TOTAL SAFETY U.S., INC.
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF PLAN

The following description of the Total Safety U.S., Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General – The Plan was adopted effective January 1, 2004 by Total Safety U.S., Inc. and its affiliates, Total Safety Virgin Island, LLC and WSI Industrial Safety (collectively, the "Company" or the "Employer"). The Plan has been regularly amended and restated in order to comply with the changes in the laws governing tax-qualified plans. The Plan sponsored by the Employer, is an income deferral program under Section 401(a) of the Internal Revenue Code ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments and revisions.

Eligibility – Participation in the Plan is voluntary. Participation in the Plan is available to all eligible employees who have attained age twenty-one. The Participant is eligible to participate in the Plan on the first day of the month following the completion of one month of service. Excluded from the class of eligible employees are union employees, part time/temporary/seasonable employees, and non-resident aliens who do not receive United States source earned income from the Employer.

Administration of the Plan – The trustee for the Plan's participant directed assets is John Hancock Life Insurance Company (U.S.A.) ("John Hancock" or "Trustee") for the years ended December 31, 2012 and 2011.

Contributions – Eligible participants may elect to defer up to 50% of their qualified compensation, on a pre-tax basis, which is subject to limits imposed by the IRC. For the 2012 Plan year, participant contributions are limited to $17,000. Participants who are aged 50 before December 31, 2012 are eligible to make catch up contributions of up to $5,500 for the 2012 Plan year. In addition, the Employer, on a discretionary basis, may make matching contributions, profit sharing contributions, and/or qualified non-elective contributions. During 2012, the Employer made total Employer contributions of $1,242,903 which was offset by $83,022 in forfeitures for net cash contributions by the Employer of $1,159,881. The Employer did not make profit sharing or qualified non-elective contributions during 2012.

1. DESCRIPTION OF PLAN (continued)

Participant Accounts – Each participant's account is credited with the participant's contribution and allocation of (a) the Employer contributions and (b) plan earnings. Allocations are based on participant compensation or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's accounts.

Vesting – Participants are immediately vested with respect to salary deferral and qualified non-elective contributions and related earnings. For all Employer discretionary matching and profit sharing contributions and related earnings, participants are vested twenty-five percent after one year and an additional twenty-five percent for each year thereafter and are fully vested at the completion of four years of service.

Notes Receivable from Participants – Participants are allowed to borrow a minimum of $1,000, up to the lesser of $50,000 or 50% of their vested account balance. Interest is charged at the prevailing rate, at the time the note is made, with scheduled repayments to be made through salary deferrals. The notes are typically repaid over a period no longer than five years unless for the purchase of a participant's primary residence, in which the note terms are not to exceed 30 years.

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions and are recorded as a reduction to net assets available for benefits based upon the terms of the Plan.

Forfeitures – The Plan allows for forfeitures of non-vested Employer matching or profit sharing contributions to be used to offset Employer contributions rather than be allocated to participants. At December 31, 2012 and 2011, the total unallocated forfeitures were $84,589 and $52,287, respectively. During 2012, Employer contributions were reduced by $83,022 from forfeited non-vested accounts.

1. DESCRIPTION OF PLAN (continued)

Payment of Benefits – Generally, under the terms of the Plan agreement, participants become fully vested in their accounts upon retiring or becoming totally disabled prior to their retirement date. Upon the death of a participant while actively employed, their account balance becomes fully vested. Participants terminating employment prior to retirement are entitled to receive that portion of their account which is vested. Benefits are paid as a lump-sum amount as defined in the Plan agreement. In addition, in-service distributions may be made from a participant's account attributable to their pre-tax deferral contributions upon either a participant's incurring a financial hardship or attaining age 65, subject to certain conditions and limitations described in the Plan agreement.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Financial Statements − The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, as codified by the Financial Accounting Standards Board ("FASB") in its Accounting Standards Codification ("ASC").

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – All investments are held by the Trustee which provides for self-directed investment programs for individual participants.

The majority of investments are held in the form of units of participation in pooled separate accounts. Units of participation are purchased and sold at their unit values on the date of the transaction. Interest is recorded when due from the investment generating interest income. The change in the current value of the Plan's investment in pooled separate accounts (including investments bought and sold) during the period are reflected in the statement of changes in net assets available for benefits as net appreciation or depreciation in fair value of investments of pooled separate accounts. Investment transactions are recorded on their trade date.

2. SUMMARY OF ACCOUNTING POLICIES (continued)

Additionally, investments held in the Trustee's general accounts (i.e. Guaranteed Interest Accounts) are recorded at fair value since the contracts are not considered benefit responsive. As described in ASC 962, *Plan Accounting – Defined Contribution Pension Plans*, defined contribution plans holding contracts which are considered benefit responsive should be recorded at contract value. Accordingly, non-benefit responsive contracts should be recorded at fair value. Fair value of the guaranteed interest accounts represents the original amount contributed plus interest credited at a fixed rate less administrative expenses and disbursements and is adjusted for appreciation and/or depreciation. The average yield for the John Hancock guaranteed investment accounts was approximately 1.17% and 1.67% for the years ended December 31, 2012 and 2011, respectively. The fund's minimum guaranteed fixed rate of return was approximately 0.20% and 0.72% for the years ended December 31, 2012 and 2011, respectively. Actual gains and losses are realized upon liquidation and may be subject to processing and handling service fees, if any.

Risks and Uncertainties – The Plan provides for various investments offered by the Custodian. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Reclassifications – Certain prior year amounts have been reclassified to conform to the current year presentation. The reclassifications did not impact the net increase in net assets available for benefits.

Fees and Expenses – Fees and expenses incurred in the administration of the Plan, to the extent not paid by the Employer, are charged to and paid from the Plan's assets.

During the year ended December 31, 2012, administrative expenses paid by the Company totaled approximately $39,800.

Benefits – Benefit payments to participants are recorded upon distribution.

Subsequent Events – Effective November 1, 2013, the Plan will change Trustees from American Fund's Retirement Plan Services to ING North America Insurance Corporation. The Plan sponsor considered subsequent events through October 15, 2013, on which the Plan's financial statements were available for issuance.

3. INFORMATION CERTIFIED BY JOHN HANCOCK LIFE INSURANCE COMPANY (U.S.A.)

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodian and furnished to the Plan administrator. The Plan administrator has obtained certifications from John Hancock that information provided to the Plan administrator by the Custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

	DECEMBER 31,	
	2012	2011
INVESTMENTS, at fair value:		
Pooled separate accounts	$ 24,482,692	$ 17,394,025
Guaranteed interest accounts	$ 273,821	$ 332,770
NOTES RECEIVABLE FROM PARTICIPANTS	$ 853,324	$ 738,040

John Hancock certified the completeness and accuracy of $2,718,887 of net appreciation in fair value of investments and $35,646 of interest related to the aforementioned Plan assets for the year ended December 31, 2012.

4. INVESTMENTS

The following table presents the fair values of all investments representing approximately 5% or more of the Plan's net assets at December 31, 2012 and/or 2011:

	2012	2011
John Hancock Lifestyle Moderate Fund	$ 1,859,488	$ 1,744,518
John Hancock Lifestyle Balanced Fund	4,650,540	3,093,387
John Hancock Lifestyle Growth Fund	5,486,560	3,509,757
John Hancock Lifestyle Aggressive Fund	1,846,697	1,358,325
John Hancock Money Market Fund	1,299,393	982,911

5. PLAN TERMINATION

Although the Employer has not expressed intent to do so, the Company has the right under the Plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination or partial termination, the participants would become fully vested in their entire balance, including Employer contributions.

6. FEDERAL INCOME TAX STATUS

The Plan uses the Prototype Non-Standardized 401(k) Plan sponsored by Sentinel Benefits Group, Inc. which received a favorable opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008 that indicated that the form of the prototype is acceptable under section 401 of the IRC for use by employers for the benefit of their employees. The Plan has since been amended; however, the Company believes that the Plan is currently designed and being operating in the accordance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of American require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Employer has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Employer believes it is no longer subject to income tax examinations for years prior to 2008.

7. PARTIES-IN-INTEREST

The Plan invests in various investments managed by John Hancock. John Hancock is the Plan's investment trustee as defined in the Plan agreement and, therefore, certain transactions qualify as party-in-interest.

8. FAIR VALUE MEASUREMENTS

The Plan follows ASC 820, *Fair Value Measurements and Disclosures*, for its investments recognized at fair value. The standard defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The standard establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

The three levels of the fair value hierarchy as defined by the standards are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

8. FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies at December 31, 2012 and 2011.

Pooled Separate Accounts – The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statements date.

Guaranteed Interest Accounts – The fair value of these investment contracts has been estimated based on the discounted cash flows methodology, utilizing current rates of return available for similar contracts, with comparable credit risks and liquidity, as of the respective financial statement dates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarch, the Plan's assets at fair value as of December 31, 2012 and 2011:

DECEMBER 31, 2012	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL

11. MISSED OPPORTUNITY CONTRIBUTIONS

During 2012, the Company failed to defer amounts on certain participant eligible 401(k) wages. In 2013, the Company expects to make affected participant whole by contributing $7 for their benefit.

12. NONEXEMPT PARTY-IN-INTEREST TRANSACTIONS

As reported on the 2012 Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, $2,804 of participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor, thus constituting nonexempt transactions between the Plan and the Company for the Plan year 2012. The Company corrected the untimely remittances, including remittance of lost earnings due to these delays through its July 30, 2013 filing with the IRS.

As reported on the 2011 Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, $134,165 of participant contributions relating to new employees joining the Plan as a result of acquisitions were not remitted to the Plan within the time frame specified by the Department of Labor, thus constituting nonexempt transactions between the Plan and the Company for the Plan year 2011.
