To the Trustees of the Biagi Bros. 401(k) Profit Sharing Plan
Napa, California

We were engaged to audit the financial statements and supplemental schedule of **Biagi Bros. 401(k) Profit Sharing Plan** (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Great West Life & Annuity Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from Great West Life & Annuity Insurance Company as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A. Description of the Plan

The following brief description of the Biagi Bros. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement and subsequent amendments for a more complete description of the Plan's provisions.

General

The Plan is an integrated profit sharing plan covering substantially all full-time employees of Biagi Bros. Inc., Biagi Warehousing Florida, Inc., Biagi Warehousing, Inc., Biagi Bros. Colorado, Inc., and Biagi Bros. Virginia, Inc., (collectively, the "Employer") who have attained age twenty-one and have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration

The Employer is the Plan's named fiduciary and administrator. Contributions and withdrawals for the year ended December 31, 2009 were processed by Great West Life and Annuity Insurance Company ("Great West"). Great West holds the Plan's assets and prepares quarterly statements for participants which include the amounts for contributions, realized and unrealized investment earnings, disbursements, transfers and market value of investments.

Contributions

Participants may contribute up to twenty-five percent of compensation, as defined in the Plan, subject to an Internal Revenue Code ("IRC") limitation of $16,500 in 2009. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions of up to $5,500 in 2009.

The Employer matches fifty percent of the first five percent of compensation that a participant contributes to the Plan within a payroll period.

Employer Non-Elective Contributions

The Employer may contribute, on a discretionary basis, profit-sharing contributions to the Plan in an amount determined by the Employer at its discretion. Participants must be employed on the last day of the Plan year and have completed 1,000 hours within the year to receive these discretionary contributions. The Employer did not make any such contributions in 2009.

Qualified Non-Elective Employer Contributions

The Employer may contribute, on a discretionary basis, an amount it designates as a qualified non-elective contribution to participants. To the extent contributions are so designated, they are only allocated to non-highly compensated employees. The Employer made no such contributions during 2009.

Note A. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of any matching and/or discretionary contributions by the Employer, and Plan earnings. The investment direction for the account is provided by the participant.

Vesting

Participants are immediately vested in their contributions, rollover and transfer contributions, plus actual earnings thereon. Vesting in the Employer's contributions, plus actual earnings thereon, is based on years of continuous service. A participant is vested in Employer nonelective contributions after six years of credited service.

Forfeited Amounts

The Plan allocates forfeitures of profit sharing contributions to remaining participants as if the forfeitures were additional Employer profit sharing contributions for the plan year in which the forfeitures occur. Forfeitures of matching contributions are allocated to remaining participants as a reduction of the matching contributions otherwise made for the plan year in which the forfeiture occurs. At December 31, 2009, forfeited nonvested amounts totaled $2,627.

Loans to Participants

Participants may borrow from their vested account balances, subject to certain limits set forth in the Plan document and the IRC and the approval of the Employer. The amounts borrowed are secured by the participants' vested account balances. The loans bear a fixed interest rate based on the prime rate as published in the Wall Street Journal on the first business day of the month before the loan is originated plus 1%. Repayments of loans are made by payroll deductions in equal installments over the life of the loan.

Investment Options

Participants may elect to have all of their employer and participant contributions invested in a single investment fund or in any combination of investment funds. The investment funds are held and managed by Great West. The following is a brief description of the investment funds available to the participants as of December 31, 2009:

- *Alger Mid Cap Growth Fund Institutional* seeks long-term capital appreciation. To achieve its objective, the fund invests primarily in the equity securities of medium-capitalization companies.
- *American Funds Capital World* seeks long-term growth of capital while providing current income.
- *American Funds Europacific Fund,* seeks long term growth of capital, and invests primarily in stocks of issuers located in Europe and the Pacific Basin.

Note A. Description of the Plan (continued)

Investment Options (continued)

- *American Funds Growth Fund,* seeks capital growth, and invests primarily in common stocks of high potential growth companies.
- *American Century Strategic Allocation Aggressive Fund,* seeks long term capital growth with a small amount of income. The targeted asset mix is 78% stocks, 20% bonds, and 2% cash.
- *American Century Strategic Allocation Conservative Fund,* seeks regular income and moderate long-term growth. The targeted asset mix is 45% stocks, 45% bonds, and 10% cash.
- *American Century Strategic Allocation Moderate Fund,* seeks long-term growth of capital with some regular income. The fund usually holds 63% stocks, 31% bonds and 6% cash equivalents.
- *Blackrock Small/Midcap Growth Portfolio Fund,* seeks the growth of capital, and invests 80% of total assets in small and mid-cap companies with capitalizations within the range of the Russell 2500 Growth index.
- *Calvert Income Fund,* seeks to maximize income, to the extent consistent with prudent investment management and preservation of capital, through investments in bonds and other income producing securities.
- *Davis New York Venture,* seeks long-term growth of capital by investing primarily in common stock of U.S. companies with market capitalizations of at least $10 billion.
- *Fidelity Advisor Leveraged Co Stk,* this fund seeks to provide capital appreciation. It normally invests in common stocks of leveraged companies (companies that issue lower-quality debt or have leveraged capital structures).
- *JP Morgan Mid Cap Value Fund,* seeks growth from capital appreciation, and normally invests at least 80% of assets in equity securities of mid-cap companies.
- *Key Guaranteed Portfolio Fund,* provides a guarantee of principal and a guaranteed quarterly interest rate.
- *Lord Abbett Small-Cap Value Fund,* seeks long-term capital appreciation and invests primarily in equity securities of companies that fall within the market capitalization range of companies in the Russell 2000 Index.
- *Oakmark Equity & Income II,* seeks current income, preservation and growth of capital. The fund invests primarily in a diversified portfolio of U.S. equity and fixed-income securities
- *Oppenheimer Int'l Bond Fund,* seeks total return with a secondary objective of income consistent with total return. The fund invests mainly in debt securities of foreign government and corporate issuers.
- *Maxim S&P 500,* this fund seeks investment results that track as closely as possible the total return of the common stocks that comprise the S&P 500.
- *RiverSource Diversified Equity Income,* this fund seeks high level of current income with a secondary consideration of steady growth of capital, and invests primarily in dividend-paying common and preferred stocks.
- *Royce Total Return Fund,* investment seeks long-term growth of capital and current income.
- *Janus Overseas Fund S,* seeks long-term growth of capital. The fund normally invests at least 80% of assets in securities of issuers from countries outside of the United States.

Note A. Description of the Plan (continued)

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum payment in an amount equal to the value of the participant's vested portion of his or her account. In the event of termination of employment before retirement, a participant will be entitled to receive his or her vested account balance. If a terminated participant's vested account balance is greater than $5,000, such participant may leave his or her funds in the Plan. If the terminated participant's vested account balance is equal to or less than $5,000, the Employer may elect to distribute the participant's funds without consent. Participants may withdraw all or a portion of their vested account balances for specific hardship reasons, subject to the approval of the Employer.

Note B. Summary of Significant Accounting Policies

A summary of the significant accounting policies utilized in the preparation of the accompanying financial statements follows:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments

The Plan's investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for a discussion of fair value measurements.

Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed). Net increase in fair value of investments includes the change in market value of all plan investments (including investments bought and sold as well as those held during the year) and all gains, including amounts reinvested in the mutual funds.

Payment of Benefits

Plan benefits are recorded when paid and not when the event giving rise to the payment occurs. Consequently, payments due to terminated employees which remain unpaid at the end of a plan year are not recorded as liabilities of the Plan.

Administrative Expenses

Administrative expenses, which include legal, audit and data processing fees, are either paid directly by the Employer or passed through to the participants of the Plan. The Plan incurred $19,407 in custodial, audit and other administrative expenses of which $12,187 was paid by the Employer.

Note B. **Summary of Significant Accounting Policies** (continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note C. **Financial Information Certified by the Custodian**

The following information has been certified by Great West as of December 31, 2009 and 2008:

Note C. **Financial Information Certified by the Custodian** (continued)

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as those held during the year) increased in value by $1,275,833.

Note D. **Fair Value Measurements**

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability ("exit price") in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Accounting principles generally accepted in the United States ("GAAP") require the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs to determine the exit price. The Plan categorizes its financial instruments, based on the priority of inputs to the valuation technique, into a three-level hierarchy, as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Mutual funds are valued at the net asset value ("NAV") of shares/units held by the plan at year end. Participant and employer contributions receivable are valued at cost which approximates fair value. Loans to participants are valued at amortized cost which approximates fair value. Guaranteed funds are valued at fair value discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (See note E). There was no change in the methodologies used to determine fair value during 2009.

Note D. Fair Value Measurements (continued)

The preceding methods may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,106,146	$ -	$ -	$ 6,106,146
Guaranteed interest account	-	-	2,896,650	2,896,650
Loans to participants	-	-	552,268	552,268
Total assets at fair value	$ 6,106,146	$ -	$ 3,448,918	$ 9,555,064

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,441,826	$ -	$ -	$ 4,441,826
Guaranteed interest account	-	-	2,479,047	2,479,047
Loans to participants	-	-	620,388	620,388
Total assets at fair value	$ 4,441,826	$ -	$ 3,099,435	$ 7,541,261

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Loans to participants	Guaranteed interest account
Balance at December 31, 2008	$ 620,388	$ 2,479,047
Purchases, sales, issuances, and settlements, net	(68,120)	417,603
Balance at December 31, 2009	$ 552,268	$ 2,896,650

Note E. Investment Contract with Insurance Company

In 2008, the Plan entered into a benefit-responsive investment contract with Great West. Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan. Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributed for that portion of the net assets available for plan benefits related to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for plan benefits at fair value. Fair value of this investment contract has been determined to be equivalent to contract value, thus no adjustment from fair value to contract value is necessary. Contract value, as reported to the Plan by Great West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was 3.16% for 2009. The crediting interest rate is based on a formula agreed upon with the issuer and is reviewed on a quarterly basis.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Great West. The Plan administrator believes the occurrence of such an event is not probable.

Note F. Related Party Transactions

Certain plan investments are shares of mutual funds managed by Great West, the Plan's custodian. As the custodian, Great West performs administrative functions such as handling contributions and benefit payments. Accordingly, such transactions qualify as party-in-interest transactions. Fees paid by the plan for investment management services amounted to $7,220 for the year ended December 31, 2009.

Note G. Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the company by a letter dated July 21, 2004, that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that required adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note H. Plan Termination

Although the Employer has not expressed any intent to do so, it has the right under the Plan to discontinue, amend, modify, or terminate the Plan without any liability for such termination subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in their accounts.

Note I. Risks and Uncertainties

The Plan invests in several funds which hold various investment securities. Investment securities are exposed to interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note J. Subsequent Events

Management has evaluated subsequent events through October 11, 2010, the date which the financial statements were available to be issued, and determined that the only reportable event was the restatement of the Plan to comply with the Economic Growth and Tax Relief Reconciliation Act with an effective date of January 2010.
