FRANK MOTORS, INC. 401(K)
PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2009

A. Description of Plan

The following description of the Frank Motors, Inc. 401(k) Profit Sharing Plan and Trust provides only general information. The Plan was established October 1, 1988 and was restated effective June 23, 2009. The following descriptions reflect the provisions of the restatement. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the company. Employees must have completed one year of service in which 1,000 hours have been worked and are age twenty-one years or older to participate in any employer-matching contributions. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a specified dollar amount or percentage of their pretax annual compensation, not to exceed the limits of Code Sections 401(k), 404 and 415, which for the year ended December 31, 2009 is $16,500. Participants who are at least age 50 by December 31, 2009 may contribute catch-up contributions up to an additional $5,500. There were no matching or profit sharing contributions made by the employer this year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the company's contribution if applicable and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100 percent vested in their 401(k) contributions plus actual earnings thereon. Vesting in the company's discretionary matching and contributions plus actual earnings thereon is based on years worked of at least 1,000 hours. A participant is 100 percent vested after five years of credited service.

Participant Notes Receivable

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the participant's vested account balance equal to the amount of the loan. Each loan bears an interest rate set by the Plan Administrator in accordance with regulations issued by the Department of Labor. The current loan interest rates range from 5.25 percent to 10.25 percent. Principal and interest are paid ratably through payroll deductions on a level amortization basis. A loan that is not repaid in accordance with the provisions of the loan agreement will be treated as a default, whereby the amount of the loan will be treated as a Plan distribution.

A. Description of Plan (Concluded)

Payment of Benefits

On termination of service, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or periodic annuity payments over a fixed period of time. On termination of service due to death, the beneficiary may elect to receive a lump sum or periodic annuity payments.

Administrative Expenses

All routine plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the plan may be paid out of the trust fund unless paid by the employer. Investment income is reported net of these administrative expenses by fund. For the plan year ended December 31, 2009, administrative fees were $19,629.

Forfeited Accounts

These accounts are applied to reducing any administrative expenses and any employer's contribution for the year. For the plan year ended December 31, 2009, forfeited non-vested accounts totaled $2,947.

B. Summary of Accounting Policies

Date of Management's Review

Subsequent events were evaluated through September 22, 2010, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

B. Summary of Accounting Policies (Concluded)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2009

Principal loans	266,244	-	266,244
Total	$ 4,234,398	$ 3,968,154	$ 266,244

C. Fair Value Measurements (Concluded)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements

The fair value of Level 2 assets is based on quoted net asset values of similar assets in active markets, quoted prices of markets considered not active, or inputs other than quoted prices (e.g. interest rates).

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Participant Loans
December 31, 2009	
Beginning balance	$ 266,244
Purchases, sales, issuances, and settlements (net)	(18,560)
Ending balance	$ 247,684
December 31, 2008	
Beginning balance	$ 266,427
Purchases, sales, issuances, and settlements (net)	(183)
Ending balance	$ 266,244

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

D. Investments

The Plan's investments include assets held under an investment contract with Principal Life Insurance Company (U.S.A.) more fully described in Note E, as well as participants' loans. The following presents investments at December 31, 2009 and 2008 that represent 5 percent or more of the Plan's net assets.

Principal Guaranteed Interest	n/a	$ 479,400		$ -

During the plan year, the mutual funds comprising the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $726,406.

E. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2009	2008
Investments at fair value	$ 4,968,487	$ 4,234,398
Investment gains	$ 689,718	
Interest Income	$ 36,688	

F. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

G. Tax Status

The Plan obtained its latest determination letter on January 31, 2006 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. Excess Contributions

Contributions received from participants for 2009 are net of payments of $532 made in January, 2010 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2009.

J. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Principal Life Insurance Company. Principal is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services amounted to $19,629 for the year ended December 31, 2009.

K. Reconciliation of Form 5500 to Financial Statements

The following is a reconciliation of participant contributions on the financial statements to form 5500 at December 31, 2009.
