VISTA PROFESSIONAL OUTDOOR LIGHTING
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

A. Description of Plan

The following description of the Vista Professional Outdoor Lighting 401(k) Profit Sharing Plan (the Plan) provides only general information. The Plan was adopted on April 1, 1996 and amended effective January 1, 2006. The Plan sponsor is U.S.T.E., Inc. dba Vista Professional Outdoor Lighting. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General.

The Plan is a defined contribution plan covering all non-excluded employees of the company who are at least 21 years of age and have completed one year of service of at least 1,000 hours of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions.

Each year, participants may contribute a specific percentage or dollar amount of pretax annual compensation. Total contributions per participant in any calendar year may not exceed the limits of Code Sections 401(k), 404 and 415, which for 2009 the dollar limit is $16,500. Participants who are at least 50 years of age by December 31, 2009 may contribute catch-up contributions up to an additional $5,500. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. All participant contributions under the Plan are to be invested in shares of investment companies for which John Hancock Life Insurance (U.S.A.) acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self direct their account balance among certain investments.

The company has the discretion to match participant contributions each year at a rate of dollar for dollar not to exceed 5 percent of the participant's salary. For 2009, the company match amounted to $93,425. The company may also make a discretionary profit sharing contribution that is determined each year by the Board of Directors of the company. There was no matching contribution for the year ended December 31, 2009. The company match was invested in the same manner chosen by the participant for his salary deferral.

Participant Accounts.

Each participant's account is credited with the participant's contribution and investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined.

Vesting.

Participants are immediately vested in their contributions and any company matching contributions, as well as actual earnings thereon. Vesting in the company's profit sharing portions, if any, plus actual earnings thereon is based on years of continuous service. A participant is fully vested after six years of credited service.

VISTA PROFESSIONAL OUTDOOR LIGHTING
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

A. Description of Plan (Concluded)

Participant Notes Receivable.

Participants may borrow from their fund accounts a minimum of $500 up to a maximum limited to the lesser of $50,000 or $10,000 where it exceeds 50 percent of their vested account balance. Loan terms range from one to five years. A loan for the purchase of a principal residence may be extended beyond the five-year repayment period but will not go beyond a participant's normal retirement age. The loans are secured by up to 50 percent of the participant's vested account balance. Each loan bears an interest rate equal to the Prime Rate in effect at the time of the loan plus 1 percent. The current loan interest rates range from 5.25 percent to 8.00 percent. Principal and interest are paid ratably through payroll deductions on not less than a semi-monthly basis.

Payment of Benefits.

On termination of service due to death, disability or retirement, a participant will receive benefits equal to the value of the participant's account balance. On termination of service due to other reasons, a participant will receive benefits equal to the value of the vested interest in his or her account balance. Payments will be made in one of the following methods:

a. a lump sum payment of entire vested account balance;
b. partial withdrawals of at least $1,000

Plan Administrator Fees.

All routine plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the plan may be paid out of the trust fund unless paid by the employer. For the plan year ended December 31, 2009, administrative fees paid by the Plan totaled $8,492.

Forfeitures.

Amounts forfeited from terminating participants' non-vested portion of their company profit sharing contributions and earnings may be used for several purposes, including but not limited to payment of Plan expenses and to reduce future employer contributions. For the year ended December 31, 2009, no forfeitures were used to reduce employer contributions.

B. Summary of Accounting Policies

Date of Management's Review.

Subsequent events were evaluated through September 29, 2010, which is the date the financial statements were available to be issued.

Basis of Accounting.

The financial statements of the Plan are prepared under the accrual method of accounting.

B. Summary of Accounting Policies (Concluded)

Investment Valuation and Income Recognition.

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the plan at year end. Participant loans are valued at amortized cost, which represents fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits.

Benefits are recorded when the participant has submitted a request for distribution and the request is approved by the plan sponsor.

Estimates.

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

C. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

C. Fair Value Measurements (Continued)

	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements Using: Significant Unobservable Inputs (Level 3)
December 31, 2009			
Investment contract with insurance company	$ 1,248,622	$ 1,248,622	$ -
Common stocks	1,042,959	1,042,959	-
Participant loans	58,258	-	58,258
Total	$ 2,349,839	$ 2,291,581	$ 58,258
December 31, 2008			
Investment contract with insurance company	$ 758,377	$ 758,377	$ -
Common stocks	881,536	881,536	-
Participant loans	15,346	-	15,346
Total	$ 1,655,259	$ 1,639,913	$ 15,346

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

C. Fair Value Measurements (Concluded)

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Participant Loans
December 31, 2009	
Beginning balance	$ 15,346
Purchases, sales, issuances and settlements (net)	42,912
Ending Balance	$ 58,258
December 31, 2008	
Beginning balance	$ 5,646
Purchases, sales, issuances and settlements (net)	9,700
Ending Balance	$ 15,346

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

F. Contract with Insurance Company

The Plan has an investment contract with John Hancock Life Insurance Company (U.S.A.). The contract provides for, among other things, an unallocated funding arrangement, and stipulates that John Hancock Life Insurance Company (U.S.A.) will perform such functions as receiving contributions, valuing the Plan's investments, and making payments of benefits, as directed by the Trustees. John Hancock Life Insurance Company (U.S.A.) maintains the contributions in a general account as well as pooled separate accounts. The general account is credited with interest at a floating rate as defined in the contract, and charged for participant withdrawals and administrative expenses. Separate accounts are segregated from other assets of John Hancock Life Insurance Company (U.S.A.) and are comprised of various investment funds, the values of which are affected by investment income and subject to market changes. In addition, participants may elect to transfer all or part of the funds maintained under the general account in their name to any other investment option maintained under the contract.

G. Information Prepared and Certified by Trustee

The following information for December 31, 2009 included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

H. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

I. Tax Status

The Internal Revenue Service has determined and informed the companies by a letter dated September 4, 2001 that the Plan and related trust are qualified under applicable sections of the Internal Revenue Code. The Plan was most recently amended January 1, 2006. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

J. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

K. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by John Hancock Life Insurance Company. John Hancock is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services amounted to $8,492 for the year ended December 31, 2009.
