NOTE 1 – DESCRIPTION OF PLAN

The Oncology Consultants, P.A. 401(k) Plan (the Plan) is a qualified retirement plan under the Internal Revenue Code (IRC) covering all eligible employees of Oncology Consultants, P.A. (the Company). In addition, Consultants in Hematology-Oncology, PA is a participating employer in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was effective on May 1, 2000 and has been amended and restated as of January 1, 2012.

The purpose of the Plan is to enable eligible employees the opportunity to save for retirement on a tax-advantaged basis. Significant provisions of the Plan in effect as of December 31, 2012 are summarized below. Participants should refer to the legal Plan document for a more complete description of the Plan's provisions.

Eligibility – All nonexcluded employees of the Company are eligible to participate in the Plan after 90 days of service. An eligible employee may enter the Plan on the first day of each month coinciding with or next following the date they satisfy the service requirement.

Contributions – Participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan. Participant contributions are subject to an annual limit of the lesser of 90% of eligible compensation or a dollar limit set by law. Participants who have attained or will attain age 50 before the end of the calendar year may also make additional catch-up contributions into the Plan. Participants may also deposit into the Plan distributions they have received from other retirement plans and certain Individual Retirement Accounts (IRAs) as rollover contributions.

The Company may make discretionary matching contributions equal to a uniform percentage of eligible contributions made by each participant. The discretionary matching contribution for 2012 equaled 50% of each participant's deferral up to 6% of eligible compensation up to an annual maximum of $1,000.

Additionally, the Company may make discretionary profit sharing contributions and allocate them to eligible employees. There were no profit sharing contributions in 2012.

Participant Accounts – Each participant's account is credited with their contributions, rollovers, employer contributions, and Plan earnings or losses. Participant accounts may also be charged with an allocation of certain administrative expenses. Participant accounts are segregated for purposes of determining the earnings or losses on their accounts. Participant accounts do not share in the investment performance of other participants who have directed their own investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are always 100% vested in their contributions and rollovers plus actual earnings or losses thereon. Vesting in the employer contribution portion of their accounts plus actual Plan earnings or losses thereon is based on periods of service. A participant vests in employer contributions over five periods.

Investment Options – Participants direct the investment of their entire interest in the Plan into various investment securities. The Plan currently offers various pooled separate accounts holding mutual funds as investment options for participants. Participants may redirect the investment of future contributions or exchange existing balances among available investment securities at any time.

Payment of Benefits – Upon termination of employment, disability, death or retirement, a participant or designated beneficiary may elect to receive a lump-sum cash distribution equal to the value of the participant's vested account balance, a direct rollover distribution, or a combination of a cash distribution and direct rollover distribution.

Participants may defer receipt of distribution until a later date unless their account balance is $1,000 or less. If the vested account balance is $1,000 or less, the account will be distributed to the participant without consent as a single lump-sum payment in cash.

If an active participant has attained age 59½, they may receive an in-service distribution from the Plan from certain accounts prior to termination of employment. Hardship distributions are also available to participants who demonstrate certain immediate and heavy financial needs. In accordance with Internal Revenue Service (IRS) regulations, participants must exhaust all other assets reasonably available to them prior to obtaining a hardship withdrawal. Participant's salary deferrals to the Plan are suspended for 6 months after the receipt of the hardship distribution.

Notes Receivable From Participants – Loans are available to all qualifying participants on a reasonably equivalent basis. The minimum loan is $1,000 and the maximum amount is the lesser of ½ of the participant's vested interest or $50,000, reduced by the highest outstanding loan balance during the prior year period. Loans are adequately secured by the balance in the participant's account and bear a reasonable rate of interest. Loan repayments, plus interest, are automatically deducted from a participant's pay through payroll deductions. All loans are to be amortized on a level basis over a reasonable period of time, not to exceed five years. If the loan is for the purchase of a principal residence, the Company may permit a longer repayment term. Participants may only have one loan outstanding at any given time.

Forfeited Accounts – Forfeitures are created when participants terminate employment before being fully vested. Forfeitures are retained in the Plan and will first be used to pay administrative expenses. Any remaining amounts may be used to reduce future employer contributions. Forfeited non-vested accounts amounted to $6,041 and $1,335 at December 31, 2012 and 2011, respectively. During 2012, the Company did not apply any forfeiture balance to pay Plan administrative expenses or employer contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Company deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Participant Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Benefits Paid to Participants – Benefits are recorded when paid. As of December 31, 2012, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Administrative Expenses – The Plan permits the payment of Plan expenses to be made from the Plan's assets. If expenses are paid using the Plan's assets, then the expenses will generally be allocated among the accounts of all participants in the Plan. These expenses will be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the plan. The method of allocating the expenses depends on the nature of the expense itself.

There are certain other expenses that may be paid just from a participant's account. These are expenses that are specifically incurred by, or attributable to, that participant.

Subsequent Events – The Plan has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.

Recent Accounting Pronouncements – The Company has evaluated other recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the Plan's net assets available for benefit.

NOTE 3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Quoted prices in active markets for identical assets or liabilities.

- **Level 2** – Inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

- **Level 3** – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts – Valued at the net asset value (NAV) of units of a pooled account. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probably that the account will sell the investment for an amount different than the reported NAV. Participant transactions may occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Total**

NOTE 4 – INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

All investments and investment activities included in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits, *Note 5* and the supplemental Schedule H, Line 4i- Schedule of Assets (Held at End of Year) have been certified as complete and accurate by John Hancock Life Insurance Company (U.S.A), the custodian of the Plan, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent auditors did not perform auditing procedures with respect to the certified information except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 – INVESTMENTS (UNAUDITED)

At December 31, 2012 and 2011, all investments of the Plan were participant-directed.

The following presents investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets:

	2012	2011
* Retirement Choices at 2010	**$ 838,091**	$ 745,778
* Retirement Choices at 2015	**738,321**	647,872
* Retirement Choices at 2025	**398,123**	327,055
* Retirement Choices at 2030	**407,822**	354,697
* Retirement Choices at 2035	**402,841**	280,635
* Retirement Choices at 2040	**253,028**	241,795

* Indicates party-in-interest.

During 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $301,458.

NOTE 6 – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds held in pooled separate accounts managed by John Hancock USA. As defined by the Plan, these transactions qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibited transactions rules under ERISA. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments. The Company pays directly any other fees related to the Plan's operations.

NOTE 7 – PLAN TERMINATION

Although the Company intends to maintain the Plan indefinitely, the Company reserves the right to terminate the Plan at any time. Upon termination, no further contributions will be made to the Plan and all amounts credited to participants' accounts will become 100% vested. The Company will direct the distribution of participants' accounts in a manner permitted by the Plan as soon as practicable.

NOTE 8 – TAX STATUS

The Plan adopted a volume submitter profit sharing plan with CODA that obtained a favorable opinion letter dated July 1, 2009, which stated that the form of the Plan was accepted under section 401 of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter, but the Company believes that the Plan qualifies and operates as designed. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 – PROHIBITED TRANSACTIONS

During 2012, 2011, and 2010 the Company failed to remit to the Plan certain participant contributions totaling $221,942, $310,354, $263,090, respectively, within the period prescribed by Department of Labor regulations. All late contributions will be corrected during 2013, and the Company will reimburse the participants for lost investment earnings.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
