D'Addario & Company, Inc. 401(K) Plan

Notes to Financial Statements

December 31, 2009

Note 1 - Description of Plan

The following description of the D'Addario & Company, Inc. 401(K) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Merger

On September 24, 2009, the Board of Directors of D'Addario & Company, Inc., approved the merger of this Plan with the D'Addario & Company, Inc. Employees' Pension Plan ("Pension Plan"), effective January 1, 2010. As a result, all investments in mutual funds and collective trust funds were transferred from the Pension Plan into this Plan on December 31, 2009.

General

The Plan is a defined contribution Plan covering all full-time employees of D'Addario & Company, Inc. and Rico Corporation (earning 1,000 or more hours each Plan year) who have one year of service and are age twenty-one or older. Union employees whose benefits are the subject of good faith bargaining, as well as leased employees, are not eligible to participate. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, the Company makes a safe harbor contribution equal to 3 percent of each active participant's annual compensation. A discretionary matching contribution may also be made by the employer. The employer contribution receivable under the Pension Plan was transferred to this Plan as on December 31, 2009 due to the merger.

Effective January 1, 2010, the Company may make a discretionary contribution equal to 7% of each active eligible employee's annual compensation, plus 5.7% of each eligible employee's compensation in excess of the taxable wage base, not to exceed $30,000 per employee.

Note 1 - Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings charged with an allocation of administrative expenses. Allocations of forfeitures reduce employer contribution. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Investments are participant directed into various investment options offered by the Plan. All participant account balances were transferred from the Pension Plan to this Plan before the close of business on December 31, 2009 due to the merger.

Vesting

Participants vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service (1,000 or more hours in a Plan year). Participants are immediately vested in their contributions and the 3% safe harbor contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount prior to retirement age or may elect monthly, quarterly or annual installments. Should the termination amount be less than $5,000, the participant must receive a lump-sum amount.

Forfeited Accounts

Forfeitures of the employer contribution shall be used first to pay necessary administrative expenses. The balance will be used to reduce the employer's contribution and the remainder will be allocated to all eligible participants' accounts in proportion to their eligible compensation to the total compensation.

At December 31, 2009, forfeited non-vested accounts totaled $26,763 including $26,067 transferred from the Pension Plan. These forfeitures were used to reduce employer contributions for the year 2009.

Note 1 - Description of Plan (continued)

Administrative Expenses

Substantially all administrative expenses have been paid by the Plan sponsor.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities at the date of the financial statements and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date - see Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2010, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

Fair Value Measurements at Reporting Date using:

December 31, 2009	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments in Mutual Funds	$29,540,275	$29,540,275	$ -
Interest in Collective Trusts	7,093,492	-	7,093,492
Total	$36,633,767	$29,540,275	$ 7,093,492

December 31, 2008	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments in Mutual Funds	$ 5,154,287	$ 5,154,287	$ -
Interest in Collective Trusts	1,344,544	-	1,344,544
Total	$ 6,498,831	$ 5,154,287	$ 1,344,544

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, level 2 inputs consist of inputs other than quoted prices that are observable for the asset, either directly or indirectly, and level 3 inputs which are significant unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. No level 3 inputs were applicable to the Plan, and level 2 inputs were used only when level 1 inputs were not available.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

D'Addario & Company, Inc. 401(K) Plan

Notes to Financial Statements

December 31, 2009

Note 1 - Description of Plan

The following description of the D'Addario & Company, Inc. 401(K) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Merger

On September 24, 2009, the Board of Directors of D'Addario & Company, Inc., approved the merger of this Plan with the D'Addario & Company, Inc. Employees' Pension Plan ("Pension Plan"), effective January 1, 2010. As a result, all investments in mutual funds and collective trust funds were transferred from the Pension Plan into this Plan on December 31, 2009.

General

The Plan is a defined contribution Plan covering all full-time employees of D'Addario & Company, Inc. and Rico Corporation (earning 1,000 or more hours each Plan year) who have one year of service and are age twenty-one or older. Union employees whose benefits are the subject of good faith bargaining, as well as leased employees, are not eligible to participate. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, the Company makes a safe harbor contribution equal to 3 percent of each active participant's annual compensation. A discretionary matching contribution may also be made by the employer. The employer contribution receivable under the Pension Plan was transferred to this Plan as on December 31, 2009 due to the merger.

Effective January 1, 2010, the Company may make a discretionary contribution equal to 7% of each active eligible employee's annual compensation, plus 5.7% of each eligible employee's compensation in excess of the taxable wage base, not to exceed $30,000 per employee.

Note 1 - Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings charged with an allocation of administrative expenses. Allocations of forfeitures reduce employer contribution. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Investments are participant directed into various investment options offered by the Plan. All participant account balances were transferred from the Pension Plan to this Plan before the close of business on December 31, 2009 due to the merger.

Vesting

Participants vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service (1,000 or more hours in a Plan year). Participants are immediately vested in their contributions and the 3% safe harbor contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount prior to retirement age or may elect monthly, quarterly or annual installments. Should the termination amount be less than $5,000, the participant must receive a lump-sum amount.

Forfeited Accounts

Forfeitures of the employer contribution shall be used first to pay necessary administrative expenses. The balance will be used to reduce the employer's contribution and the remainder will be allocated to all eligible participants' accounts in proportion to their eligible compensation to the total compensation.

At December 31, 2009, forfeited non-vested accounts totaled $26,763 including $26,067 transferred from the Pension Plan. These forfeitures were used to reduce employer contributions for the year 2009.

Note 1 - Description of Plan (continued)

Administrative Expenses

Substantially all administrative expenses have been paid by the Plan sponsor.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities at the date of the financial statements and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date - see Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2010, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

Fair Value Measurements at Reporting Date using:

December 31, 2009	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments in Mutual Funds	$29,540,275	$29,540,275	$ -
Interest in Collective Trusts	7,093,492	-	7,093,492
Total	$36,633,767	$29,540,275	$ 7,093,492

December 31, 2008	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments in Mutual Funds	$ 5,154,287	$ 5,154,287	$ -
Interest in Collective Trusts	1,344,544	-	1,344,544
Total	$ 6,498,831	$ 5,154,287	$ 1,344,544

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, level 2 inputs consist of inputs other than quoted prices that are observable for the asset, either directly or indirectly, and level 3 inputs which are significant unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. No level 3 inputs were applicable to the Plan, and level 2 inputs were used only when level 1 inputs were not available.

Note 3 - Fair Value Measurements(continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of the Plan's interest in AB Strategic Value Collective Fund and Wells Fargo Stable Return Fund is based on the respective per unit net asset value, as certified by the Plan's custodian, at December 31, 2009 and 2008.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 6 - Tax Status

The Internal Revenue Service has determined and informed the Custodian that the Plan is qualified and the Trust established under the Plan is tax-exempt, under the appropriate Sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Information Certified by the Custodian (Unaudited)

At December 31, 2009 and 2008, the Plan's investments were held by the Custodian. Effective August 1, 2001, the Plan was amended and restated as a "safe harbor 401(K) Plan", requiring the employer to make a special safe harbor contribution equal to 3% of compensation. The Plan was further amended to comply with the new GUST amendments required by the IRS.

Merger

On September 24, 2009, the Board of Directors of D'Addario & Company, Inc., approved the merger of this Plan with the D'Addario & Company, Inc. Employees' Pension Plan ("Pension Plan"), effective January 1, 2010. As a result, all investments in mutual funds and collective trust funds were transferred from the Pension Plan into this Plan on December 31, 2009.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
