## Note 1. Plan Description

The following description of S&S Activewear, LLC (the Company) 401k Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all full-time employees of the Company. Employees are eligible to participate on the first day of January or the first day of July after completing one year of service and after attaining the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute pre-tax annual compensation up to limits as defined in the Plan. Effective July 16, 2008, participants are also permitted to make Roth after-tax contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants age 50 or older may contribute catch-up contributions as allowed per IRS limitations.

The Company makes qualified nonelective contributions equal to three percent of eligible participant compensation for all eligible participants. During the plan year ended December 31, 2009, $224,646 in qualified nonelective contributions were made. The Company may make matching contributions of each eligible participant's pre-tax and post-tax contributions, not to exceed four percent of the participant's compensation. During the plan year ended December 31, 2009, there were no matching contributions made by the Company. The Company may also make separate discretionary contributions. Separate discretionary amounts are determined by allocation groups, as noted within the Plan. During the plan year ended December 31, 2009, $116,942 in separate discretionary contributions were made. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company matching contributions, the Company qualified nonelective contributions and an allocation of any Company separate discretionary contributions, and Plan earnings or losses. Participants with outstanding loans are charged with loan maintenance fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all participant, rollover accounts, and Company contributions plus actual earnings thereon.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant notes receivable: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. The loan repayment period is not to exceed five years. The loans are collateralized by the balance in the participant's account and bear interest at the prevailing commercial rate for similar loans. Only one loan per participant may be outstanding at one time. Interest rates on loans currently outstanding are at 6%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service for any reason, a participant will receive an amount equal to the value of his or her account using various methods per the plan document. In-service and hardship withdrawals are also permitted under certain circumstances.

Administrative costs: Substantially all administrative costs for the Plan are paid for by the Plan.

## Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 20, 2010, the date the financial statements were available to be issued.

New accounting pronouncements: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See Note 5 for the impact of our adoption.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2006.

Note 2. Significant Accounting Policies (Continued)

Pending accounting pronouncement: In January 2010, the FASB issued an amendment, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements (*ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment was effective and not yet adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted.

Note 3. Information Certified by Principal Life Insurance Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following investments:

| | 2009 | 2008 |
|---|---|---|
| Units of guaranteed interest accounts | $ 27,493 | $ 54,569 |

## Note 4. Investments

| | |
|---|---|
| Units of guaranteed interest accounts | $ 245 |
| Units of pooled separate accounts | 463,618 |
| | $ 463,863 |

## Note 5. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 5. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009 and 2008.

*Units of guaranteed interest accounts*: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

*Units of pooled separate accounts*: Valued at the total of the NAV of shares of mutual funds, cash and stocks held by the account at year-end. The Plan's interest in the pooled separate accounts are valued based on the information reported by the investment advisor.

*Participant notes receivable:* Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2009 and 2008:

| | Assets at Fair Value as of December 31, 2009 | | | |
