REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Plan Administrator of the
CalAmp Corp. Employee Savings Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of CalAmp Corp. Employee Savings Plan (the "Plan"), which comprise the statements of net assets available for Plan benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for Plan benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the Unites States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we are not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 2, 6 and 10, which were certified by State Street Bank and Trust, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the 2012 financial statements.

Other Matters

The supplemental schedule, Schedule of Assets Held for Investment Purposes, as of December 31, 2012 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content of Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CALAMP CORP.
EMPLOYEE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

1. Summary of Plan and Significant Accounting Policies

Summary of Plan

The following description of CalAmp Corp. Employee Savings Plan (the "Plan") provides only general information. For more complete information, reference should be made to the Plan document.

On March 1, 1995 California Amplifier, Inc., (the "Plan Sponsor") established the CalAmp Corp. Employee Savings Plan to provide eligible employees with a means of deferring compensation benefits. Upon enrollment in the Plan, a participant may direct contributions in any of the investment options offered by State Street Bank and Trust Company (the "Trustee") (see Note 5). Participants may change their investment options at any time.

The Plan's service provider is ADP Retirement Services and the appointed Trustee is State Street Bank and Trust Company.

Eligibility

All eligible employees 18 years of age or older may participate in the Plan after completing a 60 day eligibility requirement.

Contributions

The Plan Sponsor, at its discretion, can make a matching contribution not to exceed the maximum amount allowed by Internal Revenue Service regulations. The Plan Sponsor makes matching contributions of 50% of the participant's contribution not to exceed 4% of the compensation for a pay period, whichever was lower. During 2012 and 2011, the Plan Sponsor made contributions into the Plan totaling $305,867 and $280,842, respectively.

Participants may contribute the lesser of $17,000 in 2012 or 75% of their annual income into the Plan subject to Internal Revenue Service regulations. All participant contributions vest when contributed. Each participant's account is credited with the participant's contributions and allocations of (a) the Plan Sponsor's contributions and (b) Plan earnings. For participants over age of 50, an additional "catch up" contribution of $5,500 is allowed.

1. **Summary of Plan and Significant Accounting Policies** (continued):

Under the Plan agreement, the Company may make a discretionary matching contribution. All employer contributions for participants who were hired prior to January 1, 2011 vest immediately. Employer contribution vesting for participants hired after January 1, 2011 and related earnings are as follows:

After 1 year of service	25%
After 2 years of service	50%
After 3 years of service	75%
After 4 years of service	100%

Effective June 1, 2012, the Plan included an automatic deferral provision of 3% of compensation subject to reduction election or election not to defer.

Forfeitures

Forfeitures attributable to excess aggregate contributions will be (1) allocated to the matching contribution account of each participant who is a non-highly compensated employee who made elective deferrals during the Plan year or will be (2) applied to reduce employer contributions for the Plan year in which the excess arose to the extent it exceeds employer contributions or the employer has already contributed for such Plan year.

Administrative Fees

The Trustee charges each participant an administrative fee. Total Trustee charges for the years ended December 31, 2012 and 2011 were $4,865 and $11,330, respectively. Allocations are based on the participant's plan earnings or account balances. The Plan Sponsor absorbs all other significant Plan expenses.

Basis of Accounting

The assets included in the statements of net assets available for plan benefits are stated at fair market value as of the statements date. All assets of the Plan are readily determinable on an established market. Investments consist of units in mutual funds and guaranteed certificates with the Trustee.

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States, on an accrual basis, that require the use of estimates and assumptions by the Plan's management.

1. **Summary of Plan and Significant Accounting Policies** (continued):

As described in Financial Accounting Standards Board Accounting Standards Codification, FASB ASC 946-210, Balance Sheet subtopic of Financial Services–Investment Companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. As required by the ASC, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. **Financial Information Certified by the Trustee**

As of December 31, 2012 all of the Plan's assets are held with the Trustee in a trust which holds only the assets of the CalAmp Corp. Employee Savings Plan. Asset investments by the Trustee during the Plan year were based on specific guidelines established by the participants in accordance with the Plan agreement.

Under the terms of the trust agreement, the Trustee is required to keep a record of all transactions of the funds. The value of the investment assets, income earned and the realized and unrealized appreciation on those assets and benefits paid to participants have been taken from the Trustee's records and are included in the Plan's financial statements, financial statement notes and supplemental schedule.

For 2012 and 2011, the financial information included in the Plan's financial statements, has been derived from information certified as complete and accurate by the Trustee in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

3. Tax Status

The Internal Revenue Service has determined, and informed the Trustee, that the Plan is in accordance with applicable sections of the Internal Revenue Code. The Plan has received a favorable tax determination letter as of March 31, 2008. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or other taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

4. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to terminate the Plan subject to the provisions of the Employee Retirement Income Securities Act (ERISA).

5. Investments

The Plan's investments are stated at fair market value (See Note 10). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. For the year ending December 31, 2012 all participants of the Plan had the option to contribute into 30 registered investment companies and common and collective trusts through the Trustee.

6. Valuation of Investments

Individual account balances are measured in shares, which are multiplied by the daily unit value to arrive at the current market value (See Note 10). Gains or losses are calculated as the change in the daily unit value, multiplied by participation units. Realized gains or losses represent the difference between sales proceeds of investment fund shares and their respective unit cost. Unrealized gains or losses represent the difference between the daily unit values at the beginning of the year, or cost if purchased during the year, and the daily unit value at year-end.

6. Valuation of Investments (continued)

All net investment gains or losses are derived from the registered investment companies and common and collective trusts. As of December 31, 2012 and 2011, approximately 87% and 85.8%, of the Plan's assets are held in investments in registered investment companies, respectively.

The following individual assets are greater than 5 percent of the Plan's assets as of December 31, 2012 and 2011:

	2012	2011
Invesco Stable Asset	$ 900,930	$ 977,166

* - Not greather than 5% in 2012
** - Not greather than 5% in 2011
N/A - Not applicable

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated and depreciated in value by $1,459,211 and $623,655, respectively, as follows.

	2012	2011
Mutual funds	$ 1,390,477	$ (630,119)
Common/collective trusts	68,734	6,464
	$ 1,459,211	$ (623,655)

7. Benefits Paid to Participants

In accordance with accounting principles generally accepted in the United States, benefits paid to participants are recorded when paid. There were no benefits incurred in 2012 and 2011 but not paid until 2013 and 2012, respectively.

8. Participant Loans

Under provisions of the Plan, participants may borrow up to 50% of their respective vested balances in the Plan, not to exceed $50,000 and not less than $1,000. The related loans receivable from participants must be repaid within five years, or longer if the loan is for the purchase of a primary residence. The interest rate for the loan is established at the time the loan is originated at prevailing commercial rates. The interest rate on participants' loans ranges from 3.25% to 8.25%. All participant loans are secured by their vested interest in the Plan. Principal and interest are paid ratably through weekly payroll deductions. Total loans outstanding as of December 31, 2012 and 2011 were $454,337 and $527,371, respectively.

9. Party in Interest Transactions

Investments in certain registered investment companies and common and collective trusts are managed by the Trustee and therefore, its transactions within these investments qualify as a related party in interest transaction. For the years ended December 31, 2012 and 2011, the Trustee received $500 and $3,447 respectively, in commissions from the sale of certain investments. These commissions were an integrated part of the sale of these investments and are not shown separately on the 2012 and 2011 financial statements. In addition, for the years ended December 31, 2012 and 2011, the Trustee received $4,865 and $11,330, respectively, in administrative fees from the Plan.

. Fair Value Measurement

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the plan has the ability to access.

10. Fair Value Measurement (continued)

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012, and 2011.

Mutual funds: Valued at the quoted net asset value of shares held by the plan at year end.
Common/Collective trusts: Valued at unit values provided by investment managers, which are based on the fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value of reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of difference methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

10. Fair Value Measurement (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2012 and 2011:

	Fair Value Measurements at December 31, 2012

SSGA S&P 500 Index Fund	$ 568,296	Daily	n/a	-

11. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 excess contributions to the applicable participants prior to March 31, 2013.

12. Benefit Responsive Investment

The Plan invests in benefit-responsive investment contract through its Stable Asset Fund. Contract value is the relevant measurement attribute for fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. However, investment contracts are reported in the financial statements at fair value. Therefore, the statement of net assets available for benefits is prepared on a fair value basis and then adjusted to the contract value. In 2012, the Invesco Stable Asset Fund had average crediting interest rate of 1.623% and average yield 0.906%. Certain events, such as premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the issuer. The plan administrator believes the occurrence of such events that also would limit the Plan's ability to transact at contract value with plan participants is not probable.

13. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

14. Subsequent Event

Subsequent events are events or transactions that occur after the Statements of Net Assets date but before financial statements are issued. The Plan recognizes in the financial statements the effect of all subsequent events that provide additional evidence about conditions that existed at the date of the Statement of Net Assets, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the Statement of Net Assets but arose after the said date and before financial statements are available to be issued.

Effective July 2013, the Plan updated its Plan document to include additional eligibility conditions and employer match vesting schedule. The appointed trustee of the Plan was changed to DWS Trust Company

The Company had evaluated subsequent events through October 11, 2013 which is the date the financial statements are available to be issued.
