REPORT OF INDEPENDENT AUDITORS

Plan Administrator
Intercredit Bank, N.A. 401(k) Plan
Miami, Florida

We were engaged to audit the financial statements and supplemental schedule of Intercredit Bank, N.A. 401(k) Plan as of December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certification from the custodian as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Intercredit Bank, N.A. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is established by the plan sponsor, Intercredit Bank, N.A (the Bank). The Plan is a defined contribution plan, which covers all employees since their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan and subject to certain limitations. Each participant is automatically enrolled with a deferral of 1% as of the participation date unless he or she chooses a different percentage or not to defer. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Bank contributed 100% of the first 6% of base compensation that a participant contributes to the Plan at the beginning of the year. Effective March, 12, 2009, the Bank contributes 100% of the first 1% of a participant's eligible compensation. Additional profit sharing amounts may be contributed at the option of the Bank's board of directors. No profit sharing contribution was authorized for the year ended December 31, 2009. Contributions are subject to certain limitations. Plan participants direct the investment of their contributions, the employer contributions and profit sharing contributions into the various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) the Bank's contributions, (b) Plan earnings, and (c) forfeitures of employer profit sharing contributions, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in all participant and employer matching contributions plus actual earnings thereon. The vesting period for any profit sharing amounts and related earnings is 20% after the completion of one year of credited service and 20% for each subsequent year of credited service. Accordingly, a participant will be 100% vested after five years of credited service.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant or his or her beneficiary may elect to receive the vested portion in the participant's account in a lump-sum distribution or in installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Loan Provisions: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions.

Forfeitures: Participant forfeitures of employer profit sharing contributions are reallocated to the remaining participants, based upon their relative account balances. Forfeitures of employer matching contributions are used to offset future employer matching contributions or administrative expenses of the Plan. Forfeitures were immaterial for 2009 and 2008.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments, other than participant loans, are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 – RIGHTS UPON PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and, although it has not expressed any intent to do so, to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer profit sharing contributions and earnings thereon.

NOTE 4 – INVESTMENTS – UNAUDITED INFORMATION

The Principal Life Insurance Company, the custodian of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments included in the financial statements has been certified by them. This information has not been audited by independent accountants.

The following presents the fair values of investments that represent 5% or more of the Plan's net assets available for benefits.

	December 31, 2009	December 31, 2008
Principal Guaranteed Interest Account	$ 282,075*	$ 317,887*

(1) This account does not represent 5 percent or more of the Plan's net assets. This is only presented for comparison purposes.

* Party-in-interest

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Year ended December 31, 2009
Guaranteed interest account	$ (2,695)
Pooled separate accounts	164,734
Net appreciation	$ 162,039

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 inputs) and gives the lowest priority to unobservable inputs (level 3 inputs). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of its investments.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts, other than the U.S. Property Separate account (RE Fund), are based on their net asset values reported by the fund managers of the pooled separate accounts as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (level 2 inputs). With the exception of the RE Fund, each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit. Due to illiquidity of the underlying assets of the RE Fund, which consist primarily of commercial real estate and includes mortgage loans which are backed by the associated properties, Principal Financial Group (Principal) has imposed a withdrawal limitation effective September 26, 2008 upon all withdrawals and loans from the RE Fund other than distributions upon death, disability or normal retirement age. Partial distributions are being made periodically on a pro-rata basis and are based on unit values at the time of payment. Amounts are subject to the Withdrawal Limitation for up to three years. While the fair value of the Plan's interest in the RE Fund has been determined based upon the net asset value of the RE Fund, this fair value measurement is reported as including level 3 inputs because of the nature of the redemption restrictions.

(Continued)

NOTE 5 – FAIR VALUE MEASUREMENTS (Continued)

The following are descriptions of the investment strategies of the Plan's investment in pooled separated accounts:

Domestic fixed income funds: The underlying investment strategies of these types of pooled separate accounts are investments in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and US government and agency-backed securities. Some may invest in securities that are AAA rated or issued by the U.S. government, its agencies or municipalities.

Target retirement date funds: The underlying investment strategies for these types of pooled separate accounts are investments in underlying Principal domestic and foreign equity, hybrid, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. The fund may invest in any of the Institutional class shares of the equity funds or fixed-income funds of Principal Funds, at the sub-advisor's discretion.

Large capital equity funds: The underlying investment strategies for these types of pooled separate accounts are investments in domestic and foreign common stock of large capitalization companies listed on the Russell 1000 Value, Russell Growth or on the S&P Index.

Mid capital equity funds: The underlying investment strategies for these types of pooled separate accounts are investments mainly in domestic and/or foreign common stock of medium capitalization companies listed on the Russell MidCap, Russell MidCap Value, or on the Russell MidCap Growth Index.

Small capital equity funds: The underlying investment strategies for these types of pooled separate accounts are investments mainly in domestic and some in foreign common stock of small capitalization companies listed on the Russell 2000, Russell 2000 Growth, or on the Russell 2000 Value Index.

Foreign equity funds: The underlying investment strategies for these types of pooled separate accounts are investments in equity securities of companies with their principal place of business or principal office outside of the United States.

Investment contract: The fair value of the contract has been estimated based upon a discounted cash flows methodology, utilizing current rates of return available for similar contracts, with comparable credit risks and liquidity, as of the respective financial statement dates (level 3 inputs).

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

(Continued)

NOTE 5 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments other than participant loans measured at fair value on a recurring basis are summarized below.

	Fair Value Measurements at December 31, 2009 Using

Balance, December 31, 2009	$148,554	$282,075	$430,629

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds investments managed by Principal Life Insurance Company. Principal is the Plan custodian and, therefore, these transactions and the Plan's payment of administrative fees to Principal qualify as party-in-interest transactions. Participant loans held by the Plan are also considered party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

(Continued)

NOTE 7 - TAX STATUS

The Intercredit Bank, N.A. 401(k) Plan uses a prototype plan developed by Principal Life Insurance Company. The Internal Revenue Service has determined and informed Principal Life Insurance Company by a letter dated March 31, 2008, that the prototype plan was designed in accordance with the applicable sections of the Internal Revenue Code (IRC) for tax-exempt status. Although the Plan has been amended since the letter was received, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. However, during the 2009 Plan year management determined that they had inadvertently disallowed eligible part-time employees from participating in the Plan. Plan management is currently working with legal counsel to determine the impact, if any, to the Plan.

NOTE 8 – SUBSEQUENT EVENTS

Effective January 1, 2010, the Bank suspended its matching on employee contributions indefinitely.

Plan management has evaluated subsequent events for recognition and disclosure through October 6, 2010, which is the date the financial statements were available to be issued.
