Partnership has the right under the Plan agreement to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA.

Upon termination of the Plan, the rights of all participants to benefits accrued to the date of such termination, to the extent funded, shall be fully vested and shall be distributed to the participant or beneficiary entitled thereto.

12. COMMITMENTS

During the years ended December 31, 2009 and 2008, the Plan Custodian invested funds in a private equity interest as part of non-participant-directed investments. As of the years ended December 31, 2009 and 2008, the Custodian has committed to invest an additional $5,264,603 and $3,778,426 in this private equity fund in accordance with the terms of the contract.

13. NEW ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles ("ASC"). The purpose of the ASC is to provide a single source of authoritative generally accepted accounting principles. As the ASC was not intended to alter existing accounting principles, the adoption did not have a material impact on the Plan

13. NEW ACCOUNTING PRONOUNCEMENTS (Continued)

In April 2009, the FASB issued an update to the guidance under the ASC, Fair Value Measurements and Disclosures Topic for determining fair value when the volume and level of activity for an asset or liability has significantly decreased and identifying circumstances that indicate a transaction is not orderly. The adoption did not have a material impact on the Plan.

In May 2009, the FASB issued the Subsequent Events Topic of the ASC to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, the Subsequent Events Topic sets forth: (i) the period after the balance sheet date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (ii) the circumstances under which an entity shall recognize events or transactions occurring after the balance sheet date in its financial statements; and (iii) the disclosures that an entity shall make about events or transactions that occurred after the balance sheet date. The adoption did not have a material impact on the Plan.

In September 2009, the FASB issued guidance that expands the required disclosures for certain investments with a reported net asset value. This guidance provides a practical expedient for measuring the fair values of Plan investments in a limited number of entities that calculate a net asset value per share (such as hedge funds, private equity funds, real estate funds, venture capital funds, funds of funds, and certain collective trusts, and pooled separate accounts). The adoption of the guidance had no material impact on the Plan.

14. SUBSEQUENT EVENTS

Subsequent to year end, the separate trust agreements previously maintained for each Plan were merged to form the Master Trust for all plans combined. All non participant directed assets not previously held with Benefit Trust Company, the Plan custodian, were transferred to the custodian and were allocated to the multiple plans sponsored by the Partnership. State Street Bank and Trust Company acts as sub-custodian for these assets for plan benefit distribution purposes and continues to hold participant directed assets.

Section 401(k) Profit Sharing Plan

We were engaged to audit the financial statements and supplemental schedule of the Akin Gump Strauss Hauer & Feld, L.L.P. Section 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Retirement Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the cash, investments, investment transactions and related income, which was certified by Benefit Trust Company, State Street Trust Company and Whittier Trust Company, (the "Custodians") of the Plan, except for comparing that information with the related information included in the financial statements and supplemental schedule. We have been informed by the Retirement Committee that the Custodians hold Plan investment assets and execute investment transactions. The Retirement Committee has obtained certifications from the Custodians as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the Retirement Committee by the Custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the accompanying financial statements and supplemental schedule taken as whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

The following description of the Akin Gump Strauss Hauer & Feld, L.L.P. Section 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provision.

General

The Plan is a defined contribution Plan formed under the provision of Section 401(a) of the United States Internal Revenue Code (the "IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, to enable eligible employees (including self-employed individuals, employees and professional corporate partners) of Akin Gump Strauss Hauer & Feld, LLP (the "Partnership") to save and invest funds for retirement.

The Partnership maintains multiple benefit plans. The investment assets of these plans are held and administered by the Comingled Qualified Plans of Akin Gump Strauss Hauer & Feld Master Trust (the "Master Trust"). Each of the plans has an interest in the net assets of the Master Trust and changes therein.

The Plan was amended and restated as of January 1, 2009.

Management has evaluated subsequent events through October 12, 2010, which is the date the financial statements were available to be issued.

Plan Administration

The Partnership's Retirement Committee (the "Committee") is responsible for administrating the Plan. Employees of the Partnership are eligible to participate upon hire provided they are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). . Certain expenses incurred in the administration of the Plan in 2009 were paid by the Partnership.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation as defined in the Plan, subject to the dollar limitation under §402(g) of the IRC. The Plan permits pre-tax deferral contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan has an automatic enrollment feature. Employees and participants can elect to stop or change this automatic contribution.

Partnership contributions shall be made to the Plan at the Partnership's sole discretion. The Partnership may designate any portion of a contribution as a Partnership matching contribution, profit sharing contribution, discretionary profit sharing contribution, qualified non-elective contribution or a qualified matching contribution.

In 2009, the Partnership made a matching contribution equal to ten percent of Participant's salary reduction contributions for participants who are not "non-partner attorneys", made salary reduction contributions of at least three percent of compensation, completed a minimum of 1,000 hours of service, and who were employed on December 31. Matching contributions totaled $713,182. In addition discretionary profit sharing contributions of $6,734,873 were made for participants. Partners' profit sharing contributions totaled $5,954,050.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching and other contributions, as well as the participant's share of investment income, appreciation (depreciation) and any related administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are vested immediately in their rollover, salary reduction, qualified non-elective and qualified matching accounts. Vesting in their profit sharing account is based on years of vesting service. A Participant is fully vested after six years of credited service.

Investment Options

The Plan invests in cash and cash equivalents, government securities, corporate bonds, mutual funds and stocks which are managed by outside investment managers. In 2009 and 2008, the Plan also invested in limited partnerships. Some of these investments are held in a master trust (the "Master Trust") under the terms of a trust agreement with the Partnership. The Plan provides for self-directed investment programs for participants (the "Segregated Accounts").

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the Participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Committee. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution or a direct rollover of the Participant's vested account balance. Participants with accounts transferred from the Target Benefit Plan may choose to receive their distribution from the Target Benefit Contribution Account in either a lump-sum distribution or an annuity. In addition, hardship and in-service withdrawals are permitted if certain criteria are met. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $201,288 and $326,424, respectively. These accounts will be used to reduce future employer contributions to the Plan and/or to pay administrative expenses of the Plan. During the year ended December 31, 2009, forfeitures of $335,783 were used to reduce the 2009 employer's contribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied by the Plan in the preparation of the accompanying financial statements is as follows:

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. The investments in the limited partnerships are carried at a value as determined by the limited partnerships' general partner and evaluated by the Committee. Changes in market value are reflected in operations. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Investment in the Master Trust is valued at the Plan's proportionate share of the fair value of underlying assets of the Master Trust as determined by quoted market value. Earnings from the Master Trust are the Plan's proportionate share of the Master Trust's earnings. The Plan's proportionate share of the Master Trust and Commingled Assets may vary during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

The SSGA Stable Value Fund (the "Stable Value Fund") consists primarily of investments in several fixed-income categories, including U.S. Treasuries, government agency securities, corporate debt, asset-backed securities, and mortgage-backed securities. The Stable Value Fund also purchases third party wrap contracts and investment contracts offered by insurance companies and other approved financial institutions that provide for the payment of a specified rate of interest. The Stable Value Fund is considered to be fully benefit-responsive, and the wrap and investment contracts in the fund assure that payments will be made for participant directed withdrawals at contract value. In determining the net assets available for benefits, the Stable Fund is included in the accompanying financial statement at contract value, which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses The average yield to maturity and crediting interest rate for the fund was approximately 2.15% and 3.18% at December 31, 2009 and 2.65% and 3.64 at December 31, 2008.

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the constant net asset value of $1 per unit. It is the policy of the Stable Value Fund to use its best efforts to maintain a stable net asset value of $1 per unit; although there is no guarantee that the Stable Value Fund will be able to maintain this value. Stable Value Fund's objective is preserving principal while earning interest income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract is included in the statements of net assets available for benefits at estimated fair value. There are no reserves against contract value for credit risk.

The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are adjusted on a daily basis. The Stable Value Fund imposes certain restrictions on the Plan, and the Stable Value Fund itself may be subject to circumstances that impact its ability to transact at contract value. Such events include: the Plan's failure to qualify under section 401(a) of the Internal Revenue Code; the establishment of a plan or similar fund that competes for employee contributions; changes in laws or regulations that could have a material adverse effect on the Stable Value Fund's cash flow; communication to participants influencing them to not invest in the Stable Value Fund. Plan management believes that the occurrence of events that would cause the Stable Value Fund to transact at less than contract value is not probable.

The Plan reports its interests in fully benefit-responsive investment contracts at fair value in the statements of net assets available for benefits. In addition, any material difference between the fair value of these investments and their contract value is to be presented as a separate adjustment line in the statement of net assets available for benefits, because contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to intiate permitted transactions under the terms of the Plan.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments includes realized and unrealized investment gains and losses.

Brokerage fees, if any, are added to the acquisition cash of assets purchased and subtracted from the proceeds of assets sold.

3. INVESTMENTS IN COMMINGLED ASSETS

Commingled Assets are directed by the Committee. Accordingly they are non-participant directed. They are held separately from interests in the Master Trust. The Custodian has not certified that the data for the Partnerships in the Commingled Assets is complete and accurate.

Aggregate cost of investments in Commingled Assets attributable to this Plan is approximately $126,117,054 and $124,598,324 as of December 31, 2009 and 2008, respectively.

Investments attributable to this Plan in excess of five percent of net assets as of December 31 were as follows:

	2009	2008
Non-participant directed:		
Interest in Master Trust	$ 21,082,722	$ 15,260,862

The Plan's share of the Commingled Assets appreciated in value as follows during the year ended December 31, 2009:

Mutual funds	$ 7,864,799
Investments in limited partnerships	9,360,349
	$ 17,225,148

4. INVESTMENT ASSETS HELD IN THE MASTER TRUST

Master Trust investments are directed by the Committee, accordingly they are non-participant directed.

Investment assets held in the Master Trust consisted of the following at December 31:

	2009		2008	
	Cost	Fair Value	Cost	Fair Value
Cash and cash equivalents	$ 999,040	$ 999,040	$ 1,439,841	$ 1,439,841

Net assets available for benefits, beginning of year	24,461,170
Net assets available for benefits, end of year	$ 31,778,098

4. INVESTMENT ASSETS HELD IN THE MASTER TRUST (Continued)

Net investment income of the Master Trust is allocated daily to each participating plan using the best available information.

During 2009, the investments of the Master Trust, including those bought, sold or held during the year, appreciated in value by $7,982,682, which is solely attributable to the change in value of the common and preferred stock held by the Master Trust.

The Committee has elected the method of annual reporting compliance permitted by 29 CPR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the above data is complete and accurate as of and for the years ended December 31, 2009 and 2008

The Master Trust's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. INFORMATION IN PARTICIPANT DIRECTED ASSETS CERTIFIED BY THE PLAN'S CUSTODIAN

The Custodian has certified that the following data for the participant directed investment assets held is complete and accurate as of and for the years ended December 31,:

	2009	2008
Investments, at fair value:		
Mutual funds	$ 128,354,863	$ 106,960,850

6. INVESTMENTS – PARTICIPANT DIRECTED

Investments attributable to this Plan in excess of five percent of net assets as of December 31 were as follows:

	2009	2008
SSGA S&P 500 Index Fund	$ 18,831,437	$ -
SSGA Stable Value Fund	18,239,200	16,581,970

7. FAIR VALUE OF INVESTMENTS

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures* (formally FASB Statement No. 157), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

7. FAIR VALUE OF INVESTMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009 and 2008.

Cash and cash equivalents: The net asset value of these accounts is based upon the underlying value of the U.S. dollar and interest credited at the prevailing rate.

Stable Value Fund: Valued at the net asset value of units held by the Plan at year end. The net asset value of these accounts is based on the market value of its underlying investments. The net asset value is not a publicly-quoted price in an active market.

Mutual funds – trustee-directed: Valued at the net asset value of shares held by the Plan at year end.

Mutual funds – participant-directed: Valued at the net asset value of shares held by the Plan at year end.

Master trust interest: Valued at the net asset value of the underlying securities.

Segregated accounts: Valued at the net asset value of the underlying securities.

Limited partnerships: Value is determined by the general partner as based on the value of the underlying assets.

Participant loans: Held at amortized cost which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts and estimated fair values of the Plan's financial instruments, none of which are held for trading purposes, as of December 31, 2009 are as follows:

	Carrying Amount	Significant Other Observable Inputs (Level 2)
Employer contributions receivable – non-participant directed	$ 12,688,923	$ 12,688,923
Participant contributions receivable – participant directed	1,603,702	1,603,702
Employer contributions receivable – participant directed	425,311	425,311
	$ 14,717,936	$ 14,717,936

The carrying amounts shown in the above table are included in the statement of net assets available for benefits under the indicated captions. The carrying amounts approximate fair value due to their short maturities.

9. TAX STATUS

The United States Internal Revenue Service has determined and informed the Partnership by a letter dated August 15, 2003 that the Plan and the related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Committee believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. The partnership has filed timely for a new determination letter as of January 1, 2009.

10. REPORTABLE TRANSACTIONS

Plan management has been informed that during October 2008 the investment custodian purchased certain asset-backed and mortgage-backed securities from its stable value funds, including the SSGA Stable Value Fund held as a participant-directed investment by the Plan, and made a cash contribution to these funds. Under DOL regulations, these transactions may be classified as reportable transactions. The custodian has made filings with the DOL applying for an exemption in connection with these transactions. However, a final exemption has not been received as of October 12, 2010, the date that these financial statements were available for release.

There were no investments both acquired and disposed of during the Plan year, loans or leases in default or classified as uncollectible or non-exempt transactions during the year ended December 31, 2009 that require disclosure under DOL Rules and Regulations.

11. PLAN TERMINATION

Although it has not expressed any intent to do so, the Partnership has the right under the Plan agreement to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA.

Upon termination of the Plan, the rights of all participants to benefits accrued to the date of such termination, to the extent funded, shall be fully vested and shall be distributed to the participant or beneficiary entitled thereto.

12. COMMITMENTS

During the years ended December 31, 2009 and 2008, the Plan Custodian invested funds in a private equity interest as part of non-participant-directed investments. As of the years ended December 31, 2009 and 2008, the Custodian has committed to invest an additional $5,264,603 and $3,778,426 in this private equity fund in accordance with the terms of the contract.

13. NEW ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles ("ASC"). The purpose of the ASC is to provide a single source of authoritative generally accepted accounting principles. As the ASC was not intended to alter existing accounting principles, the adoption did not have a material impact on the Plan

13. NEW ACCOUNTING PRONOUNCEMENTS (Continued)

In April 2009, the FASB issued an update to the guidance under the ASC, Fair Value Measurements and Disclosures Topic for determining fair value when the volume and level of activity for an asset or liability has significantly decreased and identifying circumstances that indicate a transaction is not orderly. The adoption did not have a material impact on the Plan.

In May 2009, the FASB issued the Subsequent Events Topic of the ASC to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, the Subsequent Events Topic sets forth: (i) the period after the balance sheet date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (ii) the circumstances under which an entity shall recognize events or transactions occurring after the balance sheet date in its financial statements; and (iii) the disclosures that an entity shall make about events or transactions that occurred after the balance sheet date. The adoption did not have a material impact on the Plan.

In September 2009, the FASB issued guidance that expands the required disclosures for certain investments with a reported net asset value. This guidance provides a practical expedient for measuring the fair values of Plan investments in a limited number of entities that calculate a net asset value per share (such as hedge funds, private equity funds, real estate funds, venture capital funds, funds of funds, and certain collective trusts, and pooled separate accounts). The adoption of the guidance had no material impact on the Plan.

14. SUBSEQUENT EVENTS

Subsequent to year end, the separate trust agreements previously maintained for each Plan were merged to form the Master Trust for all plans combined. All non participant directed assets not previously held with Benefit Trust Company, the Plan custodian, were transferred to the custodian and were allocated to the multiple plans sponsored by the Partnership. State Street Bank and Trust Company acts as sub-custodian for these assets for plan benefit distribution purposes and continues to hold participant directed assets.
